Accordingly, the extent to which the financial statements included in this Prospectus will provide meaningful information is entirely dependent on the reader’s level of familiarity with Indian accounting practices / Indian GAAP. Any reliance by persons not familiar with Indian Accounting Practices on the financial disclosures presented in this Prospectus should accordingly be limited.

Any percentage amounts, as set forth in “**Risk Factors**”, “**Our Business**”, “**Management Discussion and Analysis of Financial Condition and Results of Operations**” and elsewhere in this Prospectus unless otherwise indicated, have been calculated on the basis of the Company’s restated financial statements prepared in accordance with the applicable provisions of the Companies Act, Indian GAAP and restated in accordance with SEBI (ICDR) Regulations, as stated in the report of our Peer Reviewed Auditor, set out in the section titled “**Financial Statements as Restated**” beginning on page 220 of this Prospectus.

CURRENCY OF PRESENTATION

In this Prospectus, references to “Rupees” or “Rs.” or “INR” are to Indian Rupees, the official currency of the Republic of India. All references to “\$”, “US\$”, “USD”, “U.S. \$” or “U.S. Dollars” are to United States Dollars, the official currency of the United States of America.

All references to ‘million’/ ‘Million’/ ‘Mn’ refer to one million, which is equivalent to ‘ten lacs’ or ‘ten lakhs’, the word ‘Lacs / Lakhs / Lac’ means ‘one hundred thousand’ and ‘Crore’ means ‘ten million’ and ‘billion / bn. / Billions’ means ‘one hundred crores.

INDUSTRY AND MARKET DATA

Unless stated otherwise, industry and market data and various forecasts used throughout this Prospectus have been obtained from publicly available information, industry sources and government publications.

Industry sources as well as government publications generally state that the information contained in those publications has been obtained from sources believed to be reliable but their accuracy and completeness and underlying assumptions are not guaranteed and their reliability cannot be assured.

Although we believe that industry data used in this Prospectus is reliable, it has not been independently verified by the Book Running Lead Manager or our Company or any of their affiliates or advisors. Such data involves risks, uncertainties and numerous assumptions and is subject to change based on various factors, including those discussed in the section titled “**Risk Factors**” beginning on page 34 of this Prospectus. Accordingly, investment decisions should not be based solely on such information.

Further, the extent to which the industry and market data presented in this Prospectus is meaningful depends on the reader’s familiarity with and understanding of the methodologies used in compiling such data. There are no standard data gathering methodologies in the industry in which we conduct our business, and methodologies and assumptions may vary widely among different industry sources.

FORWARD LOOKING STATEMENTS

This Prospectus contains certain “forward looking statements”. These forward-looking statements can generally be identified by words or phrases such as “aim”, “anticipate”, “believe”, “expect”, “estimate”, “intend”, “objective”, “plan”, “project”, “shall”, “will”, “will continue”, “will pursue” or other words or phrases of similar meaning. Similarly, statements that describe our strategies, objectives, plans or goals are also forward-looking statements. All forward-looking statements are subject to risks, uncertainties and assumptions about us that could cause actual results and property valuations to differ materially from those contemplated by the relevant forward-looking statement.

Important factors that could cause actual results to differ materially from our expectations include, but are not limited to the following: -

- Uncertainty of the continuing impact of the COVID-19 pandemic on our business and operations;
- General economic and business conditions in the markets in which we operate and in the local, regional, national and international economies;
- Changes in laws and regulations relating to the sectors / areas in which we operate;
- Increased competition in the industry which we operate;
- Factors affecting the industry in which we operate;
- Our ability to meet our capital expenditure requirements;
- Fluctuations in operating costs;
- Our ability to attract and retain qualified personnel;
- Changes in political and social conditions in India, the monetary and interest rate policies of India and other countries;
- Inflation, deflation, unanticipated turbulence in interest rates, equity prices or other rates or prices;
- The performance of the financial markets in India and globally;
- Any adverse outcome in the legal proceedings in which we are involved;
- Our failure to keep pace with rapid changes in technology;
- The occurrence of natural disasters or calamities;
- Other factors beyond our control;
- Our ability to manage risks that arise from these factors;
- Changes in government policies and regulatory actions that apply to or affect our business.

For a further discussion of factors that could cause our actual results to differ, refer to section titled “**Risk Factors**” and chapter titled “**Management Discussion and Analysis of Financial Condition and Results of Operations**” beginning on pages 34 and 313 respectively of this Prospectus. By their nature, certain market risk disclosures are the only estimates and could be materially different from what actually occurs in the future. As a result, actual future gains or losses could materially differ from those that have been estimated.

Future looking statements speak only as of the date of this Prospectus. Neither we, our Directors, Book Running Lead Manager, Underwriters nor any of their respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with SEBI requirements, the BRLM and our Company will ensure that investors in India are informed of material developments until the grant of listing and trading permission by the Stock Exchange.

WEIGHTED AVERAGE PRICE AT WHICH EQUITY SHARES ACQUIRED BY EACH OF OUR PROMOTERS DURING THE LAST ONE YEAR PRECEDING THE DATE OF THIS PROSPECTUS

The Promoters of our Company, **Mr. Manish Gupta and Mr. Vikas Jain** have acquired the Equity Shares of the Company during the past one year preceding the date of this Prospectus are as follows:

Name of Promoters	Number of Equity Shares ⁽¹⁾	Weighted average price per Equity Share (in Rs.) ⁽²⁾
Vikas Jain	60,62,400	-
Manish Gupta	60,62,400	-

(1) 1,25,00,000 Equity Shares were allotted to existing Shareholders of our Company pursuant to a bonus issue in the ratio of 5:1 face value of Rs.10/- each fully paid up at par on March 21, 2022, through capitalization of the eligible reserves. Thus, the cost of acquisition of the Equity Shares acquired pursuant to such bonus issuance has been considered "NIL".

(2) The Weighted Average Price for Equity Shares acquired during last one year has been calculated by taking into account the amount paid by the Promoters to acquire, by way of fresh issuance or transfer, the Equity Shares and the net cost of acquisition has been divided by total number of shares acquired during last one year.

Note: There is no offer for sale from the existing shareholders of the company in the present issue of the Issuer.

AVERAGE COST OF ACQUISITION OF SHARES

The average cost of acquisition of subscription of equity shares by our promoters are set forth in the table below:

Our Company has not undertaken a split or consolidation of the Equity Shares in the one year preceding the date of this Prospectus.

SEBI EXEMPTIONS

Our Company has not been granted any exemption from complying with any provisions of securities laws by SEBI.

SECTION III: RISK FACTORS

An investment in Equity Shares involves a high degree of risk. You should carefully consider all of the information in this Prospectus and the Prospectus, when available, particularly the “Our Business”, “Financial Statements as Restated” and related notes and “Management Discussions and Analysis of Financial Condition and Results of Operations” on page 145, 220 and 313 respectively of this Prospectus and the risks and uncertainties described below, before making an investment in the Equity Shares. The risks and uncertainties described in this section are not the only risks that we currently face. Additional risks and uncertainties not presently known to us or that we currently believe to be immaterial may also have an adverse impact on our business, results of operations, cash flows and financial condition. If any or a combination of the following risks, or other risks that are not currently known or are currently deemed immaterial, actually occur, our business, results of operations, cash flows and financial condition may be adversely affected, the price of the Equity Shares could decline, and you may lose all or part of your investment. To the extent the COVID-19 pandemic adversely affects our business and financial results, it may also have the effect of heightening many of the other risks described in this section.

In making an investment decision, as prospective investors, you must rely on your own examination of us and the terms of the issue, including the merits and the risks involved. You should consult your tax, financial, legal advisors about the particular consequences of investing in the Issue. Unless specified or quantified in the relevant risk factors below, we are unable to quantify the financial or other impact of any of the risks described in this section. Prospective investors should pay particular attention to the fact that our Company is incorporated under the laws of India and is subject to a legal and regulatory environment, which may differ in certain respects from that of other countries. To obtain a complete understanding of our business, you should read this section in conjunction with the sections titled “Our Industry”, “Our Business”, and “Financial Statements as Restated” beginning on pages 125, 145 and 220, respectively, of this Prospectus, as well as the other financial and statistical information contained in this Prospectus.

This Prospectus also contains certain forward-looking statements that involve risks, assumptions, estimates and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of various factors, including the considerations described in this section and elsewhere in this Prospectus.

The financial and other related implications of risks concerned, wherever quantifiable, have been disclosed in the risk factors below. However, there are risk factors the potential effects of which are not quantifiable and therefore no quantification has been provided with respect to such risk factors. In making an investment decision, prospective investors must rely on their own examination of our Company and the terms of the issue, including the merits and the risks involved. You should not invest in this issue unless you are prepared to accept the risk of losing all or part of your investment, and you should consult your tax, financial and legal advisors about the particular consequences to you of an investment in our Equity Shares.

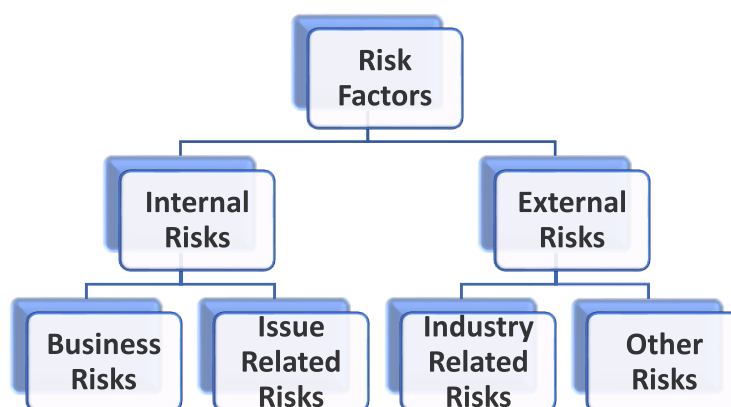

Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial or other implications of any of the risks described in this section. Unless the context otherwise requires, in this section, reference to “we”, “us” “our” refers to our Company together with our Subsidiary, on a consolidated basis.

Unless otherwise stated, the financial information of our Company used in this section is derived from our audited financial statements under Indian GAAP, as restated.

The Risk Factors have been determined on the basis of their materiality. The following factors have been considered for determining the materiality of Risk Factors:

- Some events may not be material individually but may be found material collectively.
- Some events may have material impact qualitatively instead of quantitatively.
- Some events may not be material at present but may be having material impact in future.

The risk factors are classified as under for the sake of better clarity and increased understanding:

INTERNAL RISKS FACTORS

Business Specific/ Company specific Risk

1. **We do not have long-term contracts with suppliers of solar PV cells and all other raw materials and therefore, are susceptible to potential unavailability of raw materials.**

The availability of solar PV cells and various raw materials, essential for manufacturing solar PV modules, is through short term supply contracts. We purchase all these raw materials on a need basis primarily through the spot market purchase mechanism and seek to source such raw materials from diverse suppliers.

In the past few years, there has been a growing demand for solar power products necessitating continuing expansion of the full solar value chain industry. This growing demand and global supply chains to meet such demand, however, has been negatively impacted by the COVID-19 pandemic. For details, see “**Risk Factor 22 – Outbreaks of contagious diseases, such as the recent outbreak of COVID-19, may have a material adverse effect on our business, financial condition, results of operations, cash flows and prospects.**”. In the future, there may be industry-wide fluctuations in the supply of raw materials due to the growing demand for solar PV modules. We may, from time to time, experience late delivery from suppliers and may have to purchase raw materials at a higher price or with lower conversion efficiencies / specifications, which in turn may result in reduced revenues per solar PV module. Further, our raw material purchases from our top five suppliers (both international and domestic) for the year ended on March 31 2022, 2021 and 2020 was Rs. 9,588.91 Lakhs, Rs. 5,490.53 Lakhs and Rs. 4,538.72 Lakhs, respectively, representing 49.94%, 37.90%, and 60.77% of our total purchases, respectively.

There can be no assurance that the current procurement efforts will be successful in ensuring an adequate supply of raw materials at viable prices to meet our solar PV module production requirements. If we are unable to meet customer demand for our products or if our products are only available at a higher price because of a shortage of raw materials, we could lose customers, market share and revenue. Further, many of our competitors, that also purchase raw materials from our suppliers, may have stronger relationships as well as greater bargaining power with the suppliers. This may materially and adversely affect our business, financial condition, results of operations and cash flow.

2. We derive a significant amount of revenue from only one product and therefore its continued success is necessary for our business and prospects.

We are in the business of manufacturing solar PV modules using polycrystalline and monocrystalline cell technology with wattages ranging between 340Wp and 450Wp with efficiencies, which is a measure of the amount of sunlight (irradiation) that falls on the surface of a solar panel and is converted into electricity (“Efficiencies”), ranging between 17.45% and 20.35%. For the Fiscal 2022, 2021 and 2020, the revenue from the sale of solar PV modules was Rs. 20,734.91 Lakhs, Rs. 14,426.90 Lakhs, and Rs. 8,242.15 Lakhs, respectively, and which represented 96.30%, 88.68% and 92.87%, respectively, of our revenue from operations in such periods. We are therefore exposed to the changes in demand for solar PV modules manufactured using polycrystalline and monocrystalline technology which would affect our business, profitability and prospects. On the other hand, some of our competitors may be planning to become vertically integrated from upstream mono/ poly-silicon manufacturing to solar system integration. Thus, our business depends entirely upon our ability to manufacture and sell solar PV modules using the poly-crystalline and mono-crystalline technology on a profitable basis. The lack of product diversification may make the results of our operations more volatile than if we manufactured more than one type of product.

Note: Efficiencies is a measure of the amount of sunlight (irradiation) that falls on the surface of a solar panel and is converted into electricity and is therefore, calculated mathematically (Efficiency = Output Power / Input Power, wherein Input Power refers to module area multiplied by sunlight).

3. Changes in the price of solar PV cells and other raw materials due to changes in demand or other factors could adversely affect our manufacturing of solar PV modules.

In order to manufacture solar PV modules, we require multiple raw materials and components, primarily solar PV cells. The cost of solar PV cell constitutes a significant portion of our total manufacturing cost. For the year ended March 31 2022, 2021 and 2020, our purchases towards procurement of solar cells were Rs. 9,424.42 Lakhs, Rs. 5,764.00 Lakhs and Rs. 4,067.16 Lakhs, which represented 49.08%, 39.79% and 54.45%, respectively, of our total purchases in such periods. The price of solar PV cells is volatile and unpredictable. There can be no assurance that the price of solar PV cells will decline and /or stabilize at a particular level. Further, there can be no assurance that the price of solar PV cells will not increase in the future or that we will be able to pass on such increases to our customers. During times of scarcity, suppliers could substantially increase their prices. Additionally, the prices of our raw materials fluctuate based on a number of factors outside our control, including general economic conditions, competition, commodity market fluctuations, the quality and availability of supply, currency fluctuations, consumer demand, manufacturing capacity, transportation costs, import duties and government policies and regulations.

The failure to achieve corresponding sales price increases in a timely manner, sales price erosion

without a corresponding reduction in raw material costs, a significant shortage of supply of solar PV cells and delays in their availability or failure to re-negotiate favourable raw material supply contracts are factors that may have a material adverse effect on our business, financial condition and results of operations.

4. We currently avail benefits under certain export promotion schemes. Any failure in meeting the obligations under such schemes, may result in adversely affecting our business operations and our financial condition.

We currently avail benefits under certain export promotion schemes, namely, Export Promotion Capital Goods (“EPCG”) licenses in the form of import duty savings amounting to Rs. 89,77,684.23 and Rs. 14,87,120.00 respectively. As per the licensing requirement under the said scheme, we are bound by certain export obligations which require us to export goods of a defined amount, failing which, we may have to pay the Government, a sum equivalent to the duty benefit enjoyed by us under the said schemes along with interest. Thus, under the said scheme, total export obligation (“EO”) is 6 times of duty saved in six years from the date of License in two blocks i.e., 50% of EO in 1st block (Year 1 to Year 4) and balance 50% of EO in 2nd block (Year 5 to Year 6). The risk associated is if EO will not be fulfilled till the end of EO period then the Company will have to make payment of Import duty in proportion to the EO not fulfilled along with maximum applicable Interest amounting to Rs. 80,79,918.00 (for License – I) and Rs. 13,38,408.00 (For License – II). (As per para 5.23 of Chapter 5 of Foreign Trade Policy 2015-2020). However, the amount of interest required to be paid shall be proportionate to the EO not fulfilled.

The details of the EPCG licenses, amount of duty saved, details of block-wise export obligation, validity of EO period, applicable interest, etc. have been detailed in the table as under:

S.No.	Particulars	Amount	Machinery imported

	Total Liability after Six Year	Rs. 28,25,528.00	
	Total Liability of the Company	Rs. 1,98,83,130.23	

As of March 31, 2022, our pending obligations against EPCG Licenses was Rs. 198.83 Lakhs, which will be adjusted at the time of the consequent exports as per the required timelines. Our Company is striving to promote export sales and has reached out to potential buyers in the international market. However, no deal has been materialized as on date. The company had not earned export revenues in the last three financial years. Any reduction or withdrawal of benefits or our inability to meet any of the conditions prescribed under any of the schemes would adversely affect our business and financial condition.

5. Our revenue from operations is highly dependent upon a limited number of customers.

Our revenue from operations of our top five customers for the FY 2021-22, 2020-21 and 2019-20 was Rs. 13,983.20 Lakhs, Rs. 8,090.65 Lakhs and Rs. 3,988.79 Lakhs, respectively, which represented 64.94%, 50.12%, and 45.15% of our revenue from operations for the same periods. These top five customers, for the respective periods are module customers.

Since we are significantly dependent on certain key customers for a significant portion of our sales, the loss of any one of our key customers for any reason (including, due to failure to negotiate acceptable terms, disputes with customers, adverse change in the financial condition of such customers, including due to possible bankruptcy or liquidation or other financial hardship, merger or decline in their sales, reduced or delayed customer requirements, plant shutdowns, labour strikes or other work stoppages), could have an adverse effect on our business, results of operations and financial condition. While we strive to maintain good relations with our key customers, there is no assurance that our key customers will continue to place similar orders with us in the future. In addition to these external factors, these key customers may also set off any payment obligations, require indemnification for themselves or their affiliates, replace us with our competitors, or replace their existing products with alternative products which we do not supply. Therefore, there can be no assurance that we will not lose all or a portion of sales to these key customers, or that we will be able to offset any reduction of prices to these customers with reductions in our costs or by obtaining new customers. We may continue to remain dependent upon our key customers for a substantial portion of our revenues. Further, the deterioration of the financial condition or business prospects of these customers could reduce their requirement of our products and result in a significant decrease in the revenues we derive from these customers. In the event of our failure to retain one or more of our key customers, it will have an adverse effect on our financial performance and result of operations.

We generally have short to medium term arrangements for the supply of our products to our customers and there can be no assurance that we will be able to maintain historic levels of business from our significant customers, or that we will be able to significantly reduce customer concentration in the future, all of which could have an impact on our business prospects and financial performance. Dependence on a few counterparties or states/ regions is risky for manufacturers in case of customer attrition, customer exits from the sector or decline in demand. Further, there are challenges in negotiating pricing and payment terms with key customers, which may have an impact on our profit margins and financial performance. We cannot assure you that we will be able to maintain historic levels of business from our key customers, or that we will be able to significantly reduce customer concentration in the future, all of which could have an impact on our business prospects and financial performance.

We benefit from policies adopted by the government in respect of solar power developments, including incentives granted, resource and budgetary allocation and concessions. Any changes in these existing policies could adversely affect our existing projects and opportunities to secure new

projects.

6. Reduced growth in, or the reduction/ removal of, exemption of, elimination or expiration of, government subsidies and economic incentives to promote solar energy and domestic production could reduce demand for our solar modules.

The GoI has offered several fiscal benefits, tariffs, safeguard duties on foreign imports, policies and schemes aimed at promoting the solar energy industry. Reduced growth in or the reduction, elimination or expiration of these government subsidies and economic incentives may result in the diminished competitiveness of solar energy relative to conventional and non-solar renewable sources of energy, and could materially and adversely affect the growth of the solar energy industry and our revenue from operations. Furthermore, government incentives typically expire, phase out over time, exhaust the allocated funding or require renewal by the applicable authority, and there can be no assurances that the GoI will continue to offer incentives to the solar energy industry in the future.

The imposition of extra duties being levied on sources of energy that cause carbon dioxide pollution for the purpose of reducing greenhouse gas emissions has indirectly supported the expansion of power generated from renewable energy and, in turn, solar power projects in general. If such direct and indirect government support for renewable energy (in particular, solar power) is terminated or reduced, it would make producing electricity from solar power projects less competitive and reduce demand for new solar power projects which in turn adversely impacts our revenue and results of operation.

In particular, the GoI had introduced the safeguard duty in July 2018 on import of solar cells and solar panels which was applicable until July 2021, and this is being replaced with significantly higher basic customs duty of 25% on solar cells and 40% on solar panels, commencing April 01, 2022. The imposition of such high basic customs duty on imported solar cells is expected to impact our cost of materials unless we are able to implement our backward integration plan of producing our own solar cells by such time in a cost-effective manner or procure from other cost-effective and domestic producers of solar cells. In addition, the GoI may impose additional duties on the equipment that we will need to import for implementation of our proposed expansion, upgradation and backward integration plans.

Further, government projects are permitted to procure solar PV modules of certain quality and specification only from a limited number of select suppliers identified in the Approved List of Models and Manufacturers (“ALMM”) identified by the MNRE. Furthermore, regulatory policies in various states in India currently provide a favourable framework for securing attractive returns on capital invested for renewable and solar energy projects. If any of these incentives or policies are adversely amended, eliminated or not extended beyond their current expiration dates, or if funding for these incentives is reduced, or if governmental support of renewable energy development, particularly solar energy, is discontinued or reduced, it could have an adverse effect on our ability to obtain financing, and may affect the viability of new solar energy projects based on current tariff and cost assumptions.

We expect that a substantial portion of our solar PV modules, upon sale, shall eventually be utilized in the on-grid market and generate electricity to feed into the national grid. We also believe that the near-term growth of the solar energy market for on-grid applications depends in large part on the availability and size of government subsidies and economic incentives. In addition, if any of these policies or schemes are reduced or discontinued, sales of our solar PV modules could decline significantly, which could have a material adverse effect on our business and results of operations. Electric utility companies or generators of electricity from fossil fuels or other renewable energy

sources could also lobby for a change in the relevant legislation in their markets to protect their revenue streams. Reduced growth in or the reduction, elimination or expiration of government subsidies and economic incentives to promote solar energy and domestic production, could cause our revenue from operations to decline and adversely affect our business and financial condition.

7. We are required to maintain certain licenses, approvals, registrations, consents and permits in the ordinary course of business. Failure to obtain the requisite approvals result in non-compliance and therefore, affect our business operations, financial condition, result of operations and prospects.

We require a number of licenses, approvals, registrations, consents and permits to operate our business in India and globally. As we expand our operations globally and enter new markets, we may not be familiar with local regulations and may need to incur additional costs to ensure regulatory compliance. In addition, we may need to apply for approvals, including the renewal of approvals which may expire, from time to time, as and when required in the ordinary course of business. On conversion of our company to Public Limited Company, the name has been changed to Insolation Energy Limited from erstwhile name Insolation Energy Private Limited vide special resolution passed by our shareholders at Extraordinary General Meeting held on January 24, 2022. Consequent to this change, we have updated the same in various approvals, license and registrations taken by our company in the ordinary course of our business however in some approvals, licenses and registration, the updated name is still pending or in process. Further, under Industrial Employment (Standing Orders) Act, 1946, every industrial establishment wherein 100 or more workmen are employed, or were employed on any day of the preceding 12 months is required to submit standing orders to certifying Authority for its certification. Our Company has not obtained such certification. Our company has also not obtained Registration certificate under Delhi Shops and Establishment Act, 1954 for marketing office at Delhi.

In the event that we are unable to obtain such approvals and permits, our business, results of operations, cash flows and financial condition could be adversely affected. If we fail to obtain, maintain or renew such licenses, approvals, registrations, and permits in a timely manner, it may result in interruption of our business operations, which could have an adverse effect on our business, financial condition and results of operations. While we have obtained key approvals required for our business, we have also applied for, and are awaiting grant/ renewal of certain key approvals.

Furthermore, government approvals and licenses are subject to numerous conditions, including adherence to emission standards and regular monitoring and compliance requirements, some of which are onerous and require us to incur substantial expenditure. We may incur substantial costs, including clean up and/or remediation costs, fines and civil or criminal sanctions, as a result of violations of or liabilities under environmental or health and safety laws, which may have a material adverse effect on our business or financial condition. We cannot assure you that approvals, licenses, registrations and permits issued to us would not be suspended or revoked in the event of non-compliance with any terms or conditions thereof, or pursuant to any regulatory action. Any failure to renew the approvals that have expired or apply for, obtain and validly maintain the required licenses, approvals, registrations or permits, or any suspension or revocation of any approvals, licenses, registrations and permits that have been or may be issued to us, may materially and adversely affect our operations. For further details, please see the section entitled **“Government and Statutory Approvals”** on page 350 of this Prospectus for more details, including such approvals for which applications are pending before relevant authorities.

8. Our Subsidiary may have conflicts of interest as they are engaged in similar business or industry segments and may compete with us.

Our Subsidiary, namely, *Insolation Green Energy Private Limited* have common pursuits similar to that of our Company, therefore, there may be conflicts of interest in allocating business opportunities between us and our Subsidiary. We cannot assure you that there will not be any conflict of interest between our Company and our Subsidiary in future. We have not entered into any non-compete agreements with such Subsidiary and there can be no assurance that such entities will not compete with our existing business or any future business that we might undertake or that we will be able to suitably resolve such a conflict without an adverse effect on our business and financial performance.

9. Our manufacturing capacities may not reach their rated capacity and we may also be unable to effectively utilize our expanded manufacturing capacities.

In FY 2021-22, 2020-21 and 2019-20, our capacity utilization was as follows:

Particulars	FY 2021-22	FY 2020-21	FY 2019-20
Rated Installed Capacity	200 MW	200 MW	80 MW
Effective Installed Capacity	100 MW	100 MW	60 MW
Capacity Utilized	83.58 MW	60.31 MW	43.86 MW
Capacity Utilized (% of Effective Installed Capacity)	83.58%	82.24%	73.10%

The Company's Current Rated Capacity of 200 MW has been considered based on 100% operational effectiveness at 365 working days whereas the effective installed Capacity is calculated on the basis of various dimensions, performance and quality of module manufactured. Hence, our manufacturing capacities may not reach their rated capacity. Further, these rates are not indicative of future capacity utilization rates, which is dependent on various factors, including demand for our products, product mix, availability of materials, components and equipment, our ability to manage our inventory and improve operational efficiency. Under-utilization of our manufacturing capacities, over extended periods, or significant under-utilization in the short-term, could materially and adversely impact our business, growth prospects and future financial performance on account of the constant overhead costs associated with our business. For details on our manufacturing capacities, see ***“Our Business – Manufacturing, Innovation and Business Areas”*** on page 152.

Our ability to maintain our profitability depends, among other factors, on our ability to optimize the product mix to support high-efficiency solar PV modules with higher margins with consistent long-term demand; and the demand and supply balance of our products in our existing and target markets. In particular, the level of our capacity utilization can impact our operating results. The changes in demand for our products could reduce our ability to accurately estimate future customer requirements, make it difficult to schedule production and lead to over production and utilization of our manufacturing capacity for a particular product. Therefore, over production of certain products and under production of some other products may result in a mismatch of capacity and capacity utilization. Any such mismatch leading to under utilization of our manufacturing facilities could adversely affect our business, results of operations, financial condition and cash flows.

10. Our Company requires significant amounts of working capital for a continued growth. Our inability to meet our working capital requirements may have an adverse effect on our results of operations. Further, failure to manage our inventory could have an adverse effect on our sales, profitability, cash flow and liquidity.

Our business requires a significant amount of working capital for smooth functioning. As on March 31, 2022, March 31, 2021 and March 31, 2020 our inventories form 35.81%, 36.70% and 43.59% of our respective total current assets and trade receivables form 45.10%, 24.54% and 30.74% of our respective total current assets. We meet our requirement for working capital majorly through banking facilities, net worth and internal accruals. In future, our inability, if any, to meet our working capital requirements or inability to renew our existing working capital requirements through banking arrangements can adversely impact our business operations and financial position.

Our business is working capital intensive. A significant portion of our working capital is utilized towards trade receivables and inventories. Summary of our working capital position based on the consolidated financial statement is given below:

(Rs. in Lakhs)

Particulars	FY 2019-20 (Restated)	FY 2020-21 (Restated)	FY 2021-22 (Restated)
Current Assets:			
Inventories:			
– Raw Material	528.74	1,124.62	1,764.23
– Work in progress	36.18	26.75	109.04
– Finished Goods / Stock in Trade	78.87	314.52	468.26
Trade receivables	810.66	980.33	1,651.10
Cash and Cash Equivalents	69.04	24.26	656.21
Short Term Loans & Advances	274.14	1,523.61	722.28
Total (A)	1,797.63	3,994.09	5,371.12
Current Liabilities:			
Trade payables	398.60	1,054.05	1,168.25
Other Current Liabilities & Provisions	214.05	565.76	718.23
Total (B)	612.65	1,619.81	1,886.48
Total Working Capital (A) - (B)	1,184.98	2,374.28	3,484.64
Inventories as a % of Total Current Assets	35.81%	36.70%	43.59%
Trade Receivables as a % of Total Current Assets	45.10%	24.54%	30.74%

We intend to continue growing by expanding our business operations. This may result in increase in the quantum of current assets particularly trade receivables and inventories. The results of operations of our business are dependent on our ability to effectively manage our inventory and stocks. To effectively manage our inventory, we must be able to accurately estimate customer demand and supply requirements and manufacture and trade inventory accordingly. We estimate our sales based on the forecast, demand and requirements and also on the customer specifications.

Natural disasters such as earthquakes, extreme climatic or weather conditions such as floods or droughts may adversely impact the supply of raw material and local transportation. Should our supply of raw materials be disrupted, we may not be able to procure an alternate source of supply in time to meet the demands of our customers. Such disruption to supply would materially and adversely affect

our business, profitability and reputation. In addition, disruptions to the delivery of product to our customer may occur for reasons such as poor handling, transportation bottlenecks, or labour strikes, which could lead to delayed or lost deliveries or damaged products and disrupt supply of these products. To improve our line capability, we try to stock our inventory at our manufacturing facility. An optimal level of inventory is important to our business as it allows us to respond to customer demand effectively. If we over-stock inventory, our capital requirements will increase and we will incur additional financing costs. If we under-stock inventory, our ability to meet customer demand and our operating results may be adversely affected. Any mismatch between our planning and actual consumer consumption could lead to potential excess inventory or out-of-stock situations, either of which could have an adverse effect on our business, financial condition and results of operation.

We intend to continue growing by expanding our business operations. This may result in increase in the quantum of current assets particularly trade receivables and inventories. Our inability to maintain sufficient cash flow, credit facility and other sources of fund, in a timely manner, or at all, to meet the requirement of working capital could adversely affect our financial condition and result of our operations. For further details regarding working capital requirement, please refer to the chapters titled “*Objects of the Issue*” and “*Management Discussion and Analysis of Financial Condition and Results of Operation*” beginning on pages 108 and 313, respectively, of this Prospectus.

11. Technological changes, evolving customer requirements and emerging industry trends may affect our business, may render our current technologies obsolete and may require us to make substantial capital investments.

Our business functions in a high technology sector and as a result the possibility of technological obsolescence is greater than companies in more conventional industries. Our future success depends, in part, on our ability to respond to technological advances, evolving customer requirements and emerging industry standards and practices on a cost-effective and timely basis. The development and implementation of such technology entails technical and business risk and significant implementation costs. In China, schemes, such as Top Runner, have aided Chinese players in improving their overall product quality. However, historically, Indian peers have not been as active in this regard and face the risk of facing a demand disruption given the significant technological advancements their foreign rivals are making which could even render India manufactured modules redundant. We cannot assure you that we will be able to successfully implement new technologies or adapt our processing systems to evolving customer requirements or emerging industry standards. Changes in technology may make newer solutions more competitive than ours or may require us to make additional capital expenditure to upgrade our facilities and technology. If we are unable, for technical, legal, financial or other reasons, to adapt in a timely manner to changing market conditions, evolving customer requirements or technological changes, our business, financial condition and results of operations could be materially and adversely affected.

12. Stringent measures enforced by the Government on the import of solar raw materials, machineries and equipment and related components may increase our business costs.

Government of India had introduced the safeguard duty in July 2018 on import of solar cells and solar panels which was applicable until July 2021, and this is being replaced with significantly higher basic customs duty of 25% on solar cells and 40% on solar panels, commencing April 01, 2022. The imposition of such high basic customs duty on imported solar cells is expected to impact our cost of materials unless we are able to implement our backward integration plan of producing our own solar cells by such time in a cost-effective manner or procure from other cost-effective and domestic producers of solar cells. In addition, the GOI may impose additional duties on the equipment that we will need to import for implementation of our proposed expansion, upgradation and backward integration plans

A substantial part of our raw materials, including solar cells, are imported from China and certain other countries. The details of raw materials imported in FY 2021-22 from different countries is given as under:

Particulars	Country of Import	Amount (USD)	Amount (INR)
Aluminium Frame	China	11,50,106.20	8,55,70,138.87
Back Sheet	China	1,07,216.80	79,54,180.46

Solar Glass	China	6,51,043.92	4,79,86,068.52
	Vietnam	2,11,032.36	1,57,75,539.09
Solar Glass & JB	China	52,399.10	38,20,418.38
Grand Total		1,46,73,331.95	1,09,38,27,589.47
Total Imports from China		1,36,48,076.79	1,01,76,29,056.89
Total Imports from Hongkong		3,75,840.00	2,80,43,000.93
Total Imports from Malaysia		4,38,382.80	3,23,79,992.56
Total Imports from Vietnam		2,11,032.36	1,57,75,539.09
Grand Total		1,46,73,331.95	1,09,38,27,589.47
% of total raw materials purchased			57.02%

Similarly for FY 2020-21 and 2019-20, our cost of imported raw materials was Rs. 4,518.65 Lakhs and Rs. 3,847.37 Lakhs, which represented 31.19%, and 51.50%, respectively, of our total raw material purchases in such periods.

Further, government projects are permitted to procure solar PV modules of certain quality and specification only from a limited number of select suppliers identified in the Approved List of Models and Manufacturers (“ALMM”) identified by the MNRE. Furthermore, regulatory policies in various states in India currently provide a favourable framework for securing attractive returns on capital invested for renewable and solar energy projects. If any of these incentives or policies are adversely amended, eliminated or not extended beyond their current expiration dates, or if funding for these incentives is reduced, or if governmental support of renewable energy development, particularly solar energy, is discontinued or reduced, it could have an adverse effect on our ability to obtain financing, and may affect the viability of new solar energy projects based on current tariff and cost assumptions.

13. Properties, on which we have our registered office and manufacturing facilities, are not owned by us. Any termination or dispute in relation to this lease/ rental agreement may have an adverse effect on our business operations and results thereof

The properties where our registered office and manufacturing facilities are situated in Jaipur and Delhi are not owned by our company and the same have been taken on lease from the promoters of our Company, Mr. Manish Gupta and Mr. Vikas Jain with whom we have entered into a rent agreement. For details on properties taken on lease / rent by us please refer to the heading titled “**Properties**” in chapter titled “**Our Business**” beginning on page 145 of this Prospectus.

The agreements are renewable on mutually agreed terms. The rent agreements have a clause for the renewal of the same for a further period as may be mutually agreed among the parties after the expiry of the current period. In the event of the said agreements are not being renewed or agreement is terminated by either of the parties or upon expiry of the said agreement or increase in rent or any non-compliance, we may have to either vacate the registered office and manufacturing facility and

re-locate to another premises or agree to pay the extra amount for using the same prices. Further, increase in rent structure will lead to increase of our expenditure which in turn will lead to decrease of revenue and increase of operational cost. Also, searching for the suitable location, setting the registered office and manufacturing facility from the scratch and relocating the inventory may lead to loss of clients, reduction in sales thereby affecting our profitability.

- 14. Our Company has not entered into formal understanding / agreements which are legally enforceable with some of its distributors, etc. in the normal course of business operations. Some of the agreements may be inadequately stamped which may affect our business and results of operations.**

Our Company has not executed formal agreements with some of the distributors, etc. Further, some of the agreements executed by our Company are not stamped adequately. The effect of inadequate stamping is that the document is not admissible as evidence in legal proceedings and parties to that agreement may not be able to legally enforce the same, except after paying a deficiency in stamping, penalty and interest thereon for inadequate stamping. Any potential dispute vis-à-vis the non-compliances relating to stamp duty or non-execution of agreements may adversely impact the continuance of our business activity from such entity.

- 15. Certain discrepancies / errors were notices in corporate records related to filling with the Registrar of Companies as per the provisions of Companies Act, 2013.**

Our company has not complied with statutory provisions of Companies Act, 2013 relating to filling of CHG-1 for creating charge with the Registrar of Companies for two auto loans availed in October 2020 from Bank of Baroda amounting to Rs. 12.00 Lakhs and Rs. 7.00 Lakhs respectively. For more details on these auto loans such as security, tenure of repayment, etc. please refer to chapter titled “**Financial Indebtedness**” on page 341 of this Prospectus.

Further, any penalty or action taken by any regulatory bodies in future, for non-compliance with provisions of corporate and others laws could impact the financial position of the company and affect the profitability.

- 16. Our Company and the subsidiary have unsecured loans which are repayable on demand. Any Demand loan from lenders for repayment of such unsecured loans, may adversely affect our cash flows.**

Based on Restated Consolidated Financial Statements, our company has unsecured loans as at March 31, 2022 amounting to Rs. 143.50 Lakhs from directors and members that are repayable on demand to the relevant lenders. Our Subsidiary, Insolation Green Energy Private Limited has also taken unsecured loans as at March 31, 2022 amounting to Rs. 144.74 Lakhs from directors and shareholders that are be repayable on demand. Any such unexpected demand or accelerated repayment may have a material adverse effect on the business, cash flows and financial condition of the borrower against which repayment is sought. Any demand from lenders for repayment of such unsecured loans, may adversely affect our cash flows. For, further details of unsecured loans of our company, please refer chapter titled “**Financials Statements as Restated**” beginning on page 220 of this Prospectus.

- 17. We have limited history of operating in the business. Thus, our Company lacks significant experience in the industry segment for which the issue is being made and if we are not successful in managing our growth, our business may be disrupted and our profitability may be reduced.**

We have limited history of operating in the business as our Company was incorporated in October 2015 and started commercial operations in March 2017. Thus, manufacturing of solar PV modules

began in the year 2017. Hence, our Company has an experience of approximately five years in the renewable energy industry. There may be many unforeseen challenges in the business and they may pose bigger risk due to our inexperience. Our business and financial position may be adversely affected to the extent we are not able to deal with these business challenges in a timely and effective manner. Although, we plan to continue to expand our scale of operations, we may not grow at a rate comparable to the growth of the industry, either in terms of income or profit. Our future growth may place significant demands on our management and operations and require us to continuously evolve and improve our financial, operational and other internal controls.

If we are not successful in managing our growth, our business may be disrupted and profitability may be reduced. Our business, prospects, financial condition and results of operations may be adversely affected.

18. Exchange rate fluctuations may adversely affect our results of operations.

Although our reporting currency is the Indian Rupee, we conduct certain business operations and incur costs, such as raw material purchases, capital goods purchases and other expenditure, in the local currency of other countries. We import a significant amount of raw materials to manufacture our products. Transactions and payments for such imports may be conducted in foreign currency. For the FY 2021-22, 2020-21 and 2019-20, our cost of imported raw materials was Rs. 10,947.82 Lakhs, Rs. 4,518.65 Lakhs and Rs. 3,847.37 Lakhs, which represented 57.02%, 31.19%, and 51.50%, respectively, of our total purchases in such periods. As a result, we are subject to currency translation and transaction risk and we may not be able to pass on all losses on account of foreign currency fluctuations to our customers, and as a result, suffer losses on account of foreign currency fluctuations. Because our financial results are reported in Indian Rupees, if we generate revenue or earnings in other currencies, the translation of those results into Indian Rupees can result in a significant increase or decrease in the amount of those revenues or earnings. Furthermore, to the extent that we are unable to match revenues received in foreign currencies with costs paid in the same currency, exchange rate fluctuations between such currencies could have a material adverse effect on our liquidity or our ability to efficiently utilize our working capital. Therefore, volatility in currency exchange rates may have a material adverse effect on our business, financial condition and results of operations. While we enter into forward contracts and may in the future enter into foreign currency hedging transactions from time to time, there is no guarantee that we may be able to manage our foreign currency risk effectively or mitigate exchange exposures, at all times and our inability to take such measures may adversely affect our results of operations and financial position.

19. We operate in a competitive industry and any failure to compete effectively may result in a decline in our market share.

The market for solar PV modules is intensely competitive and continuously evolving. We view our primary competitors to be traditional global and local solar manufacturing companies. Our competitors may have greater financial resources, a more effective or established local business presence with specific regional advantages or a greater willingness or ability to operate with little or no operating margins for sustained periods of time. Some of our competitors may have advantages over us in terms of greater operational, technical, management or other resources in particular markets or in general, better track records, stronger lender relations, more governmental support (in terms of financials and demand) as well as know-how of regulatory and political challenges in the geographies in which we operate or into which we intend to expand our operations. Any increase in competition during the bidding process or reduction in our competitive capabilities could have a

material adverse effect on our market share and on the margin, we generate from our solar power projects. Further, some of our competitors may also be vertically integrated, from upstream polysilicon manufacturing to solar system integration. The competitors' size in some cases provides them with a competitive advantage with respect to manufacturing costs due to their economies of scale and their ability to purchase raw materials at lower prices. Such competitors may have stronger bargaining power with the supplier and have an advantage over us in pricing as well as obtaining raw material supplies at time of shortage. Many of the competitors may have more established distribution networks, larger customer bases or well-established relationships with their customers. As a result, they may be able to devote greater resources to the research, development, promotion and sale of their products or respond more quickly to evolving industry standards and changes in market conditions than us. It is possible that new competitors or alliances among existing competitors could emerge and rapidly acquire significant market share, which could adversely affect our market share.

A few competitors may undertake initiatives for higher backward integration which would enable them to compete on costs and have better margin performance. Furthermore, due to intense competition, there may be a decline in pricing for solar modules, which may have an adverse impact on our results of operations and financial condition.

20. Our success will depend on our ability to attract and retain our key managerial personnel, design, technical and engineering team and other key personnel.

We are dependent on the services of our executive officers and other members of our senior management team. The loss of one or more of these key employees or any other member of our senior management team could have a material adverse effect on our business. We may not be able to retain or replace these key employees and may not have adequate succession plans in place. In particular, our Company is managed by our promoter, **Mr Manish Gupta and Mr. Vikas Jain** and various other key management personnel. Any situations impinging on their ability to function or their departure from our business may adversely affect our business performance.

We benefit from the cost advantages of having the entirety of our design and engineering team in India. However, the demand for specialist design engineers has increased in India, resulting in a shortage of, and increasing costs to hire, such specialists. We face challenges to recruit and retain a sufficient number of suitably skilled personnel, particularly as we implement our growth and expansion strategy. Generally, there is significant competition for management, engineering, technical and design and other skilled personnel in the businesses in which we operate, and it may be difficult to attract and retain the skilled personnel we need. In particular, we may be unable to compete with other companies for suitably skilled personnel to the extent they are able to provide more competitive compensation and benefits. Furthermore, we may not be able to redeploy and retrain our employees to keep pace with continuing changes, evolving standards and changing customer preferences. The loss of key personnel and our inability to recruit suitable replacements may have a material adverse effect on our business, financial condition and results of operations.

These key personnel possess technical and business capabilities that would be difficult to replace. However, the loss or diminution in the services of our senior management or other key team members or our failure to maintain the necessary management and other resources to operate and grow our business could have a material adverse effect on our business, results of operations, financial condition and prospects. In addition, as our business develops and expands, our future success will depend on our ability to attract and retain highly skilled and qualified personnel, which cannot be guaranteed.

21. The uninterrupted manufacturing of our products is dependent on equipment suppliers and

their continued support.

Certain of our technology providers have provided us with replacement, repair and maintenance warranties for certain plant and machinery installed at our manufacturing facility. However, if the machine/ equipment fails at a subsequent date, we may not be able to continue production of solar PV modules or may need to incur substantial cost for replacement, repair and maintenance services. Moreover, if any of the components incorporated in the machine/ equipment cease to be made, we may encounter difficulty in repairing or replacing the equipment if it were to become damaged or stop functioning. Any failure or unscheduled or prolonged disruption of our manufacturing machine/ equipment could materially adversely affect our business, results of operations and financial condition.

22. Outbreaks of contagious diseases, such as the recent outbreak of COVID-19, may have a material adverse effect on our business, financial condition, results of operations, cash flows and prospects.

Our business has been affected due to the ongoing COVID-19 pandemic, and we are currently unable to predict its near-term or long-term impact on our business. India experienced multiple waves of COVID-19 which had impacted global supply chains and resulted in shortages of materials and components used in the manufacturing operations and an inability to meet the manufacturing targets and this impact continues till date. The COVID-19 pandemic had resulted in restrictions on travel and transportation and prolonged closures of workplaces, businesses and schools, with employees being asked to work from home and citizens being advised to stay at home. Consequently, there was a significant disruption in attendance at the manufacturing facilities.

Furthermore, on March 20, 2020, the MNRE issued a notice that all renewable energy implementing agencies will treat lockdown due to COVID-19 as a force majeure event for the time period between March 25, 2020 to August 24, 2020. There was no loss of existing orders during that period. While none of our customers invoked the force majeure clauses in their contracts with us over the past three years, there can be no assurance that our customers will not invoke these force majeure clauses in the event of any future outbreak of contagious diseases. In particular, as a result of the COVID-19 pandemic, certain of our customers had delayed their payments as against the agreed payment terms, which temporarily increased our cash flow requirements.

There is also no assurance that there will not be further mutations of COVID-19 resulting in new variants and additional economic downturns that materially adverse effect our business, financial condition, results of operations, cash flows and prospects.

The Reserve Bank of India granted relief to borrowers by way of moratorium of interest and principal instalments falling due to banks and financial institutions till August 2020 and the same was availed by the Company. Further, the Banks also granted additional limits based on the existing facilities availed by the borrowers. Bank of Baroda sanctioned Rs. 110.00 Lakhs and Rs. 223.00 Lakhs (based on the existing credit facilities sanctioned) in the FY 2020-21. Thereafter, State Bank of India also sanctioned Rs. 240.00 Lakhs as an extension to the existing Covid Loans. While there has been no previous instance of non-repayment, there can be no assurance that such amounts shall be repaid within the stipulated period.

There can also be no assurance that the policies and controls for outbreak prevention and disease recurrence or any stimulus packages introduced by the GoI will be successful in preventing disease outbreaks or recurrences or that any actual or suspected outbreak of COVID-19 or other contagious

disease affecting India or elsewhere will not occur. There can also be no assurance that any future outbreak of contagious diseases will not have a material adverse effect on our business, financial condition, results of operations, cash flows and prospects.

23. Our Company and some of our directors are involved in certain legal proceedings. Any adverse decision in such proceedings may render us / them liable to liabilities / penalties and may adversely affect our business and results of operations.

Our Company, promoters and directors other than promoters are involved in certain legal proceedings at different levels of adjudication before various courts, tribunals and appellate authorities. In the event of adverse rulings in these proceedings or consequent levy of penalties by other statutory authorities, our Company or Directors may need to make payments or make provisions for future payments, which may increase expenses and current or contingent liabilities and also adversely affect our reputation.

In the ordinary course of business, our Company, promoters and our directors are involved in certain legal proceedings, which are pending at varying levels of adjudication at different forums. The summary of outstanding matters set out below includes details of civil proceedings, criminal proceedings, tax proceedings, statutory and regulatory actions and other material pending litigation involving our company, directors, promoters and our Group company.

According to the materiality policy, any outstanding litigation, other than criminal proceedings, statutory or regulatory actions and taxation matters, is considered material if the monetary amount of claim by or against the entity or person in any such pending matter is in excess of Rs. 5,00,000 or if an adverse outcome of any such litigation could materially and adversely affect our business, prospects, operations, financial position or reputation.

We cannot assure that any of the legal proceedings described below will be decided in favour of the company and or directors respectively. Further the amounts claimed in these proceedings have been disclosed to the extent ascertainable, excluding contingent liabilities and include amounts claimed jointly and severally. Should any new developments arise, such as change in Indian law or rulings by appellate courts or tribunals, additional provisions may need to be made by us, the promoters, directors and Group company in our respective financial statements, which may adversely affect our business, financial condition and reputation. We may incur significant expenses and management time in such legal proceedings. Decision in any such proceedings adverse to our interests may have adverse effect on our business, future financial performance and results of operations.

Decision of such proceedings which are against the interests may affect our reputation and may have material and adverse effect on our business, results of operations and financial condition. For further details, please refer to section titled **“Outstanding Litigation and Material Developments”** beginning on page 345 of this Prospectus.

24. Our lenders have charge over our movables assets in respect of finance availed by us.

We have secured our lenders by creating a charge over our movable's assets in respect of credit facilities availed by us from banks and financial institutions. The total amounts outstanding and payable by us as secured loans were Rs. 2,719.16 lakhs as on March 31, 2022. In the event we default in repayment of the credit facilities availed by us and any interest thereof, hypothecation charge on our movable's assets may be invoked by the lenders, which in turn could have significant adverse effect on business, financial condition or results of operations. For further information on the Financial Indebtedness please refer chapter titled "*Financial Indebtedness*" beginning page 341 of the Prospectus.

25. Within the parameters as mentioned in the chapter titled 'Objects of the Issue' beginning on page 108 of this Prospectus, our Company's management will have flexibility in applying the proceeds of this Issue.

We intend to use the entire issue proceeds towards working capital management and general corporate purposes.

We intend to deploy the net issue proceeds in FY 2022-23 and such deployment is based on certain

assumptions and strategy which our Company believes to implement in future. The funds raised from the fresh Issue may remain idle on account of change in assumptions, market conditions, strategy of our Company, etc., For further details on the use of the issue proceeds, please refer chapter titled **"Objects of the Issue"** beginning on page 108 of this Prospectus.

The deployment of funds for the purposes described above is at the discretion of our Company's Board of Directors. The fund requirement and deployment are based on internal management estimates and have not been appraised by any bank or financial institution. Accordingly, within the parameters as mentioned in the chapter titled **'Objects of the Issue'** beginning on page 108 of this Prospectus, the management will have significant flexibility in applying the proceeds received by our Company from the issue. However, the Company shall comply with Section 27 of the Companies Act, 2013 before varying the **'Object of the issue'**. Our Board of Directors will monitor the utilization of the proceeds of this issue.

26. Our Company has made material investment in the form of unsecured loans to its subsidiary and any default in repayment may affect our financial position

Our Company has made material investment in the form of unsecured loans amounting to Rs. 143.74 Lakhs as on March 31, 2022 to its subsidiary, M/s Insolation Green Energy Limited. Any default or delays in repayment of interest or principal may have material adverse effect on the business, cash flows and financial condition.

27. We have in the past entered into transactions with related parties and may continue to do so in the future. These or any future related party transactions may potentially involve conflicts of interest and there can be no assurance that we could not have achieved better terms, had such arrangements been entered into with unrelated parties.

We have entered into various transactions with related parties, including for purchase and sale of goods and services from time to time. For further details in relation to transactions with related parties, please refer to the section entitled **"Related Party Transactions"** on page 218. While we are of the opinion that these related party transactions entered into by us, were in compliance with the Companies Act, 2013, we cannot assure you that we could not have achieved more favourable terms had such transactions been entered into with unrelated parties. It is likely that we may enter into related party transactions in the future. Although upon listing of our Equity Shares pursuant to the Issue, all related party transactions that we may enter into, will be subject to the requirements of the Companies Act, 2013 and the SEBI Listing Regulations, there can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our financial condition and results of operations or that we could not have achieved more favourable terms if such transactions had not been entered into with related parties. Such related party transactions may potentially involve conflicts of interest.

There is no assurance that our related party transactions in future would be on terms favourable to us when compared to similar transactions with unrelated or third parties or that our related party transactions, individually or in the aggregate, will not have an adverse effect on our financial condition. For details, see **"Restated Consolidated Financial Statements – Note 28: Related Party Transaction"** on page 259.

28. In addition to normal remuneration or benefits and reimbursement of expenses, some of our Promoters, Directors and key managerial personnel are interested in our Company to the extent of their shareholding, dividend entitlement and lease rent received, in our Company.

Our Promoters, Directors and Key Managerial Personnel are interested in our Company to the extent of remuneration paid to them for services rendered and reimbursement of expenses payable to them. Further, some of our Promoters, Directors and Key Managerial Personnel may also be interested to the extent of their shareholding, dividend entitlement and lease rental in our Company. For details on interest of our Promoters in lease rental, refer ***“Risk Factor 13 - Properties, on which we have our registered office and manufacturing facilities, are not owned by us. Any termination or dispute in relation to this lease/ rental agreement may have an adverse effect on our business operations and results thereof”*** and for further information, see ***“Capital Structure”, “Our Management”*** and ***“Financial Statements as Restated”*** on pages 89, 186 and 220, respectively, of this Prospectus.

29. We may not have sufficient insurance coverage to cover all possible losses.

Our operations carry inherent risks of personal injury and loss of life, damage to or destruction of property, plant and machinery and damage to the environment, and are subject to various risks such as fire, theft, flood, earthquakes and terrorism. We maintain insurance coverage, in amounts we consider to be commercially appropriate, including insurance against damage, loss of profit and business interruption, marine inland transit and third-party liability insurance with respect to our assets. Our insured assets primarily consist of property, plant & equipment, furniture, fixtures and fittings, inventory, etc. In the past three years, there has been no instances of under insurance i.e., where our insurance cover did not adequately cover the insured value required for our operations. However, there can be no assurance that our current and future insurance will adequately cover all losses or liabilities that may arise from our operations, including, but not limited to, when the loss suffered is not easily quantifiable. While we have not had any such instance in the past three years, there can be no assurance that in the future our losses would not significantly exceed our insurance coverage or may not be recoverable through insurance and consequently our business, financial condition and results of operations could be materially and adversely affected.

30. Our financing agreements contain covenants that limit our flexibility in operating our business. Our inability to meet our obligations, including financial and other covenants under our debt financing arrangements could adversely affect our business, results of operations and financial condition.

As of March 31, 2022, we had total secured outstanding borrowings (consisting of long-term borrowings, short term borrowings and non-fund-based facilities) of Rs. 2,719.76 Lakhs. The documentation in relation to borrowings availed by us contains, and documents governing our future borrowings may contain, numerous financial and operating covenants that may limit the discretion of management with respect to certain business matters. These covenants place restrictions on, among other things, our ability to: undertake any new modernization scheme or projects; effect any change in our capital structure; formulate any scheme of amalgamation or reconstruction or any merger of acquisition; substantial change of ownership or shareholding or any other scheme of arrangement or compromise affecting our present constitution; effect any change in the management set-up; make any alteration to the Memorandum of Association or Articles of Association; make any corporate investment or invest in share capital, or extend any advances or loans or place deposits, to any group company, subsidiary or any other third party except under normal business transactions; implement any scheme of expansion/ diversification/ capital expenditure except under normal circumstances, etc. Certain of our existing debt financing agreements also require, and documents governing our future

indebtedness may require, us to furnish certain security in favour of the relevant lender and meet certain financial ratios and tests.

As a result of these restrictions, we may be limited in how we conduct our business, unable to raise additional debt or equity financing to operate during general economic or business downturns, or unable to compete effectively or to take advantage of new business opportunities. These restrictions may also impair our ability to grow in accordance with our strategy, and may adversely affect our financial condition and results of operations. While there has been no instance of default under our indebtedness obligations in the last three years, there can be no assurance that such instances may not arise in the future. Further, if we experience a decline in cash flow due to any of the factors described in this section or otherwise, we could have difficulty paying interest and the principal amount of our outstanding indebtedness. If we are unable to generate sufficient cash flow or otherwise obtain the funds necessary to make required payments under our loan agreements, or if we fail to comply with the various requirements of our indebtedness, we could be in default under our loan agreements. Furthermore, one of our leased properties are currently encumbered to certain banks for the purposes of obtaining credit facilities. We cannot assure you that our lenders will not interpret any terms and conditions of our loan agreements or consents differently to us, and any such disagreements could potentially lead to disputes with our lenders. Any such default that is not cured or waived, or any such disputes, could result in an acceleration of indebtedness then outstanding under our loan agreements, an acceleration of any other indebtedness to which a cross-acceleration or cross-default provision applies, a requirement that we pay the obligations in full, or permit the lenders to exercise remedies with respect to all of the collateral securing our indebtedness. See **“Financial Indebtedness”** on page 341 for details of the security we have granted in relation to our loan agreements. In addition, lenders may be able to terminate any commitments they had made to supply us with funding under various credit facilities.

The key terms and conditions of our borrowings have been summarised in the section **“Financial Indebtedness”** on page 341. The variable rate indebtedness subjects us to the risk of higher interest rates, which could cause our future debt service obligations to increase significantly and may impair our ability to raise future debt or impede business operations. We cannot assure you that we will be able to negotiate more favourable terms with our future lenders.

- 31. We are required to sell batteries purchased from manufacturer as mentioned in the registration certificate in the ordinary course of business. Any failure would result in non-compliance and therefore, affect our business operations, financial condition, result of operations and prospects.**

Our Company has obtained registration certificate under Batteries (Management and Handling) Rules, 2001 (as amended) on July 09, 2021. As per the certificate obtained, the Company can sell lead acid batteries and components procured from of M/s HSD Batteries Pvt Ltd. However, our Company is purchasing lead acid batteries from other manufacturers also in addition to M/s HSD Batteries Pvt Ltd. resulting in non-compliance of the terms and conditions of the registration. Such non-compliance may have a material adverse effect on our business operations, financial condition, result of operations and prospects.

- 32. We are dependent on third-party transportation providers for the supply of materials for our manufacturing process and delivery of our finished products.**

Our success depends on the supply and transport of the various materials required to our manufacturing facilities from suppliers and of our finished products from our manufacturing facilities

to our customers, which are subject to various uncertainties and risks. We use third-party transportation providers for the delivery of materials to manufacturing facilities and our finished products to customers. Transportation strikes, if any, could have an adverse effect on supplies and deliveries to our customers and from our suppliers. Further, on account of the COVID-19 pandemic, operations of these third-party transportation providers were affected from time to time. While we did not encounter any transportation strikes or issues in relation to availability of shipping vessels and congestion at ports, in the past three years, (whether on account of COVID-19 or otherwise), but we cannot assure that we will not experience delays which may hamper our supply chains in future.

In addition, materials and components, as well as our products shipped to customers, may be lost or damaged in transit for various reasons including occurrence of accidents or natural disasters. There may also be a delay in delivery of materials and products which may also affect our business and results of operations negatively. In the event we fail to maintain a sufficient volume of materials and delivery of such materials to us is delayed, we may be unable to meet orders in a timely manner or at all. Any such inability may result in loss of sales opportunities that our competitors may capitalize on, thereby adversely affecting our business, financial condition, results of operations, and cash flows. Any compensation received from insurers or third-party transportation providers may be insufficient to cover the cost of any delays and will not repair damage to our relationships with our affected customers. We may also be affected by an increase in fuel costs, as it will have a corresponding impact on freight charges levied by our third-party transportation providers. This could require us to expend considerable resources in addressing our distribution requirements which could adversely affect our results of operations, or passing these charges on to our customers, which could adversely affect demand for our products.

33. An inability to accurately forecast demand or price for our products and manage our inventory may adversely affect our business, results of operations, financial condition, and cash flows.

Our business depends on production decisions made in advance based on our estimate of the demand for our products from customers, considering historical trends. We typically maintain a reasonable level of inventory of materials, work in progress and finished goods.

If we overestimate demand for our products, we run the risk of purchasing more materials than necessary, which could expose us to risks and costs associated with prolonged storage of some of these materials, and materially affect our results of operations. Conversely, if our customers place orders for greater quantities of products compared to their historical requirements, we may not be able to adequately source the necessary materials in a timely manner, and may not have the required available manufacturing capacity to meet such demand, leading to loss of business. In addition, if all or a significant number of our suppliers for any particular material are unable or unwilling to meet our requirements or our estimates fall short of the demand, we could suffer shortages or significant cost increases. Continued supply disruptions could exert pressure on our costs, and we cannot assure that all or part of any increased costs can be passed along to our customers in a timely manner or at all, which could adversely impact our business, prospects and financial performance.

34. An inability to provide adequate customer support and ancillary services may adversely affect our relationship with our existing and prospective customers, and in turn our business, results of operations and financial condition.

Our customers depend on customer support and ancillary services to resolve issues relating to our products and services in a timely manner. We and our distributors may be unable to respond to /

accommodate short-term increases in demand for our products or associated customer support including maintenance in a timely manner. We also may be unable to modify the nature, scope and delivery of such services to compete with support services provided by our competitors. Increased requests in connection with our products and services, without corresponding revenue, could increase costs and adversely affect our results of operations and financial condition. Our sales are dependent on our reputation and on positive recommendations from our existing customers. Any failure to maintain adequate and timely customer support and ancillary services, or a market perception that we are unable to do so, could result in loss of business and adversely affect our business, prospects and financial performance.

35. There is no monitoring agency appointed by our Company and the deployment of funds are at the discretion of our Management and our Board of Directors, though it shall be monitored by the Audit Committee.

As per SEBI (ICDR) Regulations, 2018 appointment of monitoring agency is required only for Issue size above Rs. 10,000 Lakhs. Hence, we have not appointed a monitoring agency to monitor the utilization of Issue proceeds. However, the audit committee of our Board will monitor the utilization of Issue proceeds. Further, our Company shall inform about material deviations in the utilization of Issue proceeds to the BSE Limited and shall also simultaneously make the material deviations/ adverse comments of the audit committee public.

36. Failure to retain our technical knowledge confidential may erode our competitive position.

We possess technical knowledge about our solar PV modules. Our technical know-how is a significant independent asset, which may not be protected by intellectual property rights such as patents but is protected only as a trade secret. As a result, we cannot be certain that our technical know-how will remain confidential in the long run. Employment contracts with certain of our employees who have special technical knowledge about our solar PV modules contain a general obligation to keep all such knowledge confidential and such obligation extends for a period of six months after the termination of employment. In addition to the confidentiality provisions, these employment agreements typically contain non-compete clauses. If either the confidentiality provisions or the non-compete clauses are unenforceable, we may not be able to maintain the confidentiality of our technical know-how. While we take the necessary precautions, whether contractual or otherwise, to protect the confidential technical knowledge about our products, there can be no assurance that such information may be not disclosed to others or become public knowledge due to circumstances beyond our control including by other licensees of technical knowledge. In the event that confidential technical information or know-how about our solar PV modules becomes available to third parties or to the public, our competitive advantage over other companies in the solar industry could be diminished, which may have a material adverse effect on our current business, future prospects, financial condition and results of operations.

37. Any issues with our product quality or performance may require us to incur additional expenses and warranty costs, damage our reputation and cause our sales to decline.

While we strive to ensure that our solar PV modules have no errors and defects, there can be no assurance that despite our stringent testing and other quality control measures, defects and errors may be found in our products after shipment. Further, we offer following types of warranty for 30 years for our solar PV modules:

- a. Manufacturing / Workmanship Warranty: 5 Years

- b. Linear Power Performance Warranty: 90% for 10 years and 80% for 25 years

Thus, we may receive from time to time, complaints from certain customers on the quality deficiencies of our solar PV modules. Therefore, we have not received customer complaints in relation to our product quality and performance in the past three years, and there can be no assurance that there will be no customer complaints in the future and our customers will be fully satisfied with our product quality or performance. If our products do not meet our customers' quality expectations or if there is a real or perceived issue with the quality of our products, our credibility, market reputation and consequently market acceptance and sales may be adversely affected.

Furthermore, any increase in the defect rate of our products may require us to increase the amount of warranty reserves that we maintain, and this will have a correspondingly negative impact on our operating results. Thus, any claims by the customers, even if unfounded or unsuccessful, could result in costly litigation which may divert our management's attention and resources from their day-to-day functions. Furthermore, widespread product failures may negatively impact our market reputation, reduce our market share and cause our sales to decline.

38. Improper storage, processing and handling of materials and products may cause damage to our inventory leading to an adverse effect on our business, results of operations and cash flows.

Our inventory primarily consists of materials and components used in our operations and products. Our materials, manufacturing processes and products are susceptible to damage or contamination if not appropriately stored, handled and processed, which may affect the quality of the finished product. In the event such damage or contamination is detected at the manufacturing facility or at our project sites during quality checks, we may have to suspend manufacturing activities, lower capacity utilizations and delay work at project sites, which could materially and adversely affect our business prospects and financial performance. Improper storage may also result in damage to our inventory due to adverse weather conditions or longer than usual storage periods, which may also require us to incur additional expenses in replacing that portion of the inventory and/ or incur additional expenses in maintenance and improvement of our storage infrastructure, which may adversely affect our profit margin.

Further, the quality of the raw materials used, microscopic impurities such as dust and other contaminants, difficulties in the manufacturing process or malfunctions of the equipment or facilities used can lower yields, cause quality control problems, interrupt production or result in loss of products.

39. Our design, research and development efforts may not yield meaningful results.

We devote substantial resources to our design and engineering functions and innovative engineering efforts that continually seek to improve the efficiency of our solutions. There is no guarantee that any of our research and development activities will yield meaningful results, can be used for our commercial operations or will generate any revenue. There can be no guarantee that our technologies and installation solutions will suit the local conditions, environmental characteristics or comply with the regulations or approval requirements of the various regions and countries in which we operate, and such conditions may change in the future, rendering our research and development efforts unsuitable. Technical and operational issues or other problems may delay or hinder our research and development processes and increase our costs and lack of regulatory approvals may cause us to expend more time and resources in the design process. Furthermore, our research and development

activities may not always keep pace with our competitors. If we fail to design, research and develop suitable solutions and services for our projects / products, this may affect our ability to win bids and/or to successfully implement our existing projects and our business profitability and financial condition may be materially and adversely affected.

40. Our inability to protect any of our intellectual property rights including misappropriation, infringement or passing off of our intellectual property or failure to obtain our patents could have an adverse impact on our business.

As of the date of this Prospectus, we have one registered trademark. Our brand, INA is owned by our Company. While we take due care to protect our brand through internal policies, any unintended internal or external situations by anyone may adversely affect our brand image. The illegal use or impersonation of our trademark or logo by third parties or any negative publicity about our brand(s) could affect our reputation and, which in turn, affects our ability to attract and/or retain customers which may adversely affect our business and results of operations. To protect our intellectual property rights, we may be required to resort to legal action to protect our intellectual property rights, which may strain our resources and divert the attention of our management from our day-to-day functioning. Further, if a competitor is able to reproduce or otherwise capitalize on our technology, it may be difficult and expensive for us to obtain necessary legal protection. Any adverse outcome in any legal proceedings that we may initiate in future to successfully enforce our intellectual property may have an adverse effect on our business, results of operations and cash flows.

41. Our business is subject to strikes, work stoppages and/or increased wage demands, as well as other disputes with our employees.

We cannot guarantee that our employees will not join labour unions in the future and as a result we may experience disruptions in our operations due to disputes or other problems with our workforce. Efforts by our employees to modify compensation and other terms of employment may also divert management's attention and increase operating expenses. The occurrence of such events could materially adversely affect our business, financial condition and results of operations.

42. Our ability to pay dividends in the future may depend upon our future revenues, profits, financial condition, cash flows, working capital requirements, capital expenditures and restrictive covenants in our financing arrangements.

We may retain all our future earnings, if any, for use in the operations and expansion of our business. As a result, we may not declare dividends in the foreseeable future. Any future determination as to the declaration and payment of dividends will be at the discretion of our Board of Directors and will depend on factors that our Board of Directors deem relevant, including among others, our results of operations, financial condition, cash requirements, business prospects. Accordingly, realization of a gain on shareholders investments may largely depend upon the appreciation of the price of our Equity Shares. There can be no assurance that our Equity Shares will appreciate in value. For details of our dividend history, see "Dividend Policy" on page 219 of this Prospectus.

43. Our operations may be adversely affected in case of industrial accidents at any of our manufacturing facilities.

Usage of machinery, handling of materials by labour during manufacturing process or otherwise, lifting of materials by humans, etc. may result in accidents, which could cause injury to our labour, employees, other persons on the site and could also damage our properties thereby affecting our

operations. Occurrence of accidents could hamper our manufacturing process and consequently affect our profitability.

44. Our future funds requirements, in the form of issue of capital or securities and/or loans taken by us, may be prejudicial to the interest of the shareholders depending upon the terms on which they are eventually raised.

We may require additional capital from time to time depending on our business needs. Any issue of shares or convertible securities would dilute the shareholding of the existing shareholders and such issuance may be done on terms and conditions, which may not be favorable to the then existing shareholders. If such funds are raised in the form of loans or debt, then it may substantially increase our interest burden and decrease our cash flows, thus prejudicially affecting our profitability and ability to pay dividends to our shareholders.

45. We have certain contingent liabilities that have not been provided for in our financial statements, which if they materialise, may adversely affect our financial condition, cash flows and results of operations.

We have certain contingent liabilities that have not been provided for in our financial statements. As of March 31, 2022, our Restated Consolidated Summary Statements disclosed the following contingent liabilities:

<i>(Rs. in Lakhs)</i>	
Particulars	As on March 31, 2022
Claims against the Company not acknowledged as debt	
Custom Duty saved on import of Capital Goods under EPCG Scheme	198.83
Total	198.83

Our contingent liabilities may become actual liabilities and if these liabilities materialize, it could have an adverse effect on our business, financial condition and results of operations. Furthermore, there can be no assurance that we will not incur similar or increased levels of contingent liabilities in the current year or in the future.

46. Our Promoters will continue jointly to retain majority control over our Company after the Issue, which will allow them to determine the outcome of matters submitted to shareholders for approval.

After completion of the issue, our Promoters will collectively own 69.84% of the Equity Shares. As a result, our Promoters will be able to exercise a significant degree of influence over us and will be able to control the outcome of any proposal that can be approved by a majority shareholder vote, including, the election of members to our Board, in accordance with the Companies Act and our Articles of Association. Such a concentration of ownership may also have the effect of delaying, preventing or deterring a change in control of our Company.

In addition, our Promoters will continue to have the ability to cause us to take actions that are not in, or may conflict with, our interests or the interests of some or all of our creditors or minority shareholders, and we cannot assure you that such actions will not have an adverse effect on our future financial performance or the price of our Equity Shares.

47. We are exposed to security risks, breaches and/or malfunction of our IT systems.

We rely on our information technology systems for our operations and their reliability and functionality is critical to our business success. Our growing dependence on our information technology (“IT”) infrastructure, applications and data has caused us to have a vested interest in its reliability and functionality which can be affected by a number of factors, including, but not limited to, the increasing complexity of the IT systems, frequent change and short life span due to technological advancements and data security. If our IT systems malfunction or experience extended periods of downtime, we may not be able to run our operations safely or efficiently. We are subject to cyber security risks and may incur costs to minimize those risks. While we have not faced any cyber security breaches in the past, cyber security breaches, such as unauthorized access, accidents, employee errors or malfeasance, computer viruses, computer hackings or other disruptions could compromise the security of our data and infrastructure, thereby exposing such information to unauthorized access by third parties. Techniques used to obtain unauthorized access to, or to sabotage, systems change frequently and generally are not recognized until launched against a target. We may be required to deploy significant capital and other resources to remedy, protect against or alleviate these and related problems, and we may not be able to remedy these problems promptly, or at all. While we have not faced any cybersecurity breaches in the last three years, any security breaches that occur could disrupt our operations, increase our security costs, or expose us to potential losses due to data corruption or information leakage, which could have a material adverse effect on our business, financial condition and results of operations.

We are dependent on the capacity and reliability of the communications, information and technology systems supporting our operations and manufacturing, whether developed, owned and operated by us or by third parties. Operational risks, such as trading or operational errors or interruptions of our financial, accounting, trading, compliance and other data processing systems, whether caused by the failure to prevent or mitigate data losses and other security breaches, or other cyber security threats or attacks, fire or other disaster, power or telecommunications failure, could result in a disruption of our business and/or cause reputational damage, and may have a material adverse effect on our business, financial condition and results of operations. We cannot assure you that we will be able to complete our current technology initiatives or achieve the anticipated efficiencies. Furthermore, unavailability of, or failure to retain, well-trained employees capable of constantly servicing our IT system, may lead to inefficiencies or disruption of the IT system and consequently our business and operations.

48. Industry information included in this Prospectus has been derived from industry reports commissioned by us for such purpose. There can be no assurance that such third-party statistical, financial and other industry information is either complete or accurate.

We have relied on the reports of certain independent third party for purposes of inclusion of such information in this Prospectus. These reports are subject to various limitations and based upon certain assumptions that are subjective in nature. We have not independently verified data from such industry reports and other sources. Although we believe that the data may be considered to be reliable, their accuracy, completeness and underlying assumptions are not guaranteed and their dependability cannot be assured. While we have taken reasonable care in the reproduction of the information, the information has not been prepared or independently verified by us or any of our respective affiliates or advisors and, therefore, we make no representation or warranty, express or implied, as to the accuracy or completeness of such facts and statistics. Due to possibly flawed or ineffective collection methods or discrepancies between published information and market practice

and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced for other economies and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy as may be the case elsewhere. Statements from third parties that involve estimates are subject to change, and actual amounts may differ materially from those included in this Prospectus.

Issue Specific Risks

- 49. *There are restrictions on daily / weekly / monthly movements in the price of the Equity Shares, which may adversely affect a shareholder's ability to sell, or the price at which it can sell, Equity Shares at a particular point in time.***

Once listed, we would be subject to circuit breakers imposed by designated stock exchanges in India, which does not allow transactions beyond specified increases or decreases in the price of the Equity Shares. This circuit breaker operates independently of the index-based market-wide circuit breakers generally imposed by SEBI on Indian stock exchanges. The percentage limit on circuit breakers is set by the stock exchanges based on the historical volatility in the price and trading volume of the Equity Shares. The stock exchanges do not inform us of the percentage limit of the circuit breaker in effect from time to time and may change it without our knowledge. This circuit breaker limits the upward and downward movements in the price of the Equity Shares. As a result of this circuit breaker, no assurance may be given regarding your ability to sell your Equity Shares or the price at which you may be able to sell your Equity Shares at any particular time.

- 50. *The Equity Shares have never been publicly traded, and, after the Issue, the Equity Shares may experience price and volume fluctuations, and an active trading market for the Equity Shares may not develop. Further, the price of the Equity Shares may be volatile, and you may be unable to resell the Equity Shares at or above the Issue Price, or at all.***

Prior to the Issue, there has been no public market for the Equity Shares, and an active trading market on the Stock Exchanges may not develop or be sustained after the Issue. Listing and quotation do not guarantee that a market for the Equity Shares will develop, or if developed, the liquidity of such market for the Equity Shares. The Issue Price of the Equity Shares is proposed to be determined through a fixed price process in accordance with the SEBI ICDR Regulations and may not be indicative of the market price of the Equity Shares at the time of commencement of trading of the Equity Shares or at any time thereafter. The market price of the Equity Shares may be subject to significant fluctuations in response to, among other factors, variations in our operating results of our Company, market conditions specific to the industry we operate in, developments relating to India, volatility in securities markets in jurisdictions other than India, variations in the growth rate of financial indicators, variations in revenue or earnings estimates by research publications, and changes in economic, legal and other regulatory factors.

- 51. *After this Issue, the price of the Equity Shares may be highly volatile, or an active trading market for the Equity Shares may not develop.***

The price of the Equity Shares on the Stock Exchanges may fluctuate as a result of the factors, including:

- Volatility in the Indian and global capital market;
- Company's results of operations and financial performance;

- Performance of Company's competitors;
- Changes in our estimates of performance or recommendations by financial analysts;
- Significant developments in India's economic and fiscal policies; and
- Significant developments in India's environmental regulations.

Current valuations may not be sustainable in the future and may also not be reflective of future valuations for our industry and our Company. There has been no public market for the Equity Shares and the prices of the Equity Shares may fluctuate after this Issue. There can be no assurance that an active trading market for the Equity Shares will develop or be sustained after this Issue or that the price at which the Equity Shares are initially traded will correspond to the price at which the Equity Shares will trade in the market subsequent to this Issue.

52. *The Issue price of our Equity Shares may not be indicative of the market price of our Equity Shares after the Issue and the market price of our Equity Shares may decline below the issue price and you may not be able to sell your Equity Shares at or above the Issue Price.*

The Issue Price of our Equity Shares has been determined by Book Built Method. This price is based on numerous factors (For further information, please refer chapter titled "**Basis for Issue Price**" beginning on page 118 of this Prospectus and may not be indicative of the market price of our Equity Shares after the Issue. The market price of our Equity Shares could be subject to significant fluctuations after the Issue and may decline below the Issue Price. We cannot assure you that you will be able to sell your Equity Shares at or above the Issue Price. Among the factors that could affect our share price include without limitation. The following:

- Half yearly variations in the rate of growth of our financial indicators, such as earnings per share, net income and revenues;
- Changes in revenue or earnings estimates or publication of research reports by analysts;
- Speculation in the press or investment community;
- General market conditions; and
- Domestic and international economic, legal and regulatory factors unrelated to our performance.

53. *The average cost of acquisition of Equity Shares by our Promoters could be lower than the Issue price.*

Our Promoters average cost of acquisition of Equity Shares in our Company could be lower than the Issue Price as decided by the Company in consultation with the Book Runner Lead Manager. For further details regarding average cost of acquisition of Equity Shares by our Promoters in our Company and build-up of Equity Shares by our Promoters in our Company, please refer chapter title "**Capital Structure**" beginning on page 89 of this Prospectus.

54. *You will not be able to sell immediately on Stock Exchange any of the Equity Shares you purchase in the issue until the Issue receives appropriate trading permissions.*

The Equity Shares will be listed on the Stock Exchange. Pursuant to Indian regulations, certain actions must be completed before the Equity Shares can be listed and trading may commence. We cannot assure you that the Equity Shares will be credited to investor's demat accounts, or that trading in the Equity Shares will commence, within the time periods specified in the Prospectus. Any failure or delay in obtaining the approval would restrict your ability to dispose of the Equity Shares. In accordance

with section 40 of the Companies Act, 2013, in the event that the permission of listing the Equity Shares is denied by the stock exchanges, we are required to refund all monies collected to investors.

55. *QIB and Non-Institutional investors are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any age after submitting the Bid*

Pursuant to SEBI ICDR Regulations, QIBs and Non-Institutional investors are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any age after submitting the Bid. Retail Individual Investors can revise their Bid during the Bid Period and withdraw their Bids until Bid Closing date. While our Company is required to complete Allotment pursuant to issue within six working days from the Bid Closing date, events affecting the Bidders decision to invest in Equity Shares, including material adverse changes in international or national monetary policy, financial, political or economic conditions, our business, result of operations or financial condition may arise between the date of submission of the Bid and allotment. Our Company may complete the allotment of Equity shares even if such events occur, and such events limit the Bidders ability to sell the Equity Shares allotted pursuant to the issue or cause the trading price of Equity Shares to decline on listing.

56. *Sale of Equity Shares by our Promoter or other significant shareholder(s) may adversely affect the trading price of the Equity Shares.*

Any instance of disinvestments of equity shares by our Promoter or by other significant shareholder(s) may significantly affect the trading price of our Equity Shares. Further, our market price may also be adversely affected even if there is a perception or belief that such sales of Equity Shares might occur.

EXTERNAL RISKS FACTORS

Industry Related Risks

57. *Changes in government regulations or their implementation could disrupt our operations and adversely affect our business and results of operations.*

Our business and industry are regulated by different laws, rules and regulations framed by the Central and State Government. These regulations can be amended/ changed on a short notice at the discretion of the Government. If we fail to comply with all applicable regulations or if the regulations governing our business or their implementation change adversely, we may incur increased costs or be subject to penalties, which could disrupt our operations and adversely affect our business and results of operations.

58. *Changes in international trade policies and the imposition of trade barriers or anti-dumping duties on solar equipment, machinery and material imports may increase our costs and materially and adversely affect our margins, growth prospects and results of operations.*

Changes in international trade policies, increases or changes in duties, quotas, tariffs and other trade restrictions may affect our ability to import raw materials from suppliers in certain countries. Further, pursuant to the Public Procurement (Preference to Make in India) Order, 2017 dated June 15, 2017, issued by the DIPP (the "Make in India Order") to promote the manufacture and production of goods and services in India, with a view to enhancing income and employment, the Ministry of New and Renewable Energy, Government of India ("MNRE") issued the Memorandum of Implementation of

Public Procurement (Preference to Make in India) Order for Renewable Energy Sector, dated December 11, 2018 (“Make in India Renewable Energy Order”), directing all departments, attached offices or subordinate offices of the MNRE or autonomous bodies controlled by the Government of India or government companies (as defined under the Companies Act) to adhere to the Make in India Order with respect to all of their procurements. Grid-connected solar power projects, apart from civil construction, central ministries, departments, and central public sector undertakings, are required to give preference to domestically manufactured components, with solar PV modules required to be 100% locally manufactured and other components such as inverters required to be at least 40% locally manufactured. With respect to off-grid or decentralized solar power projects (apart from civil construction projects) the requirement of local content in solar streetlights, solar home lighting systems, solar power packs or micro grids, solar water pumps, inverters, batteries and any other solar PV balance of system is at least 70%. However, products purchased for research and development purpose or demonstration projects are exempt from the Make in India Renewable Energy Order. If the procurement exceeds Rs. 100.00 million, the local supplier would be required to provide a certificate from the statutory or cost auditor of the company or from a practicing cost or chartered accountant, giving the percentage of local content.

Such measures could further increase the cost to us of solar equipment, machinery, materials and other system components and any ability to pass on these costs to our customers could potentially cause a material adverse effect on our costs, results of operations and business prospects. If we are required to pay higher prices, accept less favourable terms or purchase solar PV modules or other system components from alternative, higher-priced sources, or if supply is otherwise constrained, our costs may increase significantly and it may be less economically beneficial for us to serve certain markets, which would materially and adversely affect our margins, results of operations and growth prospects.

59. A slowdown in economic growth in India could have an adverse effect on our business, results of operations, financial condition and cash flows.

Our performance and growth are, and will be, dependent to a large extent on the health of the Indian economy and consumption spending by households. Economic growth in India is affected by various factors including domestic consumption and savings, rate of inflation in India, balance of trade movements, and global economic uncertainty. Most of our assets and employees are located in India, and we intend to continue to develop and expand in India.

Our revenue is generated primarily from the sale of solar products. Consumption of these products has increased as a function of increased affluence and purchasing power of retail customers in India, which has been positively and materially affecting our operating results. Consequently, future changes in the Indian economy, especially the purchasing power of consumers, is expected to directly impact our revenues and results of operations.

Further, India has in the past experienced high rates of inflation. In addition, from time to time, the Government of India has taken measures to control inflation, which have included tightening monetary policy by raising interest rates, restricting the availability of credit and inhibiting economic growth.

Inflation, measures to combat inflation and public speculation about possible governmental actions to combat inflation have also contributed significantly to economic uncertainty in India and heightened volatility in the Indian capital markets. Periods of higher inflation may also slow the

growth rate of the Indian economy and increase some of our costs and expenses. To the extent that the demand for our products decreases or costs and expenses increase, and we are not able to pass those increases in costs and expenses on to our customers, our operating margins and operating income may be adversely affected, which could have a material adverse effect on our business, financial condition and results of operations.

Other Risks

60. Significant differences exist between Indian GAAP and other accounting principles, such as U.S. GAAP and IFRS, which may be material to the financial statements prepared and presented in accordance with SEBI ICDR Regulations contained in this Prospectus.

As stated in the reports of the Auditor included in this Prospectus under chapter “**Financial Statements as restated**” beginning on page 220, the financial statements included in this Prospectus are based on financial information that is based on the audited financial statements that are prepared and presented in conformity with Indian GAAP and restated in accordance with the SEBI ICDR Regulations, and no attempt has been made to reconcile any of the information given in this Prospectus to any other principles or to base it on any other standards. Indian GAAP differs from accounting principles and auditing standards with which prospective investors may be familiar in other countries, such as U.S. GAAP and IFRS. Significant differences exist between Indian GAAP and U.S. GAAP and IFRS, which may be material to the financial information prepared and presented in accordance with Indian GAAP contained in this Prospectus.

Accordingly, the degree to which the financial information included in this Prospectus will provide meaningful information is dependent on familiarity with Indian GAAP, the Companies Act and the SEBI ICDR Regulations. Any reliance by persons not familiar with Indian GAAP on the financial disclosures presented in this Prospectus should accordingly be limited.

61. Changing laws, rules and regulations and legal uncertainties, including adverse application of tax laws, may adversely affect our business and financial performance.

The regulatory and policy environment in India is evolving and subject to change. Such changes in applicable law and policy in India, including the instances described below, may adversely affect our business, financial condition, results of operation, performance and prospects in India, to the extent that we are not able to suitably respond to and comply with such changes.

For instance, in November 2016, the Government of India demonetized certain – high value denominations of currency. Trading and retail businesses in India were impacted for a limited period of time on account of such demonetization. Such businesses have subsequently needed to introduce additional point of sale instruments to improve their collection process.

The Government of India implemented a comprehensive national goods and service tax (“GST”) regime that combines taxes and levies by the central and state governments into a unified rate structure from July 01, 2017, which we believe will result in fundamental changes. However, given its recent introduction, there is no established practice regarding the implementation of, and compliance with, GST. The implementation of the new GST regime has increased the operational and compliance burden for Indian companies and has also led to various uncertainties. Any future increases and amendments to the GST regime may further affect the overall tax efficiency of companies operating in India and may result in significant additional taxes becoming payable. Our business and financial

performance could be adversely affected by any unexpected or onerous requirements or regulations resulting from the introduction of GST or any changes in laws or interpretation of existing laws, or the promulgation of new laws, rules and regulations relating to GST, as it is implemented. Further, as GST is implemented, there can be no assurance that we will not be required to comply with additional procedures and/or obtain additional approvals and licenses from the government and other regulatory bodies or that they will not impose onerous requirements and conditions on our operations. Any such changes and the related uncertainties with respect to the implementation of GST may have a material adverse effect on our business, financial condition and results of operations.

Further, the General Anti Avoidance Rules came into effect on April 1, 2017. The effect of the application of these provisions to our business in India is at present uncertain. Furthermore, the Finance Act, 2019 instituted a number of amendments to the existing direct and indirect tax regime which includes the withdrawal of long-term capital gains exemptions on equity shares, long term capital gains applicability in the hands of Foreign Institutional Investors and applicability of dividend distribution tax for certain transactions with shareholders, among others.

62. *Political instability or a change in economic liberalization and deregulation policies could seriously harm business and economic conditions in India generally and our business in particular.*

The Government of India has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business and the market price and liquidity of our Equity Shares may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. The rate of economic liberalization could change, and specific laws and policies affecting the information technology sector, foreign investment and other matters affecting investment in our securities could change as well. Any significant change in such liberalization and de-regulation policies could adversely affect business and economic conditions in India, generally, and our business, prospects, financial condition and results of operations, in particular.

63. *We cannot guarantee the accuracy or completeness of facts and other statistics with respect to India, the Indian economy and industry in which our company operates contained in the Prospectus.*

While facts and other statistics in this Prospectus relating to India, the Indian economy and the industry in which our company operates has been based on various government publications and reports from government agencies that we believe are reliable, we cannot guarantee the quality or reliability of such materials. While we have taken reasonable care in the reproduction of such information, industry facts and other statistics have not been prepared or independently verified by us or any of our respective affiliates or advisors and, therefore we make no representation as to their accuracy or completeness. These facts and other statistics include the facts and statistics included in the chapter titled “**Our Industry**” beginning on page 125 of the Prospectus. Due to possibly flawed or ineffective data collection methods or discrepancies between published information and market practice and other problems, the statistics herein may be inaccurate or may not be comparable to statistics produced elsewhere and should not be unduly relied upon. Further, there is no assurance that they are stated or compiled on the same basis or with the same degree of accuracy, as the case may be, elsewhere.

64. *Financial instability in Indian financial markets could adversely affect our Company's results of operations and financial condition.*

In this globalized world, the Indian economy and financial markets are significantly influenced by worldwide economic, financial and market conditions. Any financial turmoil, say in the United States of America, Europe, China or other emerging economies, may have a negative impact on the Indian economy. Although economic conditions differ in each country, investors' reactions to any significant developments in one country can have adverse effects on the financial and market conditions in other countries. A loss in investor confidence in the financial systems, particularly in other emerging markets, may cause increased volatility in Indian financial markets. Indian financial markets have also experienced the contagion effect of the global financial turmoil. Any prolonged financial crisis may have an adverse impact on the Indian economy, thereby resulting in a material and adverse effect on our Company's business, operations, financial condition, profitability and price of its Shares. Stock exchanges in India have in the past experienced substantial fluctuations in the prices of listed securities.

65. *Conditions in the Indian securities market may affect the price or liquidity of our Equity Shares.*

The Indian securities markets are smaller than securities markets in more developed economies and the regulation and monitoring of Indian securities markets and the activities of investors, brokers and other participants differ, in some cases significantly, from those in the more developed economies. Indian stock exchanges have in the past experienced substantial fluctuations in the prices of listed securities. Further, the Indian stock exchanges have experienced volatility in the recent times. The Indian stock exchanges have also experienced problems that have affected the market price and liquidity of the securities of Indian companies, such as temporary exchange closures, broker defaults, settlement delays and strikes by brokers. In addition, the governing bodies of the Indian stock exchanges have from time-to-time restricted securities from trading and limited price movements. A closure of, or trading stoppage on the SME Platform of BSE Limited could adversely affect the trading price of the Equity Shares.

66. *Global economic, political and social conditions may harm our ability to do business, increase our costs and negatively affect our stock price.*

Global economic and political factors that are beyond our control, influence forecasts and directly affect performance. These factors include interest rates, rates of economic growth, fiscal and monetary policies of governments, inflation, deflation, foreign exchange fluctuations, consumer credit availability, fluctuations in commodities markets, consumer debt levels, unemployment trends and other matters that influence consumer confidence, spending and tourism. Increasing volatility in financial markets may cause these factors to change with a greater degree of frequency and magnitude, which may negatively affect our stock prices.

67. *Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.*

Under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/tax clearance certificate from the income tax authority. There can be no assurance that any approval

required from the RBI or any other government agency can be obtained on any particular terms or at all.

68. *The extent and reliability of Indian infrastructure could adversely affect our Company's results of operations and financial condition.*

India's physical infrastructure is in developing phase compared to that of many developed nations. Any congestion or disruption in its port, rail and road networks, electricity grid, communication systems or any other public facility could disrupt our Company's normal business activity. Any deterioration of India's physical infrastructure would harm the national economy; disrupt the transportation of goods and supplies, and costs to doing business in India. These problems could interrupt our Company's business operations, which could have an adverse effect on its results of operations and financial condition.

69. *Any downgrading of India's sovereign rating by an independent agency may harm our ability to raise financing.*

Any adverse revisions to India's credit ratings for domestic and international debt by international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing may be available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures and the trading price of our Equity Shares.

70. *The occurrence of natural or man-made disasters could adversely affect our results of operations, cash flows and financial condition. Hostilities, terrorist attacks, civil unrest and other acts of violence could adversely affect the financial markets and our business.*

The occurrence of natural disasters, including cyclones, storms, floods, earthquakes, tsunamis, tornadoes, fires, explosions, pandemic disease and man-made disasters, including acts of terrorism and military actions, could adversely affect our results of operations, cash flows or financial condition. Terrorist attacks and other acts of violence or war may adversely affect the Indian securities markets. In addition, any deterioration in international relations, especially between India and its neighbouring countries, may result in investor concern regarding regional stability which could adversely affect the price of the Equity Shares. In addition, India has witnessed local civil disturbances in recent years, and it is possible that future civil unrest as well as other adverse social, economic or political events in India could have an adverse effect on our business. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the market price of the Equity Shares.

BOOK BUILDING PROCESS

Book Building, with reference to the Issue, refers to the process of collection of Bids on the basis of the Red Herring Prospectus within the Price Band. The Price Band shall be determined by our Company in

consultation with the Book Running Lead Manager in accordance with the Book Building Process, and advertised in all editions of a widely circulated English Newspaper, all editions of a widely circulated Hindi Newspaper and a widely circulated Regional Newspaper, Hindi being the regional language of Rajasthan, where our registered office is situated at least two working days prior to the Bid/ Issue Opening date and was made available to the stock exchange for the purpose of uploading on their respective websites. The Issue Price shall be determined by our Company, in consultation with the Book Running Lead Manager in accordance with the Book Building Process after the Bid/Issue Closing Date. Principal parties involved in the Book Building Process are: -

- Our Company;
- The Book Running Lead Manager in this case being Holani Consultants Private Limited
- The Syndicate Member(s) who are intermediaries registered with SEBI/ registered as brokers with SME Platform of BSE Limited and eligible to act as Underwriters. The Syndicate Member(s) will be appointed by the Book Running Lead Manager;
- The Escrow collection Banks / Banker to the Issue;
- The Sponsor Bank(s);
- The Registrar to the Issue and;
- The designated Intermediaries

All Bidders could participate in this Issue only through the ASBA process by providing the details of their respective bank accounts in which the corresponding Bid Amount was blocked by SCBS.

In terms of the SEBI ICDR Regulations, QIBs and Non-Institutional Investors were not permitted to withdraw their Bid(s) or lower the size of their Bid(s) (in terms of the number of Equity Shares or the Bid Amount) at any stage. RIBs could revise their Bid(s) during the Bid/ Issue Period and withdraw their Bid(s) until the Bid/ Issue Closing Date. Except for Allocation to RIBs, Allocation in the Issue was made on a proportionate basis.

For further details, see *“Terms of the Issue”*, *“Issue Structure”* and *“Issue Procedure”* on pages 367, 376 and 378, respectively.

The process of Book Building under the SEBI ICDR Regulations and the Bidding Process are subject to change from time to time and the investors are advised to make their own judgment about investment through this process prior to submitting a Bid in the Issue.

Bidder should note that, the Issue is also subject to obtaining the final listing and trading approvals of the Stock Exchanges, which our Company shall apply for after Allotment.

Illustration of Book Building and Price Discovery Process

(Investors should note that this example is solely for illustrative purposes and is not specific to the Issue) Bidders can bid at any price within the price band. For instance, assume a price band of Rs. 20.00/- to Rs. 24.00/- per equity share, issue size of 3,000 equity shares and receipt of five bids from bidders, details of which are shown in the table below. A graphical representation of the consolidated demand and price would be made available at the bidding centres during the bidding period. The illustrative book below shows the demand for the equity shares of the issuer company at various prices and is collated from bids received from various investors.

Bid Quantity	Bid Price (Rs.)	Cumulative Bid Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the issuer is able to issue the desired number of shares is the price at which the book cuts off, i.e., Rs. 22/- in the above example. The issuer, in consultation with the Book Running Lead Manager will finalize the issue price at or below such cut – off price, i.e., at or below Rs. 22/-. All bids at or above this issue price and cut – off bids are valid bids and are considered for allocation in the respective categories.

Steps to be taken by the Bidders for Bidding:

- 1) Check eligibility for making a Bid (see section titled “*Issue Procedure*” on page 378 of this Prospectus);
- 2) Ensure that you have a demat account and the demat account details are correctly mentioned in the Bid cum Application Form;
- 3) Ensure correctness of your PAN, DP ID, Client ID and UPI ID mentioned in the Bid cum Application Form. Based on these parameters, the Registrar to the Issue will obtain the Demographic Details of the Bidders from the Depositories.
- 4) Except for Bids on behalf of the Central or State Government officials, residents of Sikkim and the officials appointed by the courts, who may be exempt from specifying their PAN for transacting in the securities market, for Bids of all values ensure that you have mentioned your PAN allotted under the Income Tax Act in the Bid cum Application Form. The exemption for Central or State Governments and officials appointed by the courts and for investors residing in Sikkim is subject to the Depository Participant’s verification of the veracity of such claims of the investors by collecting sufficient documentary evidence in support of their claims.
- 5) Ensure that the Bid cum Application Form is duly completed as per instructions given in the Red Herring Prospectus and in the Bid cum Application Form;

Contact Person: Alok Sharma

SEBI Registration No: INZ000299835

Market Maker Registration No.: (SME Platform of BSE Limited): SMEMM0680209092022

Holani Consultants Private Limited, registered with SME Platform of BSE Limited (“**BSE SME**”), will act as the Market Maker and has agreed to receive or deliver of the specified securities in the market making process for a period of three years from the date of listing of our Equity Shares or for a period as may be notified by any amendment to SEBI (ICDR) Regulations.

The Market Maker shall fulfill the applicable obligations and conditions as specified in the SEBI ICDR Regulations, as amended from time to time and the circulars issued by BSE Limited and SEBI in this matter from time to time.

Following is a summary of the key details pertaining to the Market Making arrangement:

1. The Market Maker(s) (individually or jointly) shall be required to provide a 2 – way quote for 75% of the time in a day. The same shall be monitored by the Stock Exchange. The Spread (difference between the sell and buy quote) shall not be more than 10% or as specified by the Stock Exchange. Further, the Market Maker(s) shall inform the Exchange in advance for each and every black out period when the quotes are not being offered by the Market Maker(s).
2. The Prices quoted by Market Maker shall be in compliance with the Market Maker Spread Requirements and other particulars as specified or as per the requirements of SME Platform of BSE Limited and SEBI from time to time.
3. The minimum depth of the quote shall be Rs. 1,00,000/-. However, the investors with holdings of value less than Rs. 1,00,000/- shall be allowed to offer their holding to the Market Maker(s) (individually or jointly) in that scrip provided that he sells his entire holding in that scrip in one lot along with a declaration to the effect to the selling broker. Based on the IPO price of Rs. 38/- per share the minimum lot size is 3,000 Equity Shares thus minimum depth of the quote shall be Rs. 1,14,000.00 until the same, would be revised by SME Platform of BSE Limited.
4. After a period of three (3) months from the market making period, the Market Maker would be exempted to provide quote if the Shares of Market Maker in our Company reaches to 25% of Issue Size (including the 2,94,000 Equity Shares out to be allotted under this Issue). Any Equity Shares allotted to Market Maker under this Issue over and above 25% Equity Shares would not be taken in to consideration of computing the threshold of 25% of issue size. As soon as the Shares of Market Maker in our Company reduce to 24% of Issue Size, the Market Maker will resume providing 2–way quotes.
5. There shall be no exemption/threshold on downside. However, in the event the Market Maker exhausts his inventory through market making process, SME Platform of BSE Limited may intimate the same to SEBI after due verification.
6. Execution of the order at the quoted price and quantity must be guaranteed by the Market Maker(s), for the quotes given by him.
7. There would not be more than five Market Makers for the Company’s Equity Shares at any point of time and the Market Makers may compete with other Market Makers for better quotes to the investors. At this stage, **Holani Consultants Private Limited** is acting as the sole Market Maker.
8. On the first day of the listing, there will be pre – opening session (call auction) and there after the trading will happen as per the equity market hours. The circuits will apply from the first day of the

listing on the discovered price during the pre-open call auction. The securities of the company will be placed in SPOS and would remain in Trade for Trade settlement for 10 days from the date of listing of Equity share on the Stock Exchange.

9. The shares of the Company will be traded in continuous trading session from the time and day the company gets listed on SME Platform of BSE Limited and market maker will remain present as per the guidelines mentioned under BSE Limited and SEBI circulars.
10. Price Band and Spreads: SEBI Circular bearing reference no: CIR/MRD/DP/ 02/2012 dated January 20, 2012, has laid down that for Issue size up to Rs. 250 crores, the applicable price bands for the first day shall be:
 - In case equilibrium price is discovered in the Call Auction, the price band in the normal trading session shall be 5% of the equilibrium price.
 - In case equilibrium price is not discovered in the Call Auction, the price band in the normal trading session shall be 5% of the Issue price.

Additionally, the trading shall take place in TFT segment for first 10 days from commencement of trading. The following spread will be applicable on the SME Exchange Platform.

S. No	Market Price Slab (In Rs.)	Proposed Spread (in % to Sale Price)
1	Up to 50	9
2	50 to 75	8
3	75 to 100	6
4	Above 100	5

11. There will be special circumstances under which the Market Maker may be allowed to withdraw temporarily/fully from the market – for instance due to system problems, any other problems. All controllable reasons require prior approval from the Exchange, while force – majeure will be applicable for non – controllable reasons. The decision of the Exchange for deciding controllable and non – controllable reasons would be final.
12. The Market Maker(s) shall have the right to terminate said arrangement by giving one – month notice or on mutually acceptable terms to the Book Running Lead Manager, who shall then be responsible to appoint a replacement Market Maker(s).

In case of termination of the above – mentioned Market Making agreement prior to the completion of the compulsory Market Making period, it shall be the responsibility of the Book Running Lead Manager to arrange for another Market Maker(s) in replacement during the term of the notice period being served by the Market Maker but prior to the date of releasing the existing Market Maker from its duties in order to ensure compliance with the requirements of regulation 261 of the SEBI (ICDR) Regulations. Further the Company and the Book Running Lead Manager reserve the right to appoint other Market Maker(s) either as a replacement of the current Market Maker or as an additional Market Maker subject to the total number of Designated Market Makers does not exceed 5 (five) or as specified by the relevant laws and regulations applicable at that particular point of time. The Market

Making Agreement is available for inspection at our Corporate Office from 11.00 a.m. to 5.00 p.m. on working days.

13. SME Platform of BSE Limited will have all margins which are applicable on the BSE SME viz., Mark – to – Market, Value – At – Risk (VAR) Margin, Extreme Loss Margin, Special Margins and Base Minimum Capital etc. SME Platform of BSE Limited can impose any other margins as deemed necessary from time-to-time.
14. SME Platform of BSE Limited will monitor the obligations on a real time basis and punitive action will be initiated for any exceptions and/or non – compliances. Penalties/ fines may be imposed by the Exchange on the Market Maker, in case he is not able to provide the desired liquidity in a particular security as per the specified guidelines. These penalties/ fines will be set by the Exchange from time to time. The Exchange will impose a penalty on the Market Maker(s) in case he is not present in the market (offering two – way quotes) for at least 75% of the time. The nature of the penalty will be monetary as well as suspension in market making activities/ trading membership.

The Department of Surveillance and Supervision of the Exchange would decide and publish the penalties/ fines/ suspension for any type of misconduct/ manipulation/ other irregularities by the Market Maker from time to time.

15. Pursuant to SEBI Circular number CIR/MRD/DSA/31/2012 dated November 27, 2012, limits on the upper side for Market Makers during market making process has been made applicable, based on the issue size and as follows:

Issue size	Buy quote exemption threshold (including mandatory initial inventory of 5% of the Issue Size)	Re-Entry threshold for buy quote (including mandatory initial inventory of 5% of the Issue Size)
Up to Rs. 20 Crore	25%	24%
Rs. 20 crores to Rs. 50 crores	20%	19%
Rs. 50 to Rs. 80 crores	15%	14%
Above Rs. 80 crores	12%	11%

The Market Making arrangement, trading and other related aspects including all those specified above shall be subject to the applicable provisions of law and/or norms issued by SEBI/ SME Platform of BSE Limited from time to time.

16. All the above – mentioned conditions and systems regarding the Market Making Arrangement are subject to change based on changes or additional regulations and guidelines from SEBI and Stock Exchange from time to time.

Our Promoters have confirmed to our company and the Book Runner Lead Manager that the acquisition of equity shares held by our promoters has been financed from their internal accruals and no loans or financial assistance from any banks or financial institutions have been availed of by them for this purpose.

The minimum Promoters' contribution has been brought in to the extent of not less than the specified minimum lot and from the persons defined as 'promoter' under the SEBI (ICDR) Regulations. The Equity Shares that are being locked in are not ineligible for computation of Promoters' contribution in terms of Regulation 237 of the SEBI ICDR Regulations. In connection, we confirm the following: -

- a) The Equity Shares offered for minimum 20% Promoters' contribution have not been acquired in the three years preceding the date of this Prospectus for consideration other than cash and revaluation of assets or capitalization of intangible assets nor resulted from a bonus issue out of the revaluation reserves or unrealized profits of the Company or against Equity Shares which are otherwise ineligible for computation of Promoters' contribution;
- b) The minimum Promoters' contribution does not include Equity Shares acquired during the one year preceding the date of this Prospectus at a price lower than the Issue Price;
- c) Our Company has not been formed by the conversion of a partnership firm into a Company and thus, no Equity Shares have been issued to our Promoters upon conversion of a partnership firm;
- d) The Equity Shares held by the Promoters and offered for minimum Promoters' contribution are not subject to any pledge;
- e) All the Equity Shares of our Company held by the Promoter are held in dematerialized form prior to filing of this Prospectus; and
- f) The Equity Shares offered for Promoters' contribution do not consist of Equity Shares for which specific written consent has not been obtained from the Promoters for inclusion of its subscription in the Promoters' contribution subject to lock-in.

21. Details of Share Capital of the Promoters Lock in for one year

In addition to 20% of the post issue capital of our company held by the Promoters, which will be locked-in for three years, the balance 1,03,79,760 Equity Shares held by Promoters shall be locked in for a period of one year from the date of allotment in the Initial Public Offer as provided in clause (b) of Regulation 238 of the SEBI (ICDR) Regulations, 2018.

22. Lock in of Equity Shares held by Persons other than the Promoters:

In terms of Regulation 239 of the SEBI (ICDR) Regulations, 2018, the entire pre-issue capital held by the Persons other than the Promoters shall be locked in for a period of one year from the date of allotment in the Initial Public Offer. Accordingly, 4,50,240 Equity shares held by the Persons other than the Promoters shall be locked in for a period of one year from the date of allotment in the Initial Public Offer.

23. Inscription or recording of non-transferability:

In terms of Regulation 241 of the SEBI (ICDR) Regulations, 2018, our Company confirms that certificates of Equity Shares which are subject to lock in shall contain the inscription "Non-Transferable" and specify the lock-in period and in case such equity shares are dematerialized, the Company shall ensure that the lock in is recorded by the depository.

24. Pledge of Locked in Equity Shares:

In terms of Regulation 242 of the SEBI (ICDR) Regulations, 2018, the Equity Shares held by our Promoters and locked in may be pledged as a collateral security for a loan granted by a scheduled commercial bank or public financial institution or a systemically important non-banking finance company or housing finance company, subject to following;

- In case of Minimum Promoters' Contribution, the loan has been granted to the issuer company or its subsidiary(ies) for the purpose of financing one or more of the Objects of the Issue and pledge of equity shares is one of the terms of sanction of the loan.
- In case of Equity Shares held by Promoters in excess of Minimum Promoters' contribution, the pledge of equity shares is one of the terms of sanction of the loan.

However, lock in shall continue pursuant to the invocation of the pledge and such transferee shall not be eligible to transfer the equity shares till the lock in period stipulated has expired.

25. Transferability of Locked in Equity Shares:

In terms of Regulation 243 of the SEBI (ICDR) Regulations, 2018 and subject to provisions of Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011 as applicable;

- The Equity Shares held by our Promoters and locked in as per Regulation 238 of the SEBI (ICDR) Regulations, 2018 may be transferred to another Promoter or any person of the Promoters' Group or to a new promoter(s) or persons in control of our Company, subject to continuation of lock-in for the remaining period with transferee and such transferee shall not be eligible to transfer them till the lock-in period stipulated has expired.
- The equity shares held by persons other than promoters and locked in as per Regulation 239 of the SEBI (ICDR) Regulations, 2018 may be transferred to any other person (including Promoter and Promoters' Group) holding the equity shares which are locked-in along with the equity shares proposed to be transferred, subject to continuation of lock-in for the remaining period with transferee and such transferee shall not be eligible to transfer them till the lock-in period stipulated has expired.

We further confirm that our Promoters contribution of 20% of the post issue equity share capital does not include any contribution from Alternative Investment Fund, Foreign Venture Capital Investors, Scheduled Commercial Banks, Public Financial Institutions or Insurance Companies registered under IRDA.

- 26.** Our Company, our Directors and the BRLM has not entered into any buy back arrangements for the purchase of Equity Shares being issued through the Issue from any person.
- 27.** As on date of the Prospectus, all the equity shares of our company are fully paid-up. Further, since the entire Issue price in respect of the Issue is payable on application, all the successful applicants will be issued fully paid-up equity shares.
- 28.** Neither the BRLM, nor their associates hold any Equity Shares of our Company as on the date of the Prospectus.

29. Our company does not have any Employee Stock Option Scheme/ Employee Stock Purchase Plan for our employees and we do not intend to allot any shares to our employees under Employee Stock Option Scheme/ Employee Stock Purchase Plan from the proposed Issue. As and when, options are granted to our employees under the Employee Stock Option Scheme, our company shall comply with the SEBI (Share Based Employee Benefits) Regulations, 2014 and SEBI (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999.
30. There are no safety net arrangements for this public issue.
31. As per RBI regulations, OCBs are not allowed to participate in this Issue.
32. Our Company has not raised any bridge loan against the proceeds of this Issue. However, depending on business requirements, we may consider raising bridge financing facilities, pending receipt of the Net Proceeds.
33. There are no Equity Shares against which depository receipts have been issued.
34. Our Company undertakes that at any given time, there shall be only one denomination for our Equity Shares, unless otherwise permitted by law.
34. We shall ensure that transactions in Equity Shares by the Promoter and members of the Promoter Group, if any, between the date of filing the Draft Red Herring Prospectus and the Issue Closing Date shall be reported to the Stock Exchanges within 24 hours of such transactions being completed.
35. An over-subscription to the extent of 10% of the Issue can be retained for the purpose of rounding off to the nearest multiple of minimum allotment lot, while finalizing the Basis of Allotment. Consequently, the actual Allotment may go up by a maximum of 10% of the Issue, as a result of which, the post-Issue paid up capital after the Issue would also increase by the excess amount of Allotment so made. In such an event, the Equity Shares held by our Promoters and subject to lock-in shall be suitably increased; so as to ensure that a minimum of 20% of the post Issue paid-up capital is locked in.
36. As on date of this Prospectus there are no outstanding warrants, options or rights to convert debentures loans or other financial instruments into our Equity Shares.
37. A Bidder cannot make a Bid for more than the number of Equity Shares being issued through this Issue, subject to the maximum limit of investment prescribed under relevant laws applicable to each category of investors.
38. No incentive, whether direct or indirect, in any manner, whether in cash or kind or services or otherwise shall be offered by any person connected with the distribution of the issue to any person for making an application in the Initial Public Offer, except for fees or commission for services rendered in relation to the issue.
39. Our Promoters and the members of our Promoters' Group will not participate in this Issue.
40. None of our Directors or Key Managerial Personnel holds Equity Shares in our Company, except as stated in the chapter titled "**Our Management**" beginning on page 186 of the Prospectus.

OBJECTS OF THE ISSUE

The proceeds from the issue after deducting Issue related expenses are estimated to be Rs. 2,008.84 lakhs (the “**Net proceeds**”).

Our company proposes to utilize the net proceeds from the issue towards funding the following objects and to achieve the benefits of listing on the SME Platform of BSE Limited (“**BSE SME**”):

- Funding the Working capital requirements of our Company; and
- General corporate purposes.

(Collectively, herein referred to as the “**Objects**”)

Also, we believe that the listing of our Company’s equity shares will enhance our Company’s corporate image, brand name and create a public market for our equity shares in India. It will also provide liquidity to the existing shareholders and will also create a public trading market for the Equity Shares of our Company.

The main objects clause of the Memorandum of Association of our Company and the objects incidental and ancillary to the main objects enables us to undertake the activities for which the funds are being raised through the present issue. Further, we confirm that the activities we have been carrying out till now are in accordance with the object’s clause of our Memorandum of Association.

Justifications for Holding Period levels

Justifications for Holding Period level mentioned in the table above are provided below:

Particulars	Justification for Holding Levels
Inventories	Raw material: Our Company procures raw material which is essential for manufacturing the product. In the FY 2019-20, 2020-21 and 2021-22, our Company had maintained raw material inventory levels for 26

Particulars	Justification for Holding Levels
	<p>days, 29 days and 34 days respectively.</p> <p>In the current financial year, the Company increased the holding period to 42 days. Our Company procures raw materials from different regions of India and outside India. Thus, to ensure smooth functioning of production process, avoid delays and maintain sufficient lead time for receiving fresh supplies domestically and internationally, our Company plans to increase the holding levels to 42 days each for the FY 2022-23 and FY 2023-24.</p> <p>Work in Progress: For FY 2019-20, FY 2020-21 and 2021-22, work in progress inventory level has been maintained at 2 days, 1 day and 2 days respectively of cost of production. This is the average time for the work in progress as required as company on account of the various processes undertaken to arrive at the finished products. We have projected a similar timeline for conversion of goods into final products as the entire process is streamlined. Thus, our work in progress holding levels is estimated at existing levels of 2 days each of cost of production for FY 2022-23 and 2023-24.</p> <p>Finished Goods: Our company sells its products under its brand name “<i>INA</i>” and to other manufacturers as a part of B2B sales. In the FY 2019-20, 2020-21 and 2021-22, our Company maintained finished goods and stock-in-trade inventory levels for 4 days, 8 days and 9 days respectively.</p> <p>Our Company, is however, focussed on increasing its sales through the brand name and create a market for the brand. In order to achieve cost competitiveness, shorter leads times and support our increasing operations through INA brand, we aim to stock efficient finished goods and stock-in-trade inventory levels. Thus, we estimate to slightly increase our finished goods and stock-in-trade inventory days to 12 days each in FY 2022-23 and 2023-24.</p>
Trade Receivables	<p>Our company generally sales goods on credit to our customers for a credit period of 33 days, 22 days and 28 days in the FY 2019-20, 2020-21 and 2021-22 which is as per the acceptable business practice in the similar trade.</p> <p>The debtors are projected at 30 days each for FY 2022-23 and 2023-24 which is at same levels as we expect to realize our receivables in the same manner as done previously to grow our operations. Our management believes that the existing credit period to our customers is reasonable for our business operations and consistent with our credit policy.</p>
Trade Payables	<p>Company’s trade payables predominantly comprise of payables towards purchase of raw materials, work in process materials and finished goods. The trade payable days were approximately 20 days,</p>

Particulars	Justification for Holding Levels
	27 days and 23 days of purchases for FY 2019-20, 2020-21 and 2021-22, respectively. The days payable outstanding has been reduced to 9 days each in FY 2022-23 and 2023-24. our Company has proposed to utilise a part of the fresh issue proceeds towards working capital requirements which will lead to payment to creditors and reduction in the outstanding days payable. management personnel or group companies, except in the normal course of business and in compliance with the applicable law.

BASIS FOR ISSUE PRICE

The Issue Price shall be determined by our Company in consultation with the Book Running Lead Manager on the basis of the assessment of market demand for the Equity Shares through the Book Building Process and on the basis of the qualitative and quantitative factors as described in this section.

The face value of the Equity Shares is Rs. 10/- each and the Issue Price is 3.6 times of the face value at the lower end of the Price Band and 3.8 times of the face value at the upper end of the Price Band.

Our company has one subsidiary company “**Insolation Green Energy Private Limited**” and holds 100% Equity Shares in Insolation Green Energy Private Limited as on March 31, 2022. Therefore, the financial data for Financial Year ended on March 2022 has been taken from the Consolidated Restated Financials of the company.

For the purpose of making an informed investment decision, the investors should also refer “**Risk Factors**”, “**Our Business**” and “**Financial Statement as Restated**” beginning on page no. 34, 145 and 220 respectively of this Prospectus. The trading price of the equity shares of our company could decline due to risk factors and you may lose all or part of your investments.

QUALITATIVE FACTORS

Some of the qualitative factors, which form the basis for computation of the Issue Price are:

- Experienced key management personnel, project management and operations team with an excellent track record.
- Strong relationships with customers, employees and other key stakeholders.
- Strong growth and financial performance backed by an asset-light business model.
- A dedicated design and engineering team focused on innovation and developing efficient and cost-effective engineering solutions.
- Cordial relationship between management and labour.
- Ability to provide EPC as supplemental value addition to our solar PV module manufacturing business.

For further details, refer to heading “**Our Competitive Strengths**” under chapter titled “**Our Business**” on page no. 145 of this Prospectus.

QUANTITATIVE FACTORS

The information presented below relating to the Company is based on the Consolidated Restated Financial Statements of the Company for the financial year ended on March 31, 2022, and Standalone Restated Financial Statements of the Company for the financial year ended on March 31, 2021 and 2020 prepared in accordance with Indian GAAP, the Companies Act and SEBI ICDR Regulations. For details, refer chapter titled “**Financial Statements as Restated**” and “**Other financial information**” beginning on pages 220 and 309 of this Prospectus.

Some of the quantitative factors, which form the basis for computing the price, are as follows:

1. Basic and Diluted Earnings per share (EPS) as per Accounting Standard 20:

Year Ended	Basic & Diluted EPS	Weights
March 31, 2022	4.62	3
March 31, 2021	4.60	2
March 31, 2020	2.06	1
Weighted Average EPS	4.18	

Notes:

- *Weighted average number of Equity Shares is the number of Equity Shares outstanding at the beginning of the year adjusted by the number of Equity Shares issued during the year multiplied by the time weighing factor. The time weighing factor is the number of days for which the specific shares are outstanding as a proportion of total number of days during the year.*
- *The figures disclosed above are based on the Consolidated Restated Summary Financial Information of our Company for the year ended March 31, 2022 and Standalone Restated Financial Statements of the Company for the financial year ended on March 31, 2021 and 2020.*
- *The face value of each Equity Share is Rs.10/- each.*
- *Basic and Diluted EPS calculations are in accordance with Accounting Standard 20 (AS – 20) 'Earnings per Share', notified under Section 133 of Companies Act, 2013 read together along with paragraph 7 of the Companies (Accounts) Rules, 2014.*
- *Basic Earnings per share = Net profit after tax, as restated attributable to equity shareholders/Weighted average number of shares outstanding during the year.*
- *Diluted Earnings per share = Net profit after tax, as restated/Weighted average number of potential equity shares outstanding during the year.*
- *Weighted average EPS = Aggregate of year-wise weighted EPS divided by the aggregate of weights i.e. [(EPS x Weight) for each fiscal year]/ [Total of weights].*

2. Price to Earnings (P/E) ratio in relation to Price Band of Rs. 36/- to Rs. 38/- per Equity Share of Rs. 10/- each fully paid up:

Particulars	P/E Ratio at the Lower end of the Price Band	P/E Ratio at the Upper end of the Price Band
P/E based on Basic & Diluted EPS for FY 2021-22	7.79	8.23
P/E based on weighted average Basic & Diluted EPS	8.61	9.09

Industry Peer Group P/E ratio

Based on the peer group information (excluding our Company) given below in this section:

Particulars	P/E Ratio
Highest	32.13
Lowest	6.49
Industry Composite	17.49

Notes:

(1) The industry high and low has been considered from the industry peer set provided later in this chapter. The Industry Composite has been calculated as the arithmetic average P/E of the industry peer set disclosed in this section. For further details, see “**Comparison of Accounting Ratios with listed industry peers**” on page 121 of this Prospectus.

(2) The industry P/E ratio mentioned above is as computed based on closing price the closing market price of equity shares on Stock exchange (BSE Limited) as on June 14, 2022 divided by diluted EPS for the financial year ended March 31, 2021

3. Return on Net Worth (RoNW):

Return on Net Worth as per Restated Financial Statements is as under:

Year Ended	RoNW (%)	Weight
March 31, 2022	31.33%	3
March 31, 2021	45.38%	2
March 31, 2020	37.26%	1
Weighted Average	36.98%	

Notes:

- The RONW has been computed by dividing net profit after tax (excluding exceptional income, if any) as restated by net worth (excluding revaluation reserve, if any) as restated as at year end.
- Weighted average Return on Net Worth = Aggregate of year-wise weighted RoNW divided by the aggregate of weights i.e. [(RoNW x Weight) for each fiscal year] / [Total of weights].

4. Net Asset Value (NAV) per share of Face Value of Rs 10/- each:

As per Restated Financial Statement

Particulars	Amount in Rs.
Net Assets Value per Equity Share as on March 31, 2022	14.75
Net Assets Value per Equity Share after the Issue – At Cap Price	20.70
Net Assets Value per Equity Share after the Issue – At Floor Price	21.26
Issue Price per Equity Share	38.00

Notes:

- Issue Price per Equity Share will be determined on conclusion of the Book Building Process.
- Net Asset Value per Equity Share = Restated net worth, attributable to equity holders of the Company at the end of the year / Number of equity shares outstanding as at the end of year.
- Net worth is aggregate value of the paid-up share capital of the Company and Reserve and Surplus (excluding revaluation reserves, if any) and attributable to equity holders of the Company, if any, as per Restated Financial Information.

5. Comparison of Accounting Ratios with Listed Industry Peers:

Following is the comparison with our peer companies listed in India:

(Rs. in Lakhs except per share data)

Name of the Company	Face value (Rs. per share)	Total Revenue for financial year 2022 (Rs. in Lakhs)	EPS for financial year 2021 (Rs.)		NAV per equity share	P/E (Based on Diluted EPS)	RONW (%)

¹Financial information of our Company is derived from the Restated Consolidated Financial Statements for the Financial Year ended March 31, 2022.

²after including Exceptional item of 5563.13 lakhs

Source: All the financial information for listed industry peers mentioned above is on a consolidated basis (unless otherwise available only on standalone basis) from the financial statements presented in the latest annual report of the respective company for the year ended March 31, 2021 submitted to stock exchanges and from the respective company website.

Notes:

- 1) Considering the nature and size of the business of the Company, the peers are not strictly comparable. However, the above Companies have been included for broad comparison.
- 2) Basic EPS and Diluted EPS refer to the Basic EPS and Diluted EPS sourced from the financial statements of the respective company for the year ended March 31, 2021.
- 3) P/E Ratio has been computed based on the closing market price of equity shares on Stock exchange (BSE Limited) as on July 18, 2022 divided by the Diluted EPS provided above in the table.
- 4) For listed peers, RoNW is computed as profit after tax for the year ended March 31, 2021 divided by Total equity net of minority interest.
- 5) Total Equity has been computed as sum of paid-up share capital and other equity.
- 6) Net Asset Value per share ("**NAV**") (in Rs.) is computed as the closing net worth divided by the equity shares outstanding as on March 31, 2021.
- 7) Data of Swelect Energy System Limited is based on Standalone Financial Statements as the subsidiaries are engaged in different business activities not related to our Company.

The Issue Price is 3.8 times of the face value of the Equity Shares

The Issue Price of Rs. 38/- per Equity Share has been determined by our Company in consultation with the Book Running Lead Manager, on the basis of market demand from investors for Equity Shares through the Book Building Process and is justified in view of the above qualitative and quantitative parameters.

Investors should read the above-mentioned information along with ***“Risk Factors”, “Our Business”, “Management Discussion and Analysis of Financial Condition and Results of Operations” and “Financial Statements as Restated”*** beginning on pages 34, 145, 313 and 220, respectively, to have a more informed view.

GLOBAL ECONOMIC OVERVIEW

ECONOMIC AND SOCIAL IMPACTS AND POLICY IMPLICATIONS OF THE WAR IN UKRAINE

The most important consequence of the war in Ukraine is the lives lost and the humanitarian crisis associated with the huge numbers of besieged and displaced people. There are also, however, numerous significant economic implications. Prior to the outbreak of the war, most key global macroeconomic variables were seen as returning to normality over 2022-23 following the COVID-19 pandemic.

- Global growth in 2023 was projected to return to rates similar to those prevailing in the immediate pre-pandemic period.
- Most OECD economies were expected to get back to full employment by 2023, and inflation was seen as converging on levels close to policy objectives, though later and from higher levels than previously expected in most countries.
- Policy settings were also expected to normalize, with exceptional monetary policy accommodation being progressively removed and emergency fiscal measures, taken in response to the pandemic, phased out.

Although Russia and Ukraine are relatively small in output terms, they are large producers and exporters of key food items, minerals and energy. The war has already resulted in sizeable economic and financial shocks, particularly in commodity markets, with the prices of oil, gas and wheat soaring. The moves in commodity prices and financial markets seen since the outbreak of the war could, if sustained, reduce global GDP growth by over 1 percentage point in the first year, with a deep recession in Russia, and push up global consumer price inflation by approximately 2½ percentage points. Well-designed and carefully targeted fiscal support could reduce the negative impact on growth with only a minor extra impetus to inflation. In some countries, this could be funded by taxation of windfall gains.

Faced with a new negative shock of uncertain duration and magnitude, monetary policy should remain focused on ensuring well-anchored inflation expectations. Most central banks should continue their pre-war plans, with the exception of the most affected economies, where a pause may be needed to fully assess the consequences of the crisis. In the near term, many governments will need to cushion the blow of higher energy prices, diversify energy sources and increase efficiency wherever possible. For food, higher production in OECD countries, refraining from protectionism and multilateral support for logistics will help the countries most affected by a disruption to supply from Russia and Ukraine. The war has underlined the importance of minimizing dependence on Russia for key energy imports.

Policymakers should reconsider the appropriateness of market design with a view to ensuring energy security and putting incentives in place to ensure the green transition in a publicly supported way.

GLOBAL PROSPECTS

Global growth is estimated to have surged to 5.5 percent in 2021—its strongest post-recession pace in 80 years, as a relaxation of pandemic-related lockdowns in many countries helped boost demand.

Projected vaccine coverage based on recent vaccination rates

Notwithstanding this annual increase, resurgences of the COVID-19 pandemic and widespread supply bottlenecks weighed appreciably on global activity in the second half of last year. Moreover, emerging market and developing economies (EMDEs) are experiencing notably weaker and more fragile recoveries compared to those in advanced economies as a result of slower vaccination progress, a more limited policy response, and the pandemic's scarring effects. Global COVID-19 infection rates have soared, driven by the rapid spread of the Omicron variant.

Global energy prices surged in the second half of 2021, particularly for natural gas and coal, owing to recovering demand and constrained supply. Meanwhile, non-energy commodity prices have stabilized, with some at or close to record highs. After rising briskly earlier last year, global trade has plateaued, owing to softening growth of demand for traded goods and supply bottlenecks caused by pandemic-related factory and port shutdowns, weather-induced logistical obstacles, and shortages of semiconductors and shipping containers. Reflecting these bottlenecks, as well as the recovery in global demand and rising food and energy prices, global consumer price inflation and its near-term expectations have increased more than previously anticipated

Consensus median inflation forecasts

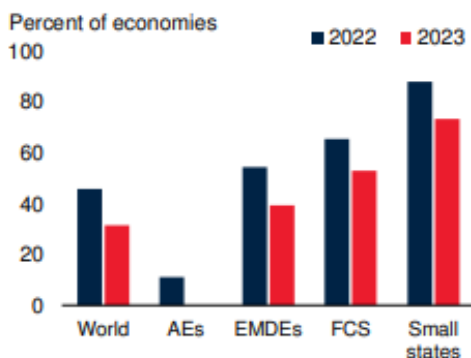

The global economy is set to experience its sharpest slowdown after an initial rebound from a global recession since at least the 1970s. Global growth is projected to decelerate from 5.5 percent in 2021 to 4.1 percent in 2022, reflecting continued COVID-19 flare-ups, diminished policy support, and lingering supply disruptions. Growth is envisioned to slow further in 2023, to 3.2 percent, as pent-up demand is depleted and supportive macroeconomic policies continue to be unwound. Growth in advanced economies is forecast to decelerate from 5 percent in 2021 to 3.8 percent in 2022 as the unwinding of pent-up demand only partly cushions a pronounced withdrawal of fiscal policy support. Growth is projected to moderate further in 2023 to 2.3 percent as pent-up demand is exhausted.

Share of Economies with lower per capita GDP levels than in 2019

These forecasts imply that per capita income growth in EMDEs will decelerate from an estimated 5.1 percent in 2021 to 3.4 percent in 2022 and 3.3 percent next year. In 2023, per capita incomes in nearly 40 percent of EMDEs will remain below their 2019 levels—including over half of countries facing fragile and conflict affected situations and three-fourths of small states. Average growth of per capita income during 2021-23 will be insufficient to allow progress in catching up with advanced economies in nearly 70 percent of EMDEs. Rising food prices will hit the poorest populations the hardest, increasing food insecurity and accentuating the pandemic's impact on income inequality.

GLOBAL RISKS AND POLICY CHALLENGES

In addition to the possibility of new pandemic resurgences, other risks cloud the outlook: persistent

supply bottlenecks could further disrupt global activity and trade, and continued inflation surprises could de-anchor inflation expectations. Many EMDEs have tightened monetary policy to contain inflationary pressures. Pandemic-related fiscal support in EMDEs is expected to be largely unwound by 2023. Policy action is needed to tackle the rising costs of climate-related disasters. With vulnerable groups having disproportionately suffered job losses during the pandemic, policy efforts are also needed to reverse increases in gender and income inequality.

A. Impact of supply bottlenecks on global trade and industrial production

B. Inflation surprises

Continued supply strains could lead to additional disruptions to international trade and contribute to further inflation surprises, increasing the risk that inflation expectations become de-anchored. A concerted effort to deepen international policy cooperation will be needed to tackle mounting global challenges.

PANDEMIC DEVELOPMENTS

COVID-19 caseloads have been surging yet again at the global level in recent months, with massive outbreaks of the fast-spreading Omicron variant following in the footsteps of Delta-variant outbreaks. In most cases, the recent resurgences of COVID-19 have had more muted impacts on economic activity than earlier ones. The Omicron variant's ability to spread rapidly through vaccinated populations points to the possibility of additional restrictions in the near term.

Global new COVID-19 cases and positive testing rate

Projected vaccine coverage based on recent vaccination rates

Vaccination has been proceeding at the global level, with the number of doses administered exceeding 9 billion. Nonetheless, it remains highly uneven across countries. Over 75 percent of people in advanced economies have received at least one vaccine dose compared to about 55 percent in EMDEs. In contrast, only 8 percent of people in LICs have received at least one dose. At recent vaccination rates, and unless they accelerate, only about a third of the LIC population would be inoculated by the end of 2023.

GLOBAL TRADE

Global goods trade has recovered swiftly, driven by a rotation of demand toward trade-intensive manufactured goods, as suggested by the close co-movement of global trade and industrial production. Incoming data suggest that significant strains on supply chains may be easing slightly

After reaching 9.5 percent in 2021, global trade is expected to slow to 5.8 percent in 2022 and to 4.7 percent in 2023, as demand moderates. International travel is likely to remain subdued in the near term but gradually recover over the forecast horizon, supported by improvements in international mobility as vaccination proceeds. Downside risks to the global trade outlook include, in the near term, worsening supply bottlenecks due to the Omicron-driven pandemic surge, and, in the longer-term, rising protectionism.

GLOBAL INFLATION AND FINANCIAL DEVELOPMENTS

In recent months, inflationary pressures across the world have intensified at a faster-than-anticipated pace. Like advanced economies, emerging market and developing economies (EMDEs) have experienced broad based increases in headline and core inflation since mid-2020. EMDE government bond yields have also increased. Although international bond issuance has remained robust, portfolio flows to EMDEs have declined, reflecting concerns about growth prospects and pandemic risks.

Global inflation surprised continuously to the upside in recent months, with median headline consumer price inflation reaching 4.6 percent on a 12-month basis in October 2021, up from a pandemic-related trough of 1.2 percent in May 2020. The rebound in global demand and activity since mid-2020, together with supply disruptions and rising food and energy prices, have pushed headline inflation to decade highs across many countries. Core consumer price inflation has also increased globally; in some economies, this has in part reflected rising housing price inflation. The increase in inflation has led various central banks to partially unwind their accommodative monetary policies.

Inflation Surprises

Index, >0 = Upside data surprise

In advanced economies, inflation has also risen appreciably, albeit with differences across countries.

Market-based measures of medium-term inflation expectations have edged up, although investors still appear to expect inflation to moderate gradually over time toward central banks' targets. Wages have accelerated in advanced economies, especially in sectors experiencing persistent labor shortages.

INDIAN ECONOMIC OVERVIEW

After the second infection wave that peaked in May, the recovery is gaining momentum and GDP is projected to grow at 9.4% in fiscal year (FY) 2021-22 before reverting to 8.1% in FY 2022-23 and 5½ per cent in FY 2023-24. Inflation has remained close to the upper band of the Reserve Bank of India (RBI), but should ebb as supply chain disruptions are overcome. Financial markets remain strong and capital inflows support the build-up in reserves. The appearance of a new virus variant, especially if combined with a relaxation of attitudes, is the major downside risk, together with a less supportive global economic and financial environment.

The macroeconomic policy mix is well-balanced. The RBI stands ready to act forcefully if increases in global commodity prices feed into wages and then to core prices. The government is also committed to invest more in social and physical infrastructure, although well-targeted, direct fiscal support to vulnerable households and firms should also be increased. Reducing unnecessary regulation in product and labour markets, accelerating the sale of public companies in non-strategic sectors, following the successful sale of Air India, and restructuring state-owned banks would boost investment and job creation.

AFTER A DRAMATIC SECOND WAVE, THE PANDEMIC IS STEADILY RECEDING

The normalization momentum came to a halt in winter and spring 2021 as the Delta variant caused a sharp increase in cases and fatalities. Intensive care capacity came under acute pressure and confinement measures were re-introduced, albeit limited to the most affected areas. The vaccine

rollout started in January, covering 30 million healthcare and front-line workers, and was progressively extended to wider swathes of the adult population. By end-September, more than half of the eligible population had been given at least one jab and at mid-November, more than one Indian out of four was fully vaccinated.

INDIA: DEMAND, OUTPUT AND PRICES

The economic shock has been weaker than during the 2020 wave. Since the summer of 2021, growth has rebounded, pulled by exports, consumer demand and, more importantly, a very strong base effect. Most key high-frequency indicators, including sales of two-wheelers and tractors, are rising gradually and mobility indices sharply improved during the Diwali festive season and remain well-oriented. Consumer price inflation stood at 4.5% in October, a significant decline from the October 2020 reading of 7.6%. The recent moderation can be explained by base effects, an excellent monsoon season, a resumption of agriculture supply chains that lowered food prices (which account for 39% of the CPI basket) and administrative steps (such as lower import duties on edible oils). Both merchandise exports and imports have expanded forcefully, boosted by oil trade. Easier conditions in capital markets have benefited large corporates and young start-ups, with a record 51 initial public offers (IPOs) on the two main stock exchanges between January and November 2021. Foreign exchange reserves have increased due to strong foreign direct and portfolio investment flows. In 2021, the rupee has experienced a smaller depreciation against the US dollar than most emerging Asian peers.

1. Headline inflation refers to the change in price of all goods in the basket, while core inflation excludes food and fuel items. Seasonally adjusted and based on monthly consumer price index and core CPI (index 2012 = 100) provided by the Central Statistics Office.

THE POLICY MIX IS APPROPRIATE AND STRUCTURAL REFORMS WOULD STRENGTHEN THE RECOVERY

Despite the economic recovery, GDP is still far from the pre-crisis levels. Most fiscal measures taken in response to the pandemic, including enhanced support to informal workers, migrants and disadvantaged groups, remain in place. Tax revenues have soared, driven by the recovery in activity and deferred payments of taxes due in 2020. Monetary policy has been similarly supportive, through rate easing and liquidity provision, although bank credit growth has remained subdued. Given the pressures from global commodity prices and supply disruptions maintaining RBI transparent communication of its commitment to the inflation target and exchange rate flexibility will be essential in the upcoming phase of monetary policy normalization. With policy rates projected to rise in 2022, the exit of non-viable 'zombie' firms and effective non-performing loans (NPLs) resolution should be made easier. Two new entities have been established: the National Asset Reconstruction Company will acquire stressed assets from commercial banks, while the India Debt Resolution Company will sell them in the market.

In 2020-21, important structural reforms, including labour, insurance and ports liberalization, advanced despite the pandemic. The priority should now be steady implementation of the new legislation. Other measures currently under consideration include the Mines and Minerals Bill, the reform of the judiciary, and the Insolvency and Bankruptcy Code (Amendment) Ordinance. The new National Bank for Financing Infrastructure and Development will address sizeable gaps in physical infrastructure, especially in rural areas. It will be important to put in place a credible medium-term fiscal strategy to bring down the debt-to-GDP ratio and create the fiscal space to meet multi-faceted development needs.

(Source: India-OECD-Economic-Outlook-Dec-2021.pdf)

GROWTH WILL REMAIN ROBUST, ALTHOUGH IT WILL SLOW DOWN IN 2023

Prospects of an economic rebound in India are firming up as GDP is set to expand by 9.4% in FY 2021-22 and 8.1% in FY 2022-23, before moderating to 5½ per cent in FY 2023-24. Activity is supported by the increasing pace of vaccination, which is boosting consumers' sentiment, and the inflation slowdown, which protects purchasing power. In the medium term, however, uncertainty over employment and earnings prospects will slow down the revival of households' consumption. Growth, moreover, will be uneven: rural areas are struggling to absorb the huge flows of migrant returnees, while on the supply side the buoyancy of manufacturing boosted by the Production-Linked Incentive scheme contrasts with the slow return to normalcy of contact-intensive services. The current account will return to deficit, after the exceptional 2020 surplus. The economic outlook in FY 2023-24 is projected to deteriorate due to the lingering negative legacy of COVID-19 on key growth-drivers such as business investment in new machinery.

Headline inflation is projected to remain below the upper tolerance limit of the flexible inflation targeting approach, which it exceeded in FY 2021 due to rising commodity prices and supply disruptions, such as coal and chip shortages. The main risk is related to such disruptions: if they become entrenched, this could weigh on growth and un-anchor inflation expectations. An acceleration in consumer price inflation would weaken real income growth, affecting poor households in particular. Rising oil import prices could also worsen both the fiscal and current account balances.

GLOBAL RENEWABLE ENERGY MARKET

MARKET OVERVIEW

- In 2020, annual renewable capacity additions increased 45% to almost 280 GW – the highest year-on-year increase since 1999.
- Exceptionally high capacity additions become the “new normal” in 2021 and 2022, with renewables accounting for 90% of new power capacity expansion globally.
- Solar PV development will continue to break records, with annual additions reaching 162 GW by 2022 – almost 50% higher than the pre-pandemic level of 2019.
- Global wind capacity additions increased more than 90% in 2020 to reach 114 GW. While the pace of annual market growth slows in 2021 and 2022, it is still 50% higher than the 2017-2019 average.
- Annual growth in the People’s Republic of China’s (hereafter, “China”) renewables market will decelerate following the exceptional expansion that resulted from developers rushing to complete projects before subsidy phase-outs. However, the rest of the world compensates for China’s slowdown and maintains the pace of renewables expansion.
- Europe’s capacity growth accelerates thanks to further policy support and a booming corporate PPA market as PV costs continue to decline.
- The updated forecast for the United States is more optimistic because of federal tax credit extensions. New US emissions reduction targets and the infrastructure bill, if passed, will boost renewables expansion after 2022 (beyond the timeframe of this forecast update).
- Although India’s capacity additions in 2020 declined almost over 50% from 2019, the country is expected to set new records for renewables expansion in 2021 and 2022 as delayed projects from previous competitive auctions are commissioned. However, the current (April 2021) surge in Covid-19 cases has created short-term forecast uncertainty for this year.
- Transport biofuel production is expected to rebound to 2019 volumes in 2021, after having fallen 8% in 2020. Production is also forecast to expand another 7% in 2022.
- Mainly driven by clean fuel standards and policy support in the US, global Hydrotreated Vegetable Oil (HVO) production capacity is expected to nearly double in the next two years, significantly expanding the capability of producing biofuels from waste and residue feedstocks.

INDIAN RENEWABLE ENERGY MARKET

INTRODUCTION

Indian renewable energy sector is the fourth most attractive renewable energy market in the world. India was ranked fourth in wind power, fifth in solar power and fourth in renewable power installed capacity, as of 2020. Rajasthan, Gujarat, Andhra Pradesh, Karnataka, Telangana and Tamil Nadu are the renewable energy hubs in India. Installed renewable power generation capacity has gained pace over the past few years, posting a CAGR of 17.33% between FY16-20. With the increased support of Government and improved economics, the sector has become attractive from investors perspective. As India looks to meet its energy demand on its own, which is expected to reach 15,820 TWh by 2040, renewable energy is set to play an important role. The government is aiming to achieve 227 GW of renewable energy capacity (including 114 GW of solar capacity addition and 67 GW of wind power capacity) by 2022, more than its 175 GW target as per the Paris Agreement. The government plans to establish renewable energy capacity of 523 GW (including 73 GW from Hydro) by 2030.

(Source: <https://www.ibef.org/industry/renewable-energy>)

MARKET SIZE

As of October 2021, India's renewable energy capacity stood at 1.49 GW representing ~38.27% of the overall installed power capacity and providing a great opportunity for the expansion of green data centres. In October 2021, India's renewable energy capacity increased by 1,522.35 MW (megawatt).

As of September 2021, India had 101.53 GW of renewable energy capacity and represents ~38% of the overall installed power capacity. The country is targeting about 450 Gigawatt (GW) of installed renewable energy capacity by 2030 – about 280 GW (over 60%) is expected from solar. As of September 2021, India had 101.53 GW of renewable energy capacity and represents ~38% of the overall installed power capacity. By December 2019, 15,100 megawatts (MW) of wind power projects were issued, of which, projects of 12,162.50 MW capacity have already been awarded². Power generation from renewable energy sources in India reached 127.01 billion units (BU) in FY20.

With a potential capacity of 363 GW and with policies focused on the renewable energy sector, Northern India is expected to become the hub for renewable energy in India.

INVESTMENTS/ DEVELOPMENTS

According to the data released by Department for Promotion of Industry and Internal Trade (DPIIT), FDI inflow in the Indian non-conventional energy sector stood at US\$ 10.28 billion between April 2000 and June 2021. More than US\$ 42 billion has been invested in India's renewable energy sector since 2014. New investment in clean energy in the country reached US\$ 11.1 billion in 2018. According to the analytics firm British Business Energy, India ranked 3rd globally in terms of its renewable energy investments and plans in 2020. Some major investments and developments in the Indian renewable energy sector are as follows:

- In October 2021, Reliance New Energy Solar Ltd. (RNE SL) announced two acquisitions to build more capabilities.
- Both acquisitions – REC Solar Holdings AS (REC Group), a Norway-based firm, and Sterling & Wilson Solar, based in India – exceeded US\$ 1 billion and are expected to contribute to Reliance's target of achieving the capacity of 100 GW of solar energy at Jamnagar by 2030.
- In October 2021, Adani Green Energy Ltd. (AGEL) acquired SB Energy India for US\$ 3.5 billion to strengthen its position in the renewable energy sector in India.
- In August 2021, Copenhagen Infrastructure Partners (CIP) signed an investment agreement with Amp Energy India Private Limited to facilitate joint equity investments of >US\$ 200 million across Indian renewable energy projects.
- In July 2021, National Thermal Power Corporation Renewable Energy Ltd. (NTPC REL), NTPC's fully owned subsidiary, sent out a tender to domestic manufacturers to build India's first green hydrogen fueling station in Leh, Ladakh.
- In June 2021, the Reliance Industries announced to invest Rs. 750,00 crore (US\$ 10.07 billion) the green energy segment.
- In June 2021, Suzlon secured a contract for 252 MW wind power project from CLP India. The project is expected to be commissioned in 2022.
- In June 2021, Tata Power Solar secured a contract worth Rs. 686 crore (US\$ 93.58 million) from the NTPC to build 210 MW projects in Gujarat.
- In May 2021, Adani Green Energy Ltd. (AGEL), signed share purchase agreements for the acquisition of 100% interest in SB Energy India from SoftBank Group (SBG) and Bharti Group. The total renewable portfolio is 4,954 MW spread across four states in India.
- In May 2021, Virescent Infrastructure, a renewable energy platform, acquired 76% of India's solar asset portfolio of Singapore-based Sindicatum Renewable Energy Company Pte Ltd.
- In April 2021, Central Electricity Authority approved the uprating of JSW Energy Karcham Wangtoo hydro power plant to 1,091 megawatt (MW) from 1,000 MW.
- In April 2021, GE Power India's approved the acquisition of 50% stake in NTPC GE Power Services Pvt. Ltd. for Rs 7.2 crore (US\$ 0.96 million).

- The NTPC is expected to commission India's largest floating solar power plant in Ramagundam, Telangana by May-June 2022. The expected total installed capacity is 447MW.
- In March 2021, Edelweiss Infrastructure Yield Plus (EIYP), an alternative investment fund managed by Edelweiss Alternative Asset Advisors, acquired a 74% stake in the solar portfolio of Engie Group in India.
- In March 2021, the US Agency for International Development (USAID) and the US International Development Finance Corporation (DFC) reported a loan guarantee programme worth US\$ 41 million to support Indian SME investments in renewable energy.
- In March 2021, Adani Green Energy announced plan to acquire a 250 MW solar power project in the northern state of Rajasthan (commissioned by Hero Future Energies). The expected deal value stands at ~Rs.10 billion (US\$ 136.20 million).
- In March 2021, Adani Green Energy Ltd. (AGEL) signed a contract to acquire a 100% stake in Sky Power Global's 50 MW solar power project in Telangana. This would increase its operational renewable capacity to 3,395 MW, with a total renewable portfolio of 14,865 MW.
- In March 2021, JICA (Japan International Cooperation Agency) entered a loan agreement with Tata Cleantech Capital Limited (TCCL) for JPY 10 billion (US\$ 90.31 million) to enable the firm provide loans to companies in India for renewable energy production, e-mobility solutions and energy conservation in order to help offset the effects of climate change by reducing greenhouse gas (GHG) emissions (in line with the Green Loan Principles).
- In March 2021, the European Union joined the Coalition for Disaster Resilient Infrastructure (CDRI), an India-led initiative aimed at ensuring long-term development while addressing the climate change's adverse effects.
- In March 2021, India and the US agreed to restructure their strategic energy partnership to concentrate on cleaner energy sectors including biofuels and hydrogen production.
- The Solar Energy Corporation of India (SECI) implemented large-scale central auctions for solar parks and has awarded contracts for 47 parks with over 25 GW of combined capacity.

GOVERNMENT INITIATIVES

Some initiatives by Government of India to boost India's renewable energy sector are as follows:

- In October 2021, the Ministry of Power announced a new set of rules aimed at reducing financial stress for stakeholders and safeguarding timely cost recovery in electricity generation.
- In August 2021, the Indian government proposed new rules for the purchase and consumption of green energy. The latest rules are a part of government measures to encourage large-scale energy consumers, including industries, to leverage renewable energy sources for regular operations.
- In July 2021, to encourage rooftop solar (RTS) throughout the country, notably in rural regions, the Ministry of New and Renewable Energy plans to undertake Rooftop Solar Programme Phase II, which aims to install RTS capacity of 4,000 MW in the residential sector by 2022 with a provision of subsidy.
- In July 2021, the Ministry of New and Renewable Energy (MNRE) gave the go ahead to NTPC Renewable Energy Ltd., a 100% subsidiary of NTPC, to build a 4,750 MW renewable energy park at the Rann of Kutch in Khavada, Gujarat. This will be India's largest solar park to be developed by the country's leading power producer.
- In June 2021, Indian Renewable Energy Development Agency Ltd. (IREDA) has invited bids from solar module manufacturers for setting up solar manufacturing units under the central government's Rs. 4,500 crore (US\$ 616.76 million) Production Linked Incentive (PLI) scheme.
- As of March 2021, State Bank of India financed Rs. 319.18 billion (US\$ 4.28 billion) in renewable energy projects in India, wherein the bank financed 752 renewable energy projects, with a total installed capacity of 13.8 GW.

- In June 2021, the Competition Commission of India (CCI) approved Renew Power to exchange equity shareholding by its existing shareholders with shares of Renew Global. Along with this, the CCI also approved a reverse triangular merger of Renew Global's subsidiary with RMG II.
- In April 2021, the Central Electricity Authority (CEA) and CEEW's Centre for Energy Finance (CEEW-CEF) jointly launched the India Renewables Dashboard that provides detailed operational information on renewable energy (RE) projects in India.
- In April 2021, the Ministry of Power (MoP) released the draft National Electricity Policy (NEP) 2021 and has invited suggestions from all stakeholders such as Central Public Sector Undertakings, Solar Energy Corporation of India, power transmission companies, financial institutions like Reserve Bank of India, Indian Renewable Energy Development Agency, HDFC Bank, ICICI Bank, industrial, solar, and wind associations, and state governments.
- In March 2021, the Union Cabinet approved a Memorandum of Understanding (MoU) in the field of renewable energy cooperation between India and the French Republic.
- In March 2021, Haryana announced a scheme with a 40% subsidy for a 3 KW plant in homes, in accordance with the Ministry of New and Renewable Energy's guidelines, to encourage solar energy in the state. For solar systems of 4-10 KW, a 20% subsidy would be available for installation from specified companies.
- In March 2021, India introduced Gram Ujala, an ambitious programme to include the world's cheapest LED bulbs in rural areas for Rs. 10 (US\$ 0.14), advancing its climate change policy and bolstering its self-reliance credentials.
- In the Union Budget 2021-22, Ministry for New and Renewable Energy was allocated Rs. 5,753 crore (US\$ 788.45 million) and Rs. 300 crore (US\$ 41.12 million) for the 'Green Energy Corridor' scheme.
- Under Union Budget 2021-22, the government has provided an additional capital infusion of Rs. 1,000 crore (US\$ 137.04 million) to Solar Energy Corporation of India (SECI) and Rs. 1,500 crore (US\$ 205.57 million) to Indian Renewable Energy Development Agency.
- To encourage domestic production, customs duty on solar inverters has been increased from 5% to 20%, and on solar lanterns from 5% to 15%.
- India plans to add 30 GW of renewable energy capacity along a desert on its western border such as Gujarat and Rajasthan.
- The Government of India has announced plans to implement a US\$ 238 million National Mission on advanced ultra-supercritical technologies for cleaner coal utilisation.
- Indian Railways is taking increased efforts through sustained energy efficient measures and maximum use of clean fuel to cut down emission level by 33% by 2030.

ROAD AHEAD

The Government is committed to increased use of clean energy sources and is already undertaking various large-scale sustainable power projects and promoting green energy heavily. In addition, renewable energy has the potential to create many employment opportunities at all levels, especially in rural areas. The Ministry of New and Renewable Energy (MNRE) has set an ambitious target to set up renewable energy capacities to the tune of 227 GW by 2022, of which about 114 GW is planned for solar, 67 GW for wind and other for hydro and bio among other. India's renewable energy sector is expected to attract investment worth US\$ 80 billion in the next four years. About 5,000 Compressed Biogas plants will be set up across India by 2023.

It is expected that by 2040, around 49% of the total electricity will be generated by renewable energy as more efficient batteries will be used to store electricity, which will further cut the solar energy cost by 66% as compared to the current cost. *Use of renewables in place of coal will save India Rs. 54,000 crore (US\$ 8.43 billion) annually. Renewable energy will account for 55% of the total installed power

capacity by 2030.

As per the Central Electricity Authority (CEA) estimates, by 2029-30, the share of renewable energy generation would increase from 18% to 44%, while that of thermal is expected to reduce from 78% to 52%. According to the year-end review (2020) by the Ministry of New and Renewable Energy, another 49.59 GW of renewable energy capacity is under installation and an additional 27.41 GW of capacity has been tendered. This puts the total capacity of renewable energy projects (already commissioned or in the pipeline) at ~167 GW.

The Government of India wants to develop a 'green city' in every state of the country, powered by renewable energy. The 'green city' will mainstream environment-friendly power through solar rooftop systems on all its houses, solar parks on the city's outskirts, waste to energy plants and electric mobility-enabled public transport systems.

GLOBAL SOLAR ENERGY MARKET

MARKET OVERVIEW

The global solar energy installed capacity registered to be 728 GW in 2020 and is estimated to reach 1,645 gigawatts (GW) in 2027, registering a CAGR of about 13.78% during the forecast period of 2022 -2027. With the COVID-19 pandemic in 2020, the global solar energy market did not witness any direct significant impact. In fact, many countries ramped up solar panel production and shipment, with several projects put into operation during Q3 and Q4 of 2020. Factors, such as declining prices and installation costs for solar PV and favorable government policies, are expected to drive the solar energy market during the forecast period. However, the rising adoption of alternate renewable sources, such as wind, is expected to restrain the market's growth.

- Due to its high installations share, the solar photovoltaic (PV) segment is expected to dominate the solar energy market during the forecast period.
- An increase in off-grid solar utilization due to decreasing cost of solar PV equipment and supportive global initiatives to eliminate the carbon-emissions are expected to create several opportunities for the market in the future.
- Due to its increasing solar installations, the Asia-Pacific region has dominated the solar energy market in the past few years and is expected to be the largest and fastest-growing region in the solar energy market during the forecast period.

KEY MARKET TRENDS

Solar Photovoltaic (PV) Expected to be the Largest Market Segment

- Solar photovoltaic (PV) technology is expected to account for the largest annual capacity additions for renewables, well above wind and hydro, for the next five years. The solar PV market has cut costs dramatically in the past six years through economies of scale. As the market was flooded with equipment, prices plummeted, and the cost of solar panels has dropped exponentially, leading to increased solar PV system installation.

- In recent years, utility-scale PV systems have dominated the PV market; however, distributed PV systems, mostly in commercial and industrial sectors, have become essential in many countries due to their favorable economics; when combined with increased self-consumption. The ongoing cost reduction of PV systems favors the increasing off-grid markets, in turn, driving the solar PV market.
- Further, the ground-mounted utility-scale solar PV systems are expected to dominate the market during the forecast period. The ground-mounted utility-scale solar accounted for about 64% of the solar PV installed capacity in 2019, led majorly by China and India. This is supported by the fact that large volumes of utility-scale solar are much simpler to deploy than creating a distributed PV rooftop market.
- In April 2020, the world's largest solar wafer manufacturer, LONGi Group, which manufactures mono products, announced its plan to expand mono ingot/wafer capacity from 42 GW at the end of 2019 to 75 GW by the end of 2020, accelerating and boosting its earlier plans which were for 65 GW by the end of 2021. Hence, a paradigm shift to mono c-Si from multi c-Si has created several opportunities for the market players in the previous years.
- In June 2020, Adani Green Energy won the world's largest single bid for solar installation of 8 GW to be delivered by the end of 2025. The project is estimated to have a total investment of USD 6 billion and is expected to displace 900 million tonnes of CO₂ from the environment in its lifetime. Based on the award agreement, the 8 GW of solar development projects will be implemented over the next five years. The first 2 GW of generation capacity will come online by 2022, and the subsequent 6 GW capacity will be added in 2 GW annual increments through 2025.
- Additionally, in April 2021, ACWA Power Inaugurated the 300 MW Sakaka PV IPP, Saudi Arabia's first utility-scale renewable energy project at an investment of SAR 1.2 billion.

Therefore, owing to the above points, the solar photovoltaic (PV) segment is likely to dominate the solar energy market during the forecast period.

ASIA-PACIFIC EXPECTED TO DOMINATE THE MARKET

- Asia Pacific, in recent years, has been the primary market for solar energy installations. With an additional installed capacity of around 78.01 GW in 2020, the region has a market share of about 58% of the global solar power installed capacity.
- The Levelized Cost of Energy (LCOE) for solar PV in the last decade reduced by more than 88%, because of which developing countries in the region, such as Indonesia, Malaysia, and Vietnam, saw an increase in solar energy installation capacity in their total energy mix.

- China is the major contributor to the solar energy market growth in the Asia-Pacific region and globally. After the decrease in installed capacity addition in 2019 to only 30.05 GW, China recovered in 2020, and contributed an additional installed capacity of around 48.2 GW of solar power.
- In July 2020, India commissioned a 750 MW Rewa solar project in Madhya Pradesh. The Rewa Ultra Mega Solar Power comprises three solar generating units, each with a 250 MW capacity. The project is implemented by Rewa Ultra Mega Solar (RUMSL), a joint venture of Madhya Pradesh UrjaVikas Nigam (MPUVN), and Solar Energy Corporation of India (SECI). RUMSL was provided central financial assistance of INR1.38 billion for the project development.
- Similarly, in December 2021, the Power Development Department (PDD) of Ladakh signed a power purchase agreement (PPA) with Solar Energy Corporation of India (SECI) for buying 50 mega watts DC solar power.
- In January 2020, the State electricity company of Indonesia, PLN's Pembangkitan Jawa Bali (PJB) unit, announced its plans to construct a USD 129 million Cirata floating solar power plant in West Java by 2021, with the support from Abu Dhabi-based renewables firm Masdar. The companies kicked off the development of the 145-megawatt (MW) Cirata floating solar photovoltaic (PV) power plant in February 2020, when PLN signed a power purchase agreement (PPA) with Masdar. In its first stage of development, the Cirata plant is expected to have a capacity of 50 MW.

Therefore, owing to the above points, Asia-Pacific is expected to dominate the solar energy market during the forecast period.

RECENT DEVELOPMENTS

- In March 2021, the United States Department of Energy (DOE) funded USD 40 million to 22 projects related to the research and development (R&D), manufacturing, and performance validation of advanced perovskite photovoltaic (PV) devices.
- In January 2021, Shell PLC launched its 25 MW Qabas solar plant. The plant is located on a 50-hectare site within the Sohar Free zone in northern Oman and consists of over 88,000 solar modules. It helps in avoiding more than 25,000 tons of CO₂ emissions annually.

INDIAN SOLAR ENERGY MARKET

MARKET OVERVIEW

The Indian solar energy market is expected to record a CAGR of more than 8% during the forecast period. The COVID-19 outbreak did not significantly impact the Indian solar energy market, as growth was witnessed in the solar PV installed capacity in 2020 compared to 2019. The cumulative growth in electricity generation by solar energy sources also accelerated in 2020. Major factors driving the Indian solar energy market are the declining cost of solar power technology, the flexibility of these systems, and a greener method of power generation. However, the solar energy market is restrained by issues like T&D losses (Transmission & Distribution) and unpredictability in the continuity of power supply.

- The solar PV segment is expected to dominate the Indian solar energy market during the forecast period, as PVs are significantly cheaper than other solar technologies and include a simplified installation procedure.
- India has an abundance of solar irradiance and receives solar energy throughout the year, creating many opportunities to exploit solar energy from the sunniest sites in the country, especially Rajasthan, Gujarat, and Andhra Pradesh. This factor, clubbed with foreign investment and extensive R&D projects to improve the technology, provides ample opportunities for the growth of the Indian solar energy market.
- The market is also propelled by supportive government policies, particularly the plans formulated by the Ministry of New & Renewable Energy (MNRE) to encourage renewables-based power generation.

KEY MARKET TRENDS

Solar PV Segment is Expected to Dominate the Market

- The solar PV segment is expected to have the largest market share during the forecast period, owing to declining costs of solar modules and the versatility of these systems for various applications, like electricity generation and water heating.
- According to the International Renewable Energy Agency (IRENA), the installed solar PV capacity in India was around 38.98 GW in 2020, up from 34.86 GW in 2019, recording a growth of around 11% during the year. The growth resulted from huge deployments of solar PV installations in India, particularly for utility projects. The Government of India has more plans to increase the solar PV installed capacity.
- In December 2021, MNRE invited applications for the Expression of Interest for conducting the evaluation study of Phase-II of the Grid Connected Rooftop Solar Program. The program is a part of the National Solar Mission, which aims at installing 40 GW capacity of grid-connected solar rooftop installation systems by 2022.
- In January 2022, Reliance Industries (RIL) signed a pact with the Gujarat government to invest INR 5 lakh crore in Gujarat over 10-15 years to set up 100 GW renewable energy power plants and a green hydrogen eco-system. Renewable energy power plants include solar power plants at a utility scale. RIL is expected to invest INR 60,000 crore in setting up manufacturing facilities for solar PV modules, electrolyzers, batteries, and fuel cells for the upcoming renewable projects.
- Due to these developments, the solar PV segment is expected to have the largest market share in India during the forecast period.

SUPPORTIVE GOVERNMENT POLICIES TO DRIVE THE MARKET

- Recently, the country planned various government initiatives to increase the solar energy share of India's renewable power generation mix in the future.
- In April 2021, MNRE approved a Production Linked Incentive (PLI) Scheme, namely, 'National Programme on High-Efficiency Solar PV Modules', with an investment of INR 4,500 crore. The scheme has various provisions for supporting the setup of integrated manufacturing units of high-efficiency solar PV modules by offering Production Linked Incentive (PLI) on sales of such solar PV

modules. It aims at enhancing domestic manufacturing capabilities and exports for the coming years.

- Some other schemes implemented by the Ministry of New and Renewable Energy (MNRE) over the last three years are the Solar Park Scheme, the 300 MW defense Scheme, and the 500 MW of VGF (Viability Gap Funding) Scheme. In January 2020, India made an ambitious target of having 450 GW of renewable energy by 2030. The announcement was made by the central government, which is already working on the project of installing around 100 GW of solar energy by 2022.
- In December 2020, the Gujarat government implemented "the Surya Urja Rooftop Yojana" scheme to install solar rooftops for 8 lakh residential consumers by March 2022. Under this scheme, 40% of state subsidy will be provided on installing systems up to 3 kW and 20% subsidy for 3 kW-10 kW systems.
- Such developments are expected to boost the Indian solar energy market in the coming years.

RECENT DEVELOPMENTS

- In January 2022, SJVN (Satluj Jal Vidyut Nigam Ltd) bagged a solar project of 125 MW in Uttar Pradesh through a bidding process held by the Uttar Pradesh New and Renewable Energy Development Agency (UPNEDA). It includes a 75 MW grid-connected solar project in Jalaun and a 50 MW solar project in Kanpur Dehat districts.
- In December 2021, Tata Power clinched the largest solar plus battery project in India from the Solar Energy Corporation of India. The contract includes a 500 mw EPC solar project and a 120 MWh utility-scale Battery Energy Storage System. The total project outlay was around INR 945 crore.

Unless the context otherwise requires, in relation to business operations, in this chapter of this Prospectus, all references to “We”, “Us”, “Our” and “Our Company” are to Insolation Energy Limited as the case may be.

OVERVIEW

Our company was originally formed & incorporated as a Private Limited Company at Jaipur, Rajasthan under the Companies Act, 2013 under the name and style of “**Insolation Energy Private Limited**” vide certificate of incorporation dated October 15, 2015 bearing Corporate Identity Number U40104RJ2015PTC048445 issued by the Registrar of Companies, Jaipur, Rajasthan. Subsequently, our company was converted into Public Limited Company vide special resolution passed by our shareholders at the Extra Ordinary General Meeting held on January 24, 2022 and the name of the company was changed to “**Insolation Energy Limited**” pursuant to the issuance of Fresh Certificate of Incorporation dated February 07, 2022 by Registrar of Companies, Jaipur, Rajasthan. The Corporate Identification Number of our company is U40104RJ2015PLC048445. The registered office of our company is situated at G-25, City Centre, S.C. Road, Jaipur - 302001 and manufacturing unit is situated at Khasra 766/2, Village Bagwada, Tehsil Amer, Near Daulatpura Toll Tax Jaipur - 303805.

Our Company is engaged in the business of manufacturing solar panels and modules of high efficiency of various sizes as per the demand in the market from its fully automatic a state-of-the-art 200 MW (Rated Installed Capacity) SPV Module manufacturing unit located at Jaipur, spread in more than 60,000 Sq. ft area with latest machinery and stringent quality assurance process which delivers quality solar PV module. In addition to the manufacture of solar PV modules, our Company also trades in Solar Power Conditioning Unit (PCU) which uses solar energy and power from the grid to charge batteries and tall tabular Lead Acid Batteries which are used to store energy generated from the solar panels. We are also an integrated solar energy solutions provider offering engineering, procurement and construction (“**EPC**”) services to our customers.

We have built a strong brand reputation for our solar PV modules manufactured on a fully automatic state-of-art manufacturing unit and sold under the brand name of “**INA**” along with a successful track record of developing, engineering and constructing. We strive to deliver reliable solar solutions through innovative products, and we achieve this majorly through our specialized high efficiency PV module manufacturing line and comprehensive EPC solutions.

Our Company adheres to some of the industry's best quality product accreditations. Our Company has obtained certifications such as ISO 9001:2015, ISO 45001:2018, ISO 14001:2015, BIS-IS:14286 etc.

Our company has formed a wholly owned subsidiary in the name of Insolation Green Energy Private Limited ("IGEPL") in FY 2020-21. IGEPL was incorporated on August 28, 2021 with an object of setting up solar PV module manufacturing unit with the proposed annual installed capacity of 500MW in two phases, wherein the Company has placed the order for acquiring machines with installed capacity of 250 MW. IGEPL has incurred capital expenditure to the tune of Rs. 650.88 Lakhs upto May 31, 2022 towards acquiring plant & machineries, setting up factory shed and other installations (vide CA Certificate dated July 11, 2022). The manufacturing unit is setup on a lease land situated in Plot No: K.No.11/1, Jatawali Industrial Area, Near Shyam Dhani Masala Factory, Tehsil-Chomu, Jaipur-303806 (Raj). The commercial production is yet to commence as on the date of filing this Prospectus.

Our solar PV modules are currently manufactured using both polycrystalline and Mono-PERC crystalline cell technology. Our portfolio of solar energy products consists of the following solar PV modules which includes bifacial (glass – to - Transparent back sheet modules) and are differentiated on the basis of solar PV module technology and type as well as cell size:

- (i) polycrystalline modules; and
- (ii) monocrystalline passivated emitter and rear cell (Mono PERC) modules.

We are in the business of solar PV module technologies for more than last 5 years, during which time we have developed strong engineering capabilities in producing high efficiency PV modules.

We have successfully established a geographically diversified presence in India through an extensive distributor network of 30+ distributors. Our local presence and distributor network along with our brand recognition, should ensure that we are well-placed to serve this growing market. In India, we have developed a significant client base purchasing our solar PV modules and EPC services. Our key domestic customers include Livguard Energy Technologies Pvt. Ltd., Livfast Batteries Pvt. Ltd., Shakti Pumps India Ltd., Microtek international P. Ltd., Zunroof Tech Pvt. Ltd. etc.

In 2020, our company diversified into the area of Solar Power Pack and successfully launched Solar Tubular / Li-ion Batteries and Solar PCU. These are designed after thorough market inputs and best available techniques. This Solar Combo offering with adequate storage is fast gaining popularity and helping the home office and home education community in cities, towns and villages.

Our company is promoted by first generation entrepreneur Mr. Manish Gupta & Mr. Vikas Jain, having rich experience and exposure of approximately 23 years in various sectors such as Steel, Industrial Pipe Line Accessories, Real Estate, Health & Fitness, and Captive & Independent Solar Power Producer who have proven to be instrumental to the business operations of the Company.

Our products and services cater to multiple business divisions, helping to diversify revenue streams, improve margins and reduce business risk. Our business areas are as under:

- i. Solar PV module manufacturing; and
- ii. Solar Power Conditioning Unit (PCU) and Lead Acid Batteries trading.

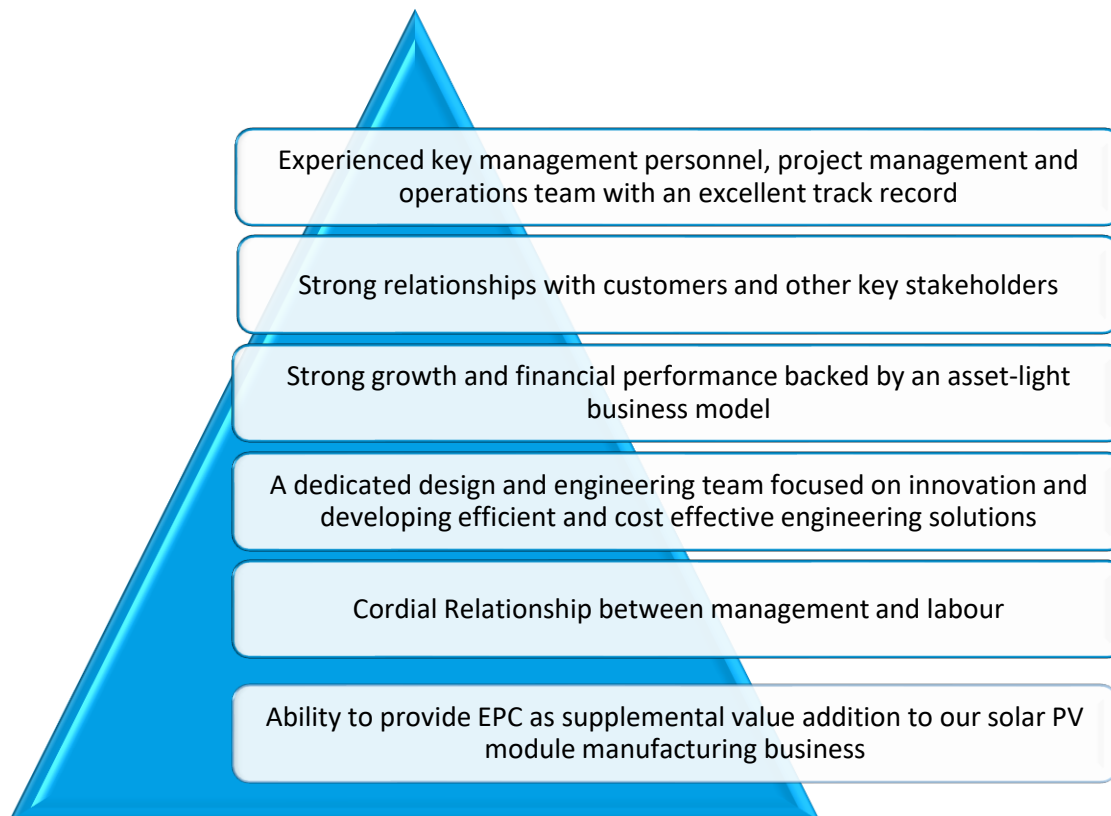

Revenues and profits along with the growth in past 3 years is given as under:

(Rs. In Lakhs)

Particulars	FY 2021-22	FY 2020-21	FY 2019-20
Revenue from Operations	21,532.45	16,268.55	8,875.49
CAGR on Revenue (%)	34.37%		
Profit After Tax	693.27	689.72	309.25
CAGR on PAT (%)	30.88%		

The information presented below relating to the Company is based on the Consolidated Restated Financial Statements for the year ended on March 31, 2022, and Standalone Restated Financial Statements for the year ended on March 31, 2021 and 2020

OUR COMPETATIVE STRENGTH

1. Experienced key management personnel, project management and operations team with an excellent track record

Since inception, our Company is promoted by first generation entrepreneurs, Mr. Manish Gupta & Mr. Vikas Jain, having rich experience and exposure of approximately 23 years in various sectors such as Steel, Industrial Pipe Line Accessories, Real Estate, Health & Fitness, and Captive & Independent Solar Power Producer. Further, the independent directors of our Company are very well educated having rich experience in their respective knowledge fields. Their expertise and deep understanding of the markets in which they operate has helped the Company in leveraging business opportunities and streamlining business processes, thereby contributing towards the growth of the Company. We are led by a management team with extensive experience in the solar industry, deep understanding of managing projects and a proven track record of performance. Benefitting from the experience of the management team, their quick decision-making abilities and strategy to focus on key markets for opportunities, since 2015, we have been able to expand our operations. Our management team is also assisted by a strong technical team.

We continue to strengthen our management team with personnel with expertise in the areas of finance, consultancy and the renewable energy sector. We have in place fit-for-purpose recruiting practices and training programs for our management and personnel at all levels of our operations, which has created a skilled and experienced workforce that will continue to yield operational and financial benefits in the future.

We believe our management and certain members of our project execution teams bring a deep understanding of the local markets in which they operate with strong global project execution expertise that enables us to identify and take advantage of strategic opportunities. Our teams are committed to growing our business, as demonstrated by our track record of project execution and financial results. We conduct continuous learning and development programs for our employees, to keep our employees updated with the latest market studies and new technologies and innovations.

2. Strong relationships with customers, employees and other key stakeholders

We offer a varied range of customized solutions for solar power projects. We adopt a consultative approach to our customers' solar energy needs, which enables us to provide customized solutions to meet their requirements. Our network connects our customers to the employees and other key stakeholders and allows our customers to reduce the number of service providers they need to engage with, thus saving them time and cost, while also providing enhanced supply chain visibility. We believe that managing the complete supply chain for our customers gives us a competitive advantage as we are able to select and optimize solutions for our customers efficiently and at competitive prices. We often receive repeat orders from our customers.

As part of our network, we maintain cordial relationships with our employees and other key stakeholders in the industry, such as, a diversified group of global and local suppliers of modules and other raw materials as they are critical to the success of our supply chain. We also maintain relationships with state-owned and private project lenders to assist our customers, thereby enhancing the bankability of the project. In addition, we maintain continued interactions with large scale public sector off-takers and who purchase the power generated by the power projects constructed by us. In addition, we work with a diversified set of contractors and engineers, and consultants appointed by the relevant clients. Their market reputation and certifications provide additional assurance to our customers of regarding the quality of our services. Our good relationships with third-party engineering consultants who are typically appointed by customers and lenders to manage project executions, including appointment of EPC providers, is also an important factor in the success of our bids. We also have relationships with market participants as we conduct continuous learning and development programs while executing solar power projects, which help them stay updated with latest market studies and new technologies and innovations. We also conduct ongoing training for engineers and subcontractors, which we believe help us build long term relation them.

3. Strong growth and financial performance backed by an asset-light business model

We have demonstrated strong financial performance and our revenues has grown at a CAGR of 34.37% from Rs. 8,875.49 Lakhs in FY 2019-20 to Rs. 21,532.45 Lakhs in FY 2021-22. Driven by our strong operational capabilities, we have been able to minimize costs and achieve healthy profit margins. Our EBITDA increased from Rs. 680.37 Lakhs in FY 2019-20 to Rs. 1,330.79 Lakhs in FY2021-22. Our profit after tax has grown at a CAGR of 30.81% from Rs. 309.25 Lakhs in FY 2019-20 to Rs. 692.20 Lakhs in FY2021-22.

We believe our strong growth and financial performance has been facilitated by our focus on risk management and reliance on clearly defined internal processes to manage our business. We screen project opportunities using an approval process that evaluates resource availability, technical specifications, environmental impact, sources of funds and commercial viability of each project. We follow a multi-stage approval process which seeks to maintain technical, commercial and financial discipline across our projects.

We are Original Equipment Manufacturer (OEM) and thus, operate an asset-light business model. Our customers are the owners / partners / stakeholders of the solar energy business and we are equipment suppliers to such business owners who in turn provide the full-fledged services to their customers. Our products form a part of the extensive service solutions provided by our customers to the final end user.

4. A dedicated design and engineering team focused on innovation and developing efficient and cost-effective engineering solutions

Our operations are supported by a competent and sizable design and engineering team that are responsible for designing innovative and cost-effective solutions with an aim to increase the performance ratio of solar power projects. All of our design and engineering team is based in Jaipur, Rajasthan, which we believe provides us a cost advantage over our competitors. Our design and engineering team is engaged on our projects from the pre-bid stage through commissioning. At the pre-bid stage, our design and engineering team, evaluate and provide innovative design solutions for each potential solar power project and once we win the bid, they work with our project execution team to implement the designs and overcome challenges through design solutions. We believe that our design and engineering solutions, coupled with robust quality compliance checks, such as factory audits, pre-shipment checks and compliance tests on PV modules have helped us achieve contractually agreed performance ratio for the solar power projects we construct. Our design and engineering team seeks to improve the efficiency of our solutions and services.

5. Cordial relationship between management and labour

Over the years our management has successfully maintained harmonious relations with our workforce. Our management has been able to match the goals and objectives of the company with the goals and expectations of the workforce which enabled the company to achieve its production targets and desired quality of products. Until now, there has been no union of our employees. We have not faced any strikes, lock – outs or any other labour protests in our organization since the inception of our business. Further, the employee attrition in the Company has been very low, including the Covid-19 pandemic period, portraying the affable relationship of the management with the workforce of the Company.

6. Ability to provide EPC as supplemental value addition to our solar PV module manufacturing business

We are primarily a high efficiency solar PV module manufacturing company that have developed a diversified product and service portfolio catering to solar energy solutions, and as a result we are able to provide integrated EPC services. We provide these services primarily for our own manufactured PV modules, as a value-added offering. We have experience in executing EPC projects for solar plants and have a few projects which have been executed or are under execution at various stages of construction. Our dedicated in-house team of designers and engineers manage site survey, planning, basic and detailed design, technical evaluation of

vendors and assess safety requirements. We are focused on providing ongoing technical support across the complete value chain of the project in a cost-effective manner. To manage such a large and diversified portfolio of projects, we aim to update our business processes to reduce project costs, optimize working capital and manage our contractual obligations. We aim to achieve this by leveraging digital capabilities to not only streamline our sourcing and procurement but also financial management of projects.

OUR BUSINESS STRATEGIES

Our focus is on utilizing our core strengths for expanding our operations in existing as well as new markets. Our Company meticulously engineered with a cutting-edge technology and aptly supported by an efficient team of trained personnel who marketed the product in unexplored markets, had soon positioned itself as one of the popular brands in Indian market and paved the way for acquiring bigger share of this competitive market which hitherto was not captivated or dominated by unorganized companies. The increase in renewable energy market has compelled us to explore the market further and create demand. A brief description of the business strategies employed by us is as under:

Continued focus on developing new and innovative products and services

Our strategy is to be a “fast follower” which entails adopting new, promising and proven technologies early. We achieve this through the continued development of innovative products, which will enable us to expand our products portfolio and drive increased product orders going forward. Furthermore, we are constantly pursuing opportunities and product segments which leverage our existing technology platform and know-how. We believe high quality and safety complying products are of much importance for customer retention and repeat – order flow. We intend to have close interaction with our customers to strengthen our relationships with them and enabling us to understand the market perception and demand for our products.

Focus on increasing operational and financial efficiency to achieve lower levelized cost of energy

We plan to continue focusing on operational and financial efficiency by investing in our design and development team and their engineering efforts. We also focus on recruiting, training and retaining a talented workforce and offer training and career opportunities. In addition, we continue to focus on our risk assessment matrix and stay updated with new technology. Through our market approach, we

intend to continue building strong customer and stakeholder relationships and realize operational efficiencies.

Our commitment to the long-term performance of our projects is exemplified by our approach of ensuring that we invest in good quality equipment at the outset, which also leads to a low cost per project over the life-cycle of each project. We continue to enhance our practices by moving from conventional reactive maintenance to predictive maintenance in a variety of other operations, including our dust-detection systems (which we use to determine when our solar PV modules need to be cleaned based on the actual dust accumulation and its impact), thermal imaging (for monitoring the status of our solar PV modules), string combiner box and inverter level monitoring systems and tilt monitoring systems (to calculate the optimal tilt angle for our solar power plants and the date when tilts should be changed based on the actual on-site data). These technologies help our solar PV modules perform with lower downtime and achieve better power generation.

Invest in infrastructure and technology

Our strategy is to focus on markets with conducive solar power policies and high solar resources. We aim to establish a permanent presence in regions that have continuous and large solar opportunities and leverage this regional presence to strategically access local geographies as needed. Therefore, our Company believes in making investments for continuously achieving higher levels of excellence in our products to cater to the diverse specifications of our clients. We have invested in upgrading our machinery and equipment's with modern technology. We seek to continue to work towards the up gradation and modernization of our infrastructure and technology in future as well for sustaining our growth in the subsequent periods.

Grow our customer base and maintain relationships with other key stakeholders

We believe there is a substantial opportunity to grow our customer base in existing and new markets through a combination of our strong track record and market leadership in the regions in which we operate and our relationships with key stakeholders in the solar power industry. We intend to develop this opportunity by continuing to invest in our business development, tendering and marketing functions to optimize our ability to identify, evaluate and win new customers. We also intend to continue building relationships with our existing customers and other key stakeholders, such as engineers, suppliers and consultants. Our strategy is to connect our customers to such key stakeholders and reduce the number of service providers they need to engage with, with an objective to save them time and cost. For this, we intend to continue collaborating with strategic partners and such key stakeholders to position ourselves as a reliable EPC player in the market that customers can depend on for developing their solar power projects. We follow our key customers to new markets and this helps us identify new markets and opportunities early in the process. We intend to leverage our presence and relationships to secure repeat projects with our customers and demonstrate to our customers the time and resource savings that they can generate by re-engaging our services.

Enhance our commitment to society and sustainable business development

We actively pursue environmental, social and governance initiatives as part of our business operations. Our business is environmentally focused, and we strive towards facilitating a cleaner environment and reduced carbon emissions through the use of our solar PV modules, as well as our EPC contracts, for solar power generation, which is an environment friendly method of power generation. Furthermore, our marketing and branding efforts are constantly focused on building climate consciousness amongst our customers.

We also strive to reduce wastage and while expanding our manufacturing capacity, we are developing economies of scale. Our operations and quality management systems are certified under some of the industry's best quality standards including ISO 9001:2015, ISO 45001:2018, ISO 14001:2015, BIS-IS:14286 etc.

MANUFACTURING, INNOVATION AND BUSINESS AREAS

BUSINESS AREAS

Our business operations can be broadly described as follows:

A. Solar PV Module Manufacturing

As one of the solar PV module manufacturers, we produce mono PERC and polycrystalline solar PV modules. We have production facility in Jaipur that is equipped with advanced manufacturing equipments from international equipment suppliers and systems that drive manufacturing excellence in our supply chain, sales and distribution network. The company has the most advanced and fully automatic 200 MW (Rated Installed Capacity) SPV Module manufacturing line that has least manual intervention and has continuous automatic process. Our solar panel manufacturing line embodies the finest automatic machinery under the supervision of our skilled team. The plant is equipped with all test equipment needed for quality assurance of movement of raw material and finished goods conforming to the latest BIS and International standards.

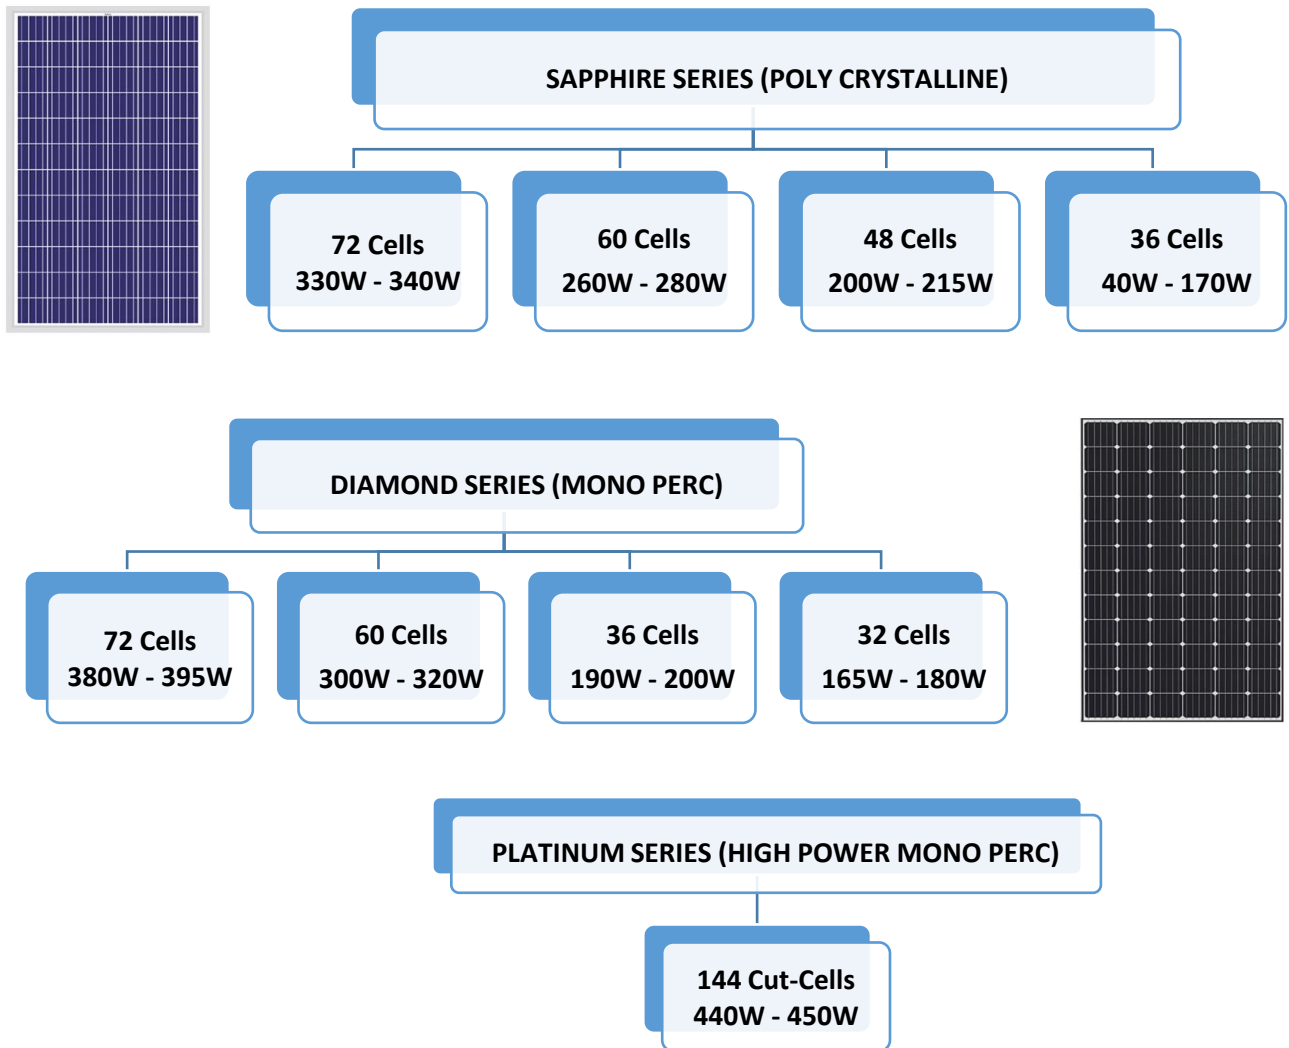

Our solar PV modules are currently manufactured using both polycrystalline and monocrystalline cell technology. Our portfolio of solar energy products consists of the following solar PV modules: (i) polycrystalline modules; and (ii) Monocrystalline Passive Emitter and Rear Cell (Mono PERC) modules, which includes bifacial (glass - to - Transparent back sheet solar PV modules). Our products are differentiated on the basis of solar PV module technology and type as well as cell size and sold across different ranges. In particular, our solar PV modules (including those under testing) have wattages between 340Wp and 450Wp and Efficiencies ranging between 17.45% and 20.35%.

Our manufacturing facilities produce highly efficient solar PV modules, utilizing equipment procured from China and technologies from Europe.

Currently in our product portfolio, the dimensions of solar cells used in the solar PV modules is 157mm x 157mm solar cells, 158.75mm x 158.75mm and 166mm x 166mm. The M6 nomenclature refers to dimensions of the solar cell implies usage of 166mm x 166mm solar cells. Higher dimensions of the solar cells translate to higher solar power performance of the cell and consequently the solar PV modules. Further, we offer following types of Warranty for 30 years for our solar PV modules:

- a) Manufacturing / Workmanship Warranty: 5 Years
- b) Linear Power Performance Warranty: 90% for 10 years and 80% for 25 years

Further, all our M6 solar PV modules are half-cut cell modules with 9 bus bars and all other solar PV modules are with full and half-cut cells with 5 bus bars (Bus bars refers to the metal pathways which facilitate the movement of electrons and higher the bus bars, better would be the power performance of the solar cell). Our solar PV module product portfolio are offered under the INA brands, as illustrated below:

Some of the applications of Solar PV modules are as under:

- On-grid large scale utility systems
- On-grid rooftop residential and commercial system
- Net metering solutions
- Off-grid residential systems
- Solar pumping applications
- Rural electrification
- Green telecom tower
- Solar street light
- Solar home lighting system (HLS)
- Solar Lantern
- Solar traffic signal
- Solar electric vehicle charging station etc.

B. Trading of Solar Power Conditioning Unit (PCU) and Lead Acid Batteries

In 2020, our Company engaged in the trading of Solar Power Conditioning Unit (PCU) and Lead Acid Batteries. These products are procured from vendors domestically. These products are generally sold by the Company as combination sales, with the Solar PV Module as 'Solar Power Generation System' (SPGS). A brief description of the products is given as under:

➤ **Solar Power Conditioning Unit (PCU) (Range - 750VA to 15000VA)**

Solar PCU is amongst the most critical components of any solar energy system. Solar PCU is a Solar Power Conditioning Unit (PCU) which uses solar energy and also the power from the grid, to charge the batteries. It facilitates the conversion of direct current (DC) into alternating current (AC) to produce electricity for usage as well as for storage purpose. In a solar PCU, solar energy is taken as a priority, and the power from the main unit is used only when solar energy is not present. Solar PCUs are designed to achieve maximum benefits from sunlight and hence reduce energy costs. Some applications of Solar PCU are Solar pumping applications, Solar home lighting system (HLS), Solar PCU for Home appliances, Solar-powered home small businesses, Solar-powered small offices and stores, etc.

Salient Feature

- Pure Sine wave Output
- Inbuilt PWM Solar Charge Controller
- Multi color LCD Display
- Solar priority for load and battery charging.
- Compatible with DG as an input source.
- Any fault show on display screen.
- Remote monitoring and controlling through Wi-Fi/LAN/GSM/GPRS

➤ **Tall Tubular Lead Acid Batteries (Range - 40, 75, 100, 160, 180, 200 AH)**

Solar batteries are designed to store energy generated from solar panels during the day. Alternatively, the solar batteries can also be charged through the grid in the absence of solar power. The solar batteries sold by our Company are C10 rated deep cycle batteries. The solar batteries are specially designed as per solar application requirement and our Company offers Tall Tubular Lead Acid Batteries which are the most reliable, successful and widely used across solar applications. Some applications of Solar batteries are Solar Street lights, Solar electric vehicle charging stations, Solar Batteries for Home appliances, Solar-powered home small businesses, Solar-powered small offices and stores, etc.

C. Ground Mounted and Rooftop Solar Business

Our Company has aligned its business by undertaking ground mounted and rooftop solar projects. We have supplied, installed and commissioned 1337.32 Kwp capacity SPV Grid Interactive Power Plants. Our expertise and involvement ranges from concept, engineering, execution and commissioning to

operations and maintenance of completed solar systems. The below images highlight pictures of certain completed rooftop projects:

Rajasthan State domestic Rooftop under RREC scheme 2 MW

We seek to identify MSMEs on the basis of solar rooftop suitability and power consumption, across industries such as, automotive and auto components, cold chain/ warehousing, food processing, plastic, machine tools, pharmaceuticals, leather, foundry, paper, chemicals and textiles. We intend to increase our market share in this segment by marketing our rooftop capabilities to companies in these industries.

D. Engineering Procurement Construction (EPC)

We are a comprehensive EPC solutions provider which is aimed at deploying world class technology to design, install and commission benchmark solar projects. Our skilled and dedicated EPC team ensures the completion of each solar plant from concept to commissioning of the plant. We primarily use our own manufactured solar PV modules in our EPC projects.

INNOVATION, RESEARCH AND DEVELOPMENT

We continue to focus on R&D, in order to develop reliable and updated solar solutions to our customers. Before we enter a new market, our regional development teams prepare market analysis reports and financial models, including key assumptions, to guide us in sourcing, evaluating and executing solar power projects. These market analysis reports include information on the contract structure and related tax aspects, permitting processes, timelines and costs, logistics, local manufacturing, sub-contractor availability, off-taker credibility, visa regulations, results of technical diligence, key project milestones, major market risks and an action plan outlining steps and requirements for pursuing projects in the subject market. We update the market analysis reports quarterly, or more frequently as needed. We also engage law firms and consulting firms to investigate the most viable legal route for entering the market, either through acquisitions or establishing branch offices, validity of regulatory permits, property laws, solar regulations, environmental laws, and tax and incentive policies, with particular focus on any PV or other renewable energy regulatory environment and policies.

CUSTOMER SERVICE

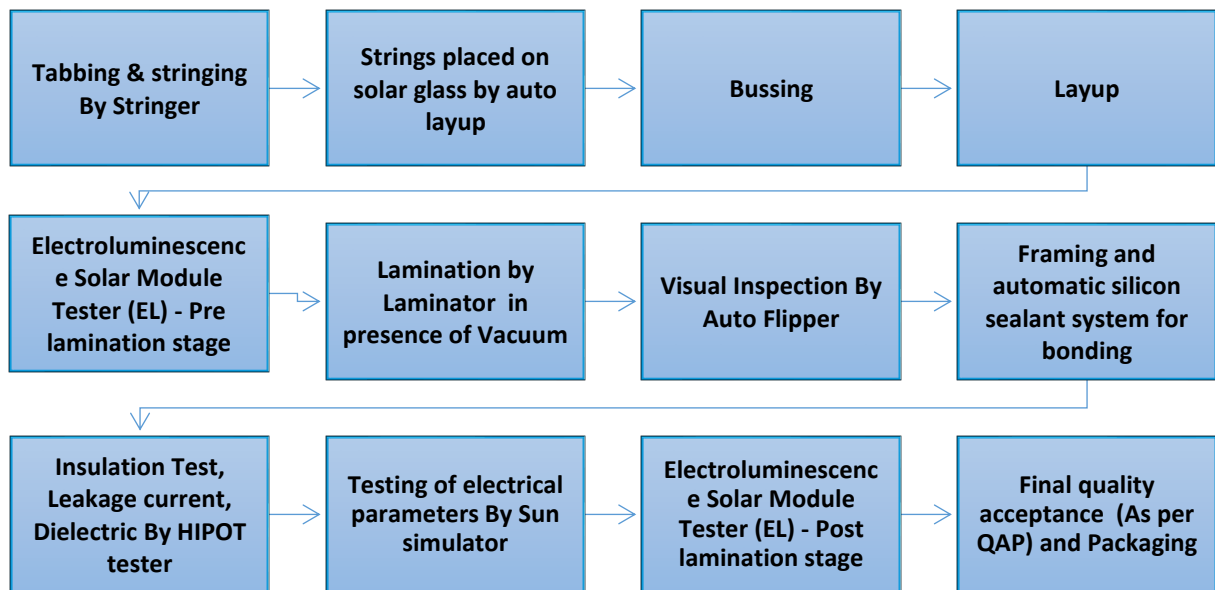

We have a dedicated customer service team in Rajasthan and Uttar Pradesh to resolve issues related to our products and services. Customers may log complaint/query via call center (toll free number), our Portal or email. Our team strives to acknowledge all complaints/queries within 24 working hours and resolve them within seven working days in case of non-technical complaints and 15 working days in case of technical complaints. Further, to enable end-to-end customer requirement mapping we utilize a customer relationship management system which helps us in cultivating relationships, generating leads and manage opportunities through sales pipeline. Our Portal, developed for retail customers and channel partners, aims to provide seamless customer experience to queries related to our solar products. Our portal facilitates customer support by providing requisite contact details and by registering of complaints related to solar PV module performance a one-click activity.

RAW MATERIAL

The raw material used in the manufacture of products are procured from suppliers available either locally or from suppliers available in different regions of India and outside India. Our Company procure raw material from vendors selected after analysis of quotation received from every vendor for each raw material & by-products used in our manufacturing process. Also, our Company believes in selecting vendors who are highly established in market since years because they have experience in manufacturing such material. Additionally, the quality of the raw material is also verified before making the order of the material to make sure that the superior quality of material should be used in manufacturing of our product. Some of the major raw materials used are given as under:

S. No.	Type of Raw Material	Procurement (Imported / Indigenous)
1.	Solar Cell	Imported / Indigenous
2.	EVA Sheets	Indigenous
3.	Solar Toughened Glass	Imported / Indigenous
4.	Back-sheet	Indigenous
5.	Aluminium Frame	Imported / Indigenous
6.	PV Ribbon/ Busbar Ribbon/ Interconnect Ribbon	Imported / Indigenous
7.	Junction Box	Indigenous
8.	Silicone Sealant	Imported / Indigenous

MANUFACTURING PROCESS

Tabbing and Stringing by Stringer

Tabber and Stringer equipment is used for connecting the solar cells in series with the help of solar interconnect ribbon & no clean soldering flux. This machine helps in:

- finding the rejected incoming cells, check by CCD camera,
- producing strings and check them by CCD camera, acceptable strings are processed and rejected strings are kept in NG bin,
- checks the inline continuity for test through proper connection.

In this process, we randomly test in a frequency peel strength and cells testing in tester.

Strings placed on solar glass by auto layup

Automatic strings are placed on solar glass, as per the requirement of polarity position. This equipment helps to avoid any manual intervention which further avoids the micro cracks.

Bussing and Layup

This process connects all the strings (rows) in series or parallel connect as per the required system for getting the essential voltage and current. Generally, module makes 36 cells in 12 V for System voltage 1000VDC, 60 and 72 full cells, 144 half-cut cells in 24 V system for 1500 VDC system Voltage. Bussing process is done with the help of 5x0.300 / 5x0.4 mm Sn/Pb 60/40 Bus bar ribbon, no clean and solder wire.

Electroluminescence Solar Module Tester (EL) - Pre lamination stage

The name of this test is Electroluminescence Test and assures quality analysis of new or worn photovoltaic modules. A special machine called electroluminescence (EL) tester can recognize cell internal micro cracks / breakage, surface cracks and fissures of a few tenths of a millimeter in real time. The transmission height is 960mm, short come and short go, 6 camera 2400w, light down.

Lamination by Laminator in presence of Vacuum

Laminating is the process through which two or more flexible packaging webs are joined together using a bonding agent. This process has two major steps: Vacuum and Curing & Temp. This is called cycle time. It decides after confirm Gel content test. Cross linking of polymers. Ultra-fast cure high light transmission EVA is used

Visual Inspection by Auto Flipper

Auto inline Visual inspection Equipment shows 90-degree laminated module, in presence of light. Quality criteria and category is decided as per the QC inspection criteria. This also helps to avoid offline activity and prevent micro crack.

Framing and automatic silicon sealant system for bonding

We use Anodized Aluminum frame, and framing is done using Tape/Sealant for better strength of Module and to prevent moisture. This also helps in preventing Module from Snow and wind. Module is tested at 2400 Pa and 5400 Pa mechanical load.

Thereafter, the cover is cut at back sheet with sealant and used with junction Box to take power output Terminal.

Insulation Test, Leakage current, Dielectric by HIPOT tester

After framing, inline/offline HIPOT test is conducted for confirming Insulation Test and Dielectric & Leakage Current.

HIPOT Tester is used for conducting this test. Wet leakage test is also done by HIPOT tester.

All tests are conducted as per IEC standards sample selection as per AQL standards.

Testing of electrical parameters by Sun Simulator

A+A+A+ Sun Simulator Flasher is used for checking all electrical parameters at STC. Calibration is done in every shift with Gold Module. Thereafter, 100% modules are checked with silver reference panel Calibrations.

This equipment helps us extract Electrical report (I-V) curve of each Module at STC along with different irradiance

Electroluminescence Solar Module Tester (EL) - Post lamination stage

Electroluminescence Test assures quality analysis of new or worn photovoltaic modules. Electroluminescence (EL) tester can recognize cell breakage, surface cracks and fissures of a few tenths of a millimeter in real time. The transmission height 960mm, short come and short go, 4 camera 2400w, Light down.

Microcracks are generated during manufacturing, thus 100% Modules undergo test by EL tester, so that microcrack defect free Modules can be dispatched to the customers.

Final quality acceptance (As per QAP) and Packaging

As per industry standards for visual inspection, EL inspection as packaging as per customer requirements.

CAPACITY UTILIZATION

The following table sets forth certain information relating to our capacity installed of our manufacturing facilities for solar PV modules for the relevant fiscal period and actual production in such periods:

S. No.	Financial Year	Location	Name of the Product	Unit	Rated Installed Capacity	Effective Installed Capacity	Capacity Utilized*	Capacity Utilized (%)
1	2019-20	Daulatpura	Solar PV Module	MW	80	60	43.86	73.10%
2	2020-21	Daulatpura	Solar PV Module	MW	200	100 <i>(Capacity was increased by 40MW from 22nd December, 2021)</i>	60.31	82.24%
3	2021-22	Daulatpura	Solar PV Module	MW	200	100	83.58	83.58%

Note:

1. The Company's Current Rated Capacity (200 MW) has been considered based on 100% operational effectiveness and 365 working days.
2. Effective Installed Capacity is calculated on the basis of various dimensions, performance and quality of module manufactured.
3. The capacity utilization has been calculated as a percentage (%) on the basis of actual production during any fiscal year divided by effective installed capacity.

Pursuant to Chartered Engineer certificate issued by Mr. Ravi Vindal, Chartered Engineer (CE:2A) dated June 24, 2022.

UTILITIES AND INFRASTRUCTURE FACILITIES

POWER

Our Company requires power for the requirement of the office for lighting, systems, equipments and machines for running etc. Adequate power is available which is met through the electric supply by respective area electricity Board and our Company has also installed a 320 KW solar plant in the Daulatpura factory premises. Further, two DG sets of 320 KVA and 125 KVA have been installed for power backup.

WATER

Water is required only for drinking and sanitary purposes and adequate water sources are available at the existing premises. Company has also installed a Sewage Treatment Plant at the factory for reuse of waste water.

QUALITY CONTROL AND CONSUMER HEALTH AND SAFETY

For selecting solar equipment, such as modules and inverters, for our operations, we follow a defined quality management procedure. The procedure includes a pre-selection stage, where we conduct a thorough diligence of the available suppliers in the market. We typically engage suppliers who fulfill our basic selection criteria. We then engage in a supplier validation process through which we conduct a factory audit of the supplier. As part of the internal factory audit, we evaluate the supplier's key processes and procedures, provide training to their engineers and works and review their daily records. We also engage in production validation procedures which involve inspecting raw materials, evaluating their manufacturing process and conduct equipment safety checks. We then engage in an operating performance evaluation of the equipment through pre-shipping inspections and external lab tests.

Some tests performed are as under:

- **Electroluminescence Testing:** When current passes through PV cells, light emission occurs. This phenomenon is called electroluminescence. Testing of solar PV modules using this phenomenon can detect hidden defects in the structure of PV cells. This method makes the current distribution visible in the PV module and helps detect defects. With the help of an electroluminescence test, a PV manufacturer can evaluate the structural quality of the PV cells or any other defects generated while handling.
- **Thermal Cycling Test:** to determine the ability of the solar PV modules to withstand thermal mismatch, fatigue and other stresses caused by repeated changes of temperature;
- **Humidity Freeze Test:** to determine the ability of the modules to withstand the effects of high temperature and humidity followed by sub-zero temperature;
- **Potential Induced Degradation Test:** to check whether the solar PV module is resistant to degradation, the solar PV modules are kept at a temperature of 85°C and 85% humidity for 96 hours;
- **Light Induced Degradation:** to make a preliminary assessment of the ability of the solar PV module to withstand exposure to outdoor conditions and to reveal any synergistic degradation effects which may not be detected by laboratory tests;
- **Mechanical Load Test:** to determine the ability of the solar PV module to withstand wind, snow, static or ice loads; and
- **Damp Heat Test:** to determine the ability of the solar PV modules to withstand the effects of long-term penetration of humidity.
- **Pressure Cooker Test (PCT):** To evaluate the solar PV modules for its thermal resistance in reflow, and crack in resin caused by heat application during the reflow can be detected within short period of time.

- **Adhesion / Gel Test / Peel Strength:** To measures adhesion of EVA to substrate, ensure peel separation strength and to identify the longevity and durability of a solar module throughout its operational lifetime and long-term performance

CUSTOMERS AND SUPPLIERS

CUSTOMERS

We offer a complete range of customized solutions for solar power projects. We adopt a consultative approach to our customers' solar energy needs and capabilities, which enables us to provide customized solutions to meet their economic goals. Our customers benefit from our supply chain and our relationships with suppliers helps us execute projects for our customers efficiently and economically. In addition, by providing this service to our customers we are able to strengthen our customer relationships and thus our competitive position. We often receive repeat orders from our customers.

The following is the breakup of top five and top ten customers of our Company as on March 31, 2022 are as below:

(Amt. in Lakhs)

Particulars	Customers	
	Amount	Percentage
Top 5	13,983.20	64.94%
Top 10	16,938.52	79.01%

SUPPLIERS

We have relationships with a diversified group of suppliers globally, which helps us source raw materials such as solar cells, toughened glass, EVA sheets, back-sheets, aluminium frame, PCUs / inverters, batteries and other solar equipment at competitive costs, while maintaining quality, which we believe gives us a competitive advantage as competition is largely from regional players. However, we also source vendors locally, whenever feasible, and procure certain raw materials from local suppliers, where there is a cost advantage or to comply with local regulations. While identifying

suitable suppliers, we are generally guided by a purchase requisition list provided by the procurement manager that specifies the materials required, technical specifications and quality plans for the raw materials.

The following is the breakup of top five and top ten suppliers of our Company as on March 31, 2022 are as below:

(Amt. in Lakhs)

SALES AND MARKETING SETUP

Marketing is an important function of any organization and our company is no exception to it. We are doing market all over India. We have developed a marketing network across various states in the country majorly focusing on government agencies and public sector undertakings. Our success lies in the strength of our relationship with our customers who have been associated with us for a long period. Our sales and marketing team is headed by our management which keeps itself updated on the customer preference and changes in their requirements from time to time. Our management, through their vast experience and good connections with the clients and owing to timely delivery of quality and safe products plays an instrumental role in creating and expanding the work platform for our company.

Looking into this aspect, our marketing strategy is framed in the following way:

- Focus on existing markets and tender bidding for Government.
- Continuously holding markets Trends.
- Supply of Quality Products.
- Fulfillment of Order Quantity

We also have an effective feedback procedure in place for our clients regarding our products which help us in improving and maintaining the efficiency of our products and achieving desired level of customer satisfaction.

EXPORT AND EXPORT OBLIGATIONS

Currently, our Company avails benefits under certain export promotion schemes, namely, Export Promotion Capital Goods (“EPCG”) licenses. As per the licensing requirements under the said scheme, we are bound by certain export obligations which require us to export goods of a defined amount, failing which, we may have to pay the Government, a sum equivalent to the duty benefit enjoyed by us under the said schemes along with interest, amounting to Rs. 89.78 Lakhs and Rs. 14.87 Lakhs. As on the date of filing this Prospectus, our pending obligations against EPCG License is USD 782,937.57 and USD 137,484.12, which will be adjusted at the time of the consequent exports as per the required timelines.

For details of the EPCG licenses, amount of duty saved, details of block-wise export obligation, validity of EO period, etc., please refer **“Risk Factor 4 - We currently avail benefits under certain export promotion schemes. Any failure in meeting the obligations under such schemes, may result in adversely affecting our business operations and our financial condition”** and **“Government and Statutory Approvals”** on page 37 and 345 of this Prospectus.

COMPETITION

Renewable energy is a global industry and consequently we face intense competition from various domestic and international manufacturers. Competition emerges not only from organized sector and from both small and big regional and national players. In adverse and competitive market scenario also, we are able to maintain our growth steadily due to our planned structure of operational policies. The company has accumulated extensive experience of executing contracts and our experience in this business has enabled us to provide quality services in response to customer 's demand for best quality of services in timely manner

We believe the principal elements of competition in our industry are quality, technical ability, performance record, sustainable relationship with existing clients and vendors, use of technically upgraded plant and machinery, timely delivery and reliability. We compete against our competitors by establishing ourselves as knowledge-based production unit with industry expertise in the segment which enables us to provide our clients with quality products. However, price is the deciding factor in most cases.

HUMAN RESOURCES

We believe that our employees are key contributors to our business success. We focus on attracting and retaining the best possible talent. Our company looks for specific skill-sets, interests and background that would be an asset for our business.

As on March 31, 2022, we had 116 employees which include Accounts & Finance, Compliance, Maintenance, Marketing & Logistics, Production & Operations, Quality, Top Level Management, permanent labour and sub-contracting labour. We seek to maintain a culture of innovation by empowering our employees at all levels of our organization. Our success depends upon our ability to attract, develop, motivate and retain highly-skilled and multi-dimensional team members. Our people management strategy is based on four key components: recruiting, training and development, compensation and retention.

Function	Number of Permanent Employees
Accounts & Finance	6
Human Resource	3
Legal and Compliance	1

Further, we have not experienced any strikes, work stoppages, labor disputes or actions by or with our employees, and we have cordial relationship with our employees.

ENVIRONMENT SOCIAL AND CORPORATE GOVERNANCE INITIATIVES

We are subject to extensive, evolving and increasingly stringent occupational safety, health and environmental laws and regulations governing our operations. Our safety, health and environmental practices are robust and are continuously updated to adapt to the safety, health and environmental practices, rules and regulations of the geography we operate in. We conduct external tests of our safety mechanisms every year to comply with the requirements of the Occupational Health & Safety Management Standard (ISO 45001:2018) and Environmental Management Standard (ISO 14001:2015).

We have a corporate social responsibility committee that guides us in integrating our social and environmental objectives with our business strategies. Through our CSR initiatives, we aim to promote education among the underprivileged and take initiatives to aid health and culture. A few key CSR activities undertaken by the Company were as follows:

- 1) Contributed towards the CSR by promoting preventive health care and sanitation by Construction of toilets in Smt. Gauran Devi Chaudhary Govt. Senior Secondary School, Bagwara for females along with repairs of Water coolers (RO) and erection of furniture for Library.
- 2) Sweaters were distributed to the students of Smt. Gauran Devi Chaudhary Govt. Senior Secondary School, Bagwara in winters to overcome the hardships faced during winters of not having suitable clothing.
- 3) Donated a UPS Battery and inverter in Smt. Gauran Devi Chaudhary Govt. Senior Secondary School, Bagwara and UPS Battery, inverter and a computer system in Raj. Aadarsh Pradmik Swasthya Kendra, Bagwara so as to ensure the availability of electricity in the hospital and school since both are located in a remote area and face heavy power cuts.
- 4) Donated coolers, almirahs, fans, computer system, bedsheets and solar power generating system in Rajasthan Aadarsh Pradmik Swasthya Kendra, Bagwara.
- 5) Donated amount to Jagriti Pramod Satyagrah Foundation (JPSF) for construction and running of "Vedanta Public School" which is being established as a unit of JPSF in the backward district of West Champaran in the State of Bihar.
- 6) Donated to Balajee Charitable Trust.

KEY REGULATIONS AND POLICIES

The following description is a summary of the relevant regulations and policies as prescribed by the Government of India and other regulatory bodies that are applicable to our business. The information detailed in this chapter has been obtained from various legislations, including rules and regulations promulgated by the regulatory bodies that are available in the public domain. The regulations and policies set out below may not be exhaustive and are only intended to provide general information to the investors and are neither designed nor intended to be a substitute for professional legal advice. The Company may be required to obtain licenses and approvals depending upon the prevailing laws and regulations as applicable. For details of such approvals, please see the section titled “Government and Statutory Approvals” on page 350 of this Prospectus.

A. LAWS RELATED TO OUR BUSINESS

The Electricity Act, 2003 (“Electricity Act”)

The Electricity Act is a central legislation and provides for, *inter alia*, generation, transmission, distribution, trading and use of electricity. Under the Electricity Act, the transmission, distribution, and trade of electricity are regulated activities which require licenses from the Central Electricity Regulatory Commission (“CERC”), the State Electricity Regulatory Commissions (“SERCs”) or a joint commission (constituted by an agreement entered into between two or more state governments or the central government in relation to one or more state governments, as the case may be). Under the Electricity Act, the appropriate commission, guided by, *inter alia*, the methodologies specified by the CERC with the aim of promotion of co-generation and generation of electricity from renewable sources of energy, shall specify the terms and conditions for the determination of tariff. The Electricity Act requires the GOI to prepare the national electricity policy and tariff policy, from time to time, in consultation with the state governments and Central Electricity Authority. The Draft Electricity (Amendment) Bill, 2020 (“Draft EAA”) was proposed by the Ministry of Power in April 2020 which seeks to amend certain provisions of the Electricity Act. Among others, the amendment proposes the establishment of the Electricity Contract Enforcement Authority (“ECEA”) to adjudicate on matters pertaining to performance of contracts regarding the sale, purchase, or transmission of electricity between a generation company and other licensees. Further, Draft EAA empowers the GoI to formulate a national renewable energy policy in consultation with state governments, whereby the GoI may prescribe a minimum percentage of purchase of electricity from renewable sources of energy.

Draft National Renewable Energy Law

MNRE released the draft National Renewable Energy Act, 2015 on July 17, 2015. The draft Act provides for a framework to facilitate and promote the use of renewable energy. It aims to address issues that are not adequately covered under the Electricity Act, 2003, as amended (“Electricity Act”) or its amendments with respect to renewable energy such as the principles of grid planning and operation and the concept of national targets and its compliance by utilities. It proposes provisions for facilitating generation of renewable energy through sound institutional structure, supportive eco-system, viable economic and financial framework and promotion of renewable energy applications including distributed and grid connected renewable electricity. Among other things, the Act proposes to empower the GoI and State Governments to establish national renewable energy funds and state green funds respectively, in order to meet the expenses of implementing the national renewable energy policy and national renewable energy plan.

Electricity (Promoting Renewable Energy Through Green Energy Open Access) Rules, 2022

The Central Government has recently, on June 06, 2022, notified Electricity (Promoting Renewable Energy Through Green Energy Open Access) Rules, 2022 for promoting generation, purchase and consumption of green energy including the energy from Waste-to-Energy. These Rules shall be applicable for generation, purchase and consumption of green energy including the energy from Waste-to-Energy plant. As per these Rules, there shall be a uniform renewable purchase obligation, on all obligated entities in area of a distribution licensee. Any entity, whether obligated or not may elect to generate, purchase and consume renewable energy as per their requirements by any of the methods prescribed under the Rules. These Rules also provide for green energy open access and tariff for green energy which shall be determined by the appropriate commission.

Central Electricity Regulatory Commission (Terms and Conditions for Tariff Determination from Renewable Energy Sources) Regulations, 2017 (“Tariff Regulations”)

The Central Electricity Regulatory Commission has announced the Tariff Regulations, which prescribes the criteria that may be taken into consideration by the relevant electricity regulatory commissions while determining the tariff for the sale of electricity generated from renewable energy sources which include, inter alia, return on equity, interest on loan and working capital, operations and maintenance expenses, cost of capital and depreciation. Pursuant to the National Tariff Policy, the CERC is required to determine the rate of return on equity which may be adopted by the relevant electricity regulatory commissions to determine the generic tariff, keeping in view the overall risk and prevalent cost of capital, which factors are also to be taken into consideration by relevant electricity regulatory commissions while determining the tariff rate. The Tariff Regulations prescribe that the normative return on equity will be 14%, to be grossed up by the prevailing Minimum Alternate Tax (“MAT”) as on April 1st of the previous year for the entire useful life of the project.

The Tariff Regulations also provide the mechanism for sharing of carbon credits from approved clean development mechanism projects between renewable energy generating companies and the concerned beneficiaries.

Under the Tariff Regulations, the project developer is entitled to retain 100% of the gross proceeds on account of clean development mechanism project benefit in the first year after the date of commercial operation of the generating station. Subsequently, in the second year, the share of the beneficiaries will then be progressively increased by 10% every year until it reaches 50% after which the clean development mechanism project proceeds are to be shared equally between the generating company and the beneficiaries.

Approved Models and Manufacturers of Solar Photovoltaic Modules (Requirement for Compulsory Registration) Order, 2019 (“ALMM Order”)

To ensure the quality of solar cells, solar modules, used in solar PV power plants, the Ministry of New and renewable Energy (“MNRE”) issued the ALMM Order on January 2, 2019. The ALMM Order provides that the government will enlist eligible models and manufacturers of solar PV power plants complying with the applicable BIS standard, and publish a list titled the “Approved List of models and manufacturers” (“ALMM”). Only the models and manufacturers included in the ALMM would be eligible for use in government / government assisted projects under government schemes and programmes installed in the country, including the projects set-up for sale of electricity to the government under the “Guidelines for Tariff Based Competitive Bidding Process for Procurement of Power from Grid Connected Solar PV Power Projects” dated August 3, 2017 and the amendments thereof (collectively, the “Applicable Projects”). The ALMM will consist of List I, specifying models and

manufacturers of solar PV modules and List II specifying models and manufacturers of solar PV cells. Further with respect to the Applicable Projects, solar PV module manufacturers from List I would have to mandatorily source PV solar cells only from manufacturers in List II. For being eligible to be included in List- I, the manufacturers are required to obtain a BIS certification in accordance with the Compulsory Registration Order. Manufacturers are required to make an application to the MNRE for registration, and if enlisted, such enlistment shall be valid for a two-year period and can be renewed by submitting necessary documents and satisfactory performance of products. Prior to inclusion in the ALMM, a team of MNRE will inspect the manufacturing facility of the applicant. Enlisted models and manufacturers will be subjected to random quality tests and failure or non-compliance will lead to removal from ALMM. The ALMM Order will not apply to projects for which bids have been finalised before the issuance of the ALMM Order. Thereafter, the MNRE has also issued the Guidelines for enlistment under the ALMM Order on March 28, 2019 which provides a procedural framework for the implementation of the ALMM Order.

Bureau of Indian Standards Act, 2016 (the “BIS Act”) and the Solar Photovoltaics, Systems, Devices and Components Goods (Requirements for Compulsory Registration) Order, 2017 (“Compulsory Registration Order”)

The Bureau of Indian Standards Act, 2016 provides for the establishment of bureau for the standardisation, marking and quality certification of goods. Functions of the bureau include, inter alia, (a) recognizing as an Indian standard, any standard established for any article or process by any other institution in India or elsewhere; (b) specifying a standard mark which shall be of such design and contain such particulars as may be prescribed to represent a particular Indian standard; and (c) conducting such inspection and taking such samples of any material or substance as may be necessary to see whether any article or process in relation to which the standard mark has been used conforms to the Indian Standard or whether the standard mark has been improperly used in relation to any article or process with or without a license. A person may apply to the bureau for grant of license or certificate of conformity, if the articles, goods, process, system or service confirms to an Indian Standard.

The Compulsory Registration Order issued by MNRE was published on August 30, 2017 and was scheduled to come into effect on the expiry of one year from the date of such publication. In terms of the Compulsory Registration Order, any manufacturer who, inter alia, manufactures, stores for sale, sells or distributes; (a) utility interconnected photovoltaic inverters, (b) power converters for use in PV power system, (c) PV modules (wafer and thin film) (d) thin film terrestrial PV modules; and (e) crystalline silicon terrestrial PV modules (collectively the “Goods”) would require registration from the Bureau of Indian Standards for use of the Standard Mark as specified in the Schedule of the Compulsory Registration Order. The Compulsory Registration Order seeks to prohibit the manufacture or storage for sale, import, or distribution of the Goods which do not conform to the standard specified under the Compulsory Registration Order. However, pursuant to the notifications of MNRE dated April 16, 2018 and October 12, 2018, considering the time taken for tests and the framing of the guidelines for such tests, manufacturers of SPV modules and inverters were permitted in the interim to continue operations

by submitting a self-certification that their products conform to the relevant Indian standards or their IEC counterparts along with proof of submission of samples to laboratories with the expected date of completion of testing. With respect to SPV modules ((c), (d) and (e) above), the timeline for submission of such self-certification together with samples for a test lab recognised by BIS pending results was January 1, 2019. However, pursuant to a subsequent notification dated January 4, 2019 of the MNRE, manufacturers of inverters ((a) and (b) above) have been permitted to continue operations by only submitting self-certification by June 30, 2019 without submission of samples to test labs till the series

guidelines for submission of samples was under preparation, provided that the manufacturers have valid IEC corresponding to the Indian Standard.

The Jawaharlal Nehru National Solar Mission

The National Solar Mission (the “NSM”) was approved by the Government of India on November 19, 2009 and launched on January 11, 2010. The immediate aim of the NSM was to focus on setting up an enabling environment for solar technology penetration in the country both at a centralized and decentralized level. The NSM has set a target of 100 GW of solar power in India by 2022 and seeks to implement and achieve the target in three phases (Phase I from 2012 to 2013, Phase II from 2013 to 2017 and Phase III from 2017 to 2022). The target will principally comprise 40 GW rooftop solar power projects and 60 GW large and medium scale grid connected solar power projects. In addition, the Government of India on March 22, 2017 sanctioned the implementation of a scheme to enhance the capacity of solar parks from 20,000 MW to 40,000 MW for setting up at least 50 solar parks each with a capacity of 500 MW and above by 2019 or 2020.

Pradhan Mantri Kisan Urja Suraksha evam Utthaan Mahabhiyan Scheme 2019 (“PM-KUSUM”)

The PM-KUSUM scheme was implemented by the MNRE in 2019 with three components: (i) For setting up of 10,000 MW of decentralised grid connected renewable energy power plants on barren land. Under this component, renewable energy-based power plants (“REPP”) of capacity 500 KW to 2 MW will be set up by individual farmers / group of farmers / cooperatives / panchayats / farmer producer organisations (“FPO”) / water user associations (“WUA”) on barren land. The power generated will be purchased by state electricity distribution companies (“DISCOMs”) at pre-fixed tariff; (ii) For installation of 1.75 million standalone solar agriculture pumps. Individual farmers will be supported to install standalone solar agriculture pumps of capacity up to 7.5 HP for replacement of existing diesel agriculture pumps / irrigation systems in off- grid area, where grid supply is not available; and (iii) For solarisation of 10 lakh grid connected agriculture pumps. Under this component, individual farmers having grid connected agriculture pumps will be supported to solarise pumps. The farmers will be able to use the generated solar power to meet their irrigation needs and excess power will be sold to DISCOMs at pre-fixed tariff.

The scope of this scheme was expanded in 2021, with 20 lakh farmers to now be provided with assistance to install standalone solar pumps, and another 15 lakh farmers to be assisted with solarising their grid-connected pump sets. The scheme aims to add solar and other renewable energy capacity of 25,750 MW by 2022.

Grid Connected Solar Rooftop Programme

The aim of this initiative is to achieve a cumulative capacity of 40,000 MW from the rooftop solar projects by 2022. Phase-II of the Grid Connected Solar Rooftop Programme was approved by the Cabinet Committee on Economic Affairs (“CCEA”) and provides for central financial assistance for residential rooftop solar installations upto 40% for rooftop systems up to a capacity of 3 kW and 20% for those with a capacity of 3-10 kW. The Phase- II also focuses on increasing the incentives for DISCOMs based on achievement of certain installed capacity.

Production linked incentive scheme (“PLI Scheme”)

The aim of the PLI scheme is to boost domestic manufacturing and cut down on import bills. The PLI scheme provides companies incentives on incremental sales from products manufactured in domestic units. Along with inviting foreign companies to set up shops in India, the PLI scheme also aims to

encourage local companies to set up or expand existing manufacturing units. The PLI scheme was initially rolled out for mobile and allied equipment, pharmaceutical ingredients, and medical devices manufacturing. The government aims to expand the ambit of the PLI scheme to include as many as ten more sectors, such as food processing and textiles. In the union budget 2021-22, the government has introduced provisions for renewable energy sector. The government has committed nearly 1.97 lakh crores, over a period of five years starting financial year 2021-22 for, inter alia, high efficiency solar PV modules. The PLI scheme will also incentivise new gigawatt (GW) scale solar PV manufacturing facilities in India.

Public Procurement (Preference to Make in India) Order for Renewable Energy Sector, 2017 (“Make in India Renewable Energy Order”)

Pursuant to the Public Procurement (Preference to Make in India) Order, 2017 dated June 15, 2017 issued by the DIPP (“**Make in India Order**”) to promote the manufacture and production of goods and services in India, the MNRE has issued the Make in India Renewable Energy Order, directing all departments / attached offices / subordinate offices of the MNRE or autonomous bodies controlled by the GoI or government companies (as defined under the Companies Act) to adhere to the Make in India Order with respect to all of their procurements.

For grid connected solar power projects, apart from civil construction, central ministries, departments, and central public sector undertakings, are required to give preference to domestically manufactured components, with solar modules required to be 100% locally manufactured and other components such as invertors required to be at least 40% locally manufactured. With respect to off grid / decentralised solar power, the requirement of local content in solar streetlights, solar home lighting systems, solar power packs / micro grid, solar water pumps, inverters, batteries, and any other solar PV balance of system is at least 70%.

State solar policies

Our Company’s operations are also subject to the solar policies framed in the states in which the solar power projects are implemented, and we supply our products to such projects. Such policies typically provide a framework for the governance of the solar power industry and projects, procedures for undertaking of bids, terms of the renewable purchase obligations, connectivity to grid lines and the measures to be taken to promote the development of solar power in the state, including incentives to manufacturer such as grants of concessions on certain taxes, research and development initiatives.

B. STATUTORY AND COMMERCIAL LAWS

The Companies Act, 2013 & Companies Act, 1956

The Companies Act, 2013, has replaced the Companies Act, 1956 in a phased manner. The Companies Act, 2013 received the assent of President of India on 29th August 2013. At present, almost all the provisions of this law have been made effective except few to which extend the Companies Act, 1956 is still applicable. The Ministry of Corporate Affairs has also issued rules complementary to the Companies Act, 2013 establishing the procedure to be followed by companies in order to comply with the substantive provisions of the Companies Act, 2013. The Companies Act primarily regulates the formation, financing, functioning and winding up of companies. The Companies Act, 2013 prescribes regulatory mechanism regarding all relevant aspects including organizational, financial and managerial aspects of companies.

Indian Contract Act, 1872

The Indian Contract Act, 1872 (“**Contract Act**”) codifies the way in which a contract is entered, executed and implemented and implications of breach of a contract. The Contract Act consists of limiting factors subject to which contract may be entered into, executed and breach enforced, as amended from time to time. It determines the circumstances in which promise made by the parties to a contract shall be legally binding on them. Each contract creates some right and duties upon the contracting parties. The Contract Act deals with the enforcement of these rights and duties upon the parties. The Contract Act also lays down provisions of indemnity, guarantee, bailment and agency. Provisions relating to sale of goods and partnership which were originally in the Act are now subject matter of separate enactments viz., the Sale of Goods Act, 1930 and the Indian Partnership Act 1932. The objective of the Contract Act is to ensure that the rights and obligations arising out of a contract are honoured and that legal remedies are made available to those who are affected.

Competition Act, 2002

The Competition Act, 2002 (“**Competition Act**”) prohibits anti-competitive agreements, abuse of dominant positions by enterprises and regulates “combinations” in India. The Competition Act also established the Competition Commission of India (“**CCI**”) as the authority under the Competition Act. The provisions of the Competition Act relating to combinations were notified recently on 4th March, 2011 and came into effect on 1st June, 2011. Combinations which are likely to cause an appreciable adverse effect on competition in a relevant market in India are void under the Competition Act. A combination is defined under Section 5 of the Competition Act as an acquisition, merger or amalgamation of enterprise(s) that meets certain asset or turnover thresholds. There are also different thresholds for those categorized as individuals and group. The CCI may enquire into all combinations, even if taking place outside India, or between parties outside India, if such combination is likely to have an appreciable adverse effect on competition in India. Effective from 1st June, 2011, all combinations have to be notified to the CCI within thirty (30) days of the execution of any agreement or other document for any acquisition of assets, shares, voting rights or control of an enterprise under Section 5(a) and Section 5(b) of the Competition Act (including any binding document conveying an agreement or decision to acquire control, shares, voting rights or assets of an enterprise); or the board of directors of a company (or an equivalent authority in case of other entities) approving a proposal for a merger or amalgamation under Section 5(c) of the Competition Act. The obligation to notify a combination to the CCI falls upon the acquirer in case of an acquisition, and on all parties to the combination jointly in case of a merger or amalgamation.

Consumer Protection Act, 2019

The Consumer Protection Act, 2019 (“**Consumer Act**”), has repealed Consumer Protection Act, 1986 and provides for the protection of interest of the consumers and the settlement of disputes raised by the consumers. The provisions of the Consumer Protection Act, 2019 have been made effective vide notification no. F. No. J-9/1/2020-CPU dated July 23, 2020 and notification no. F.No. J-9/1/2020-CPU dated July 15, 2020 as issued by the Central Government. The Consumer Act sets out a mechanism for consumers to file complaints against, *inter alia*, service providers in cases of deficiencies in services, unfair or restrictive trade practices and excessive pricing. A three-tier consumer grievance redressal mechanism has been implemented pursuant to the Consumer Act, at the national, state and district levels. Further, the Consumer Act established a Central Consumer Protection Authority to promote, enforce and protect the rights of consumers. If the allegations specified in a complaint about the services provided are proved, the service provider can be directed to *inter alia* remove the deficiencies in the services in question, return to the complainant the charges paid by the complainant and pay compensation, including punitive damages, for any loss or injury suffered by the consumer. Non-

compliance with the orders of the authorities may attract criminal penalties in the form of fines and/or imprisonment.

C. LAWS RELATING TO LABOUR AND EMPLOYMENT

Employees State Insurance Act, 1948

Employees State Insurance Act, 1948 (“**ESI Act**”) as amended, provides for certain benefits to employees in case of sickness, maternity and employment injury. All employees in establishments covered by the ESI Act are required to be insured, with an obligation imposed on the employer to make certain contributions in relation thereto. In addition, the employer is also required to register itself under the ESI Act and maintain prescribed records and registers.

Employees Provident Fund and Miscellaneous Provisions Act, 1952 and the schemes formulated there under

This Employees Provident Fund and Miscellaneous Provisions Act, 1952 (“**EPF Act**”) provides for the institution of provident funds, family pension funds and deposit linked insurance fund for the employees in the factories and other establishments. Accordingly, the following schemes are formulated for the benefit of such employees:

- (i) **The Employees Provident Fund Scheme, 1952:** As per this scheme, a provident fund is constituted and both the employees and employer contribute to the fund at the rate of 12% (or 10% in certain cases) of the basic wages, dearness allowance and retaining allowance, if any, payable to employees per month.
- (ii) **The Employees’ Pension Scheme, 1995:** Employees’ Pension Scheme is a pension scheme for survivors, old aged and disabled persons. This scheme derives its financial resource by partial diversion from the provident fund contribution, the rate being 8.33%. Thus, a part of contribution representing 8.33% of the employee’s pay shall be remitted by the employer to the employees’ pension fund within fifteen (15) days of the close of every month by a separate bank draft or cheque on account of the employees’ pension fund contribution in such manner as may be specified in this behalf by the appropriate authority constituted under the EPF Act.
- (iii) **The Employees Deposit Linked Insurance Scheme, 1976:** As per this scheme, the contribution by the employer shall be remitted by him together with administrative charges at such rate as the Central Government may fix from time to time under Section 6C (4) of the EPF Act, to the insurance fund within fifteen (15) days of the close of every month by a separate bank draft or cheque or by remittance in cash in such manner as may be specified in this behalf by the appropriate authority constituted under the EPF Act.

The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 (“SHWW Act”)

The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 (“**SHWW Act**”) provides for the protection of women at work place and prevention of sexual harassment at work place. The SHWW Act also provides for a redressal mechanism to manage complaints in this regard. Sexual harassment includes one or more of the following acts or behaviour namely, physical contact and advances or a demand or request for sexual favours or making sexually coloured remarks, showing pornography or any other unwelcome physical, verbal or non-verbal conduct of sexual nature. The SHWW Act makes it mandatory for every employer of a workplace to

constitute an Internal Complaints Committee which shall always be presided upon by a woman. It also provides for the manner and time period within which a complaint shall be made to the Internal Complaints Committee i.e., a written complaint is to be made within a period of three (3) months from the date of the last incident. If the establishment has less than ten (10) employees, then the complaints from employees of such establishments as also complaints made against the employer himself shall be received by the Local Complaints Committee. The penalty for non-compliance with any provision of the SHWW Act shall be punishable with a fine extending to Rs.50,000/- (Rupees Fifty Thousand Only).

Shops and Establishment Laws

The shops and establishment laws govern a company in the states where it has offices/godowns. It regulates the conditions of work and employment in shops and commercial establishments and generally prescribes obligations in respect of registration, opening and closing hours, daily and weekly working hours, health and safety measures, and wages for overtime work. The state law relevant to the Company are the Shops and Commercial Establishments laws as applicable in the state of West Bengal and Assam.

Factories Act, 1948

The Industrial Relations Code, 2020 received the assent of the President of India on September 28, 2020 and it proposes to subsume three existing legislations, namely, the Industrial Disputes Act, 1947, the Trade Unions Act, 1926 and the Industrial Employment (Standing Orders) Act, 1946. The provisions of this code will be brought into force on a date to be notified by the appropriate government.

(d) Occupational Safety, Health and Working Conditions Code, 2020*

The Ministry of Law and Justice, Government of India has published the Occupational Safety, Health and Working Conditions Code, 2020 (“**OSH Code**”) on 29th September, 2020 and the same will be in force from such date the Central Government by notification may appoint. However, the same has not been notified yet, The OSH Code aims to consolidate and amend the laws regulating the occupational safety, health and working conditions of the persons employed in an establishment and for matters connected therewith or incidental thereto. The OSH Code has subsumed several key pieces of legislation on the working conditions of labour and consolidated it into one comprehensive act, including, inter alia, the Contract Labour (Regulation and Abolition) Act, 1970, the Factories Act, 1948, etc.

** These codes shall become effective on the day that the Government shall notify for this purpose.*

D. ENVIRONMENTAL LAWS

Environment Protection Act, 1986

The purpose of the Environment Protection Act, 1986 is to act as an umbrella legislation providing a framework for Central Government to co-ordinate of environment protection activities of various central and state authorities. The said Act prohibits person carrying on business, operations, process from discharging or emitting any environmental pollutant in excess of such standards as may be prescribed by the Government in this regard.

Water (Prevention & Control of Pollution) Act, 1974

The Water (Prevention & Control of Pollution) Act, 1974 (“**Water Act**”) provides for the prevention and control of water pollution and the maintaining or restoring of wholesomeness of water, for the establishment, with a view to carrying out the purposes aforesaid, of Boards for the prevention and control of water pollution, for conferring on and assigning to such Boards powers and functions relating thereto and for matters connected therewith. Under the provisions of Water Act, an entrepreneur running or establishing any industry or process, and discharging effluent/emitting pollutants into any water resources or on land/air and polluting thereby the environmental water/air is required to obtain consent.

Air (Prevention & Control of Pollution) Act, 1981

The Air (Prevention & Control of Pollution) Act, 1981 (“**Air Act**”) provide for the prevention, control and abatement of air pollution, for the establishment, with a view to carrying out the aforesaid purposes, of Boards, for conferring on and assigning to such Boards powers and functions relating thereto and for matters connected therewith. Under the provisions of Air Act, an entrepreneur

running or establishing any industry or process, and discharging effluent/emitting pollutants into air and polluting thereby the environmental air is required to obtain consent.

E. TAX LAWS

The Income Tax Act, 1961

The Income Tax Act, 1961 (“**Tax Act**”) deals with taxation of individuals, corporate, partnership firms and others. As per the provisions of the Tax Act, the rates at which they are required to pay tax is calculated on the income declared by them or assessed by the authorities, after availing the deductions and concessions accorded under the Act. The maintenance of books of accounts and relevant supporting documents and registers are mandatory under the Tax Act. Filing of returns of income is compulsory for all assesses. The maintenance of books of accounts and relevant supporting documents and registers are mandatory under the Tax Act.

Customs Act, 1962

The provisions of the Customs Act, 1962 and rules made there under are applicable at the time of import of goods i.e., bringing into India from a place outside India or at the time of export of goods i.e., taken out of India to a place outside India. Any Company desirous of importing or exporting any goods is first required to get it registered and obtain an IEC (Importer Exporter Code).

Goods and Services Tax Act, 2017

The Goods and Services Tax Act, 2017 (“**GST**”) is one of the most significant tax reforms introduced in the history of the Indian fiscal evolution. The central and state governments will levy GST simultaneously, on a common taxable value, on the supply of goods and services. However, in the case of imports and inter- state supplies, an Integrated Goods and Service Tax (“**IGST**”) shall be levied by the central government, proceeds of which will be shared by the central and the recipient state government. IGST is an Indian innovation which would help tax move along with goods/services, across states and therefore reduce refund situations at state borders. GST is expected to bring a significant shift from origin-based taxation to a destination-based tax structure. This is likely to impact not only the operating business models but also the revenues of the centre/states. It has the potential to impact cash flow, pricing, working capital, supply chain and IT systems and hence provides an opportunity to transform your business. GST allow equal opportunity to the centre and the state to tax all supplies of goods and services. The single GST replaced several former taxes and levies which includes central excise duty, services tax, additional customs duty, surcharges, state-level value added tax and octroi.

Professional Tax

The professional tax slabs in India are applicable to those citizens of India who are either involved in any profession or trade. The State Government of each State is empowered with the responsibility of structuring as well as formulating the respective professional tax criteria and is also required to collect funds through professional tax. The professional taxes are charged on the incomes of individuals, profits of business or gains in vocations.

F. INTELLECTUAL PROPERTY LAWS

The Trade Marks Act, 1999

The Trade Marks Act, 1999 (“**TM Act**”) provides for the process for making an application and obtaining registration of trademarks in India. The purpose of the TM Act is to grant exclusive rights to marks such as a brand, label, heading and to obtain relief in case of infringement for commercial purposes as a trade description. The TM Act prohibits registration of deceptively similar trademarks and provides for penalties for infringement, falsifying and falsely applying trademarks.

G. FOREIGN INVESTMENT REGULATIONS

Foreign Investment Regulations

In terms of the Consolidated FDI Policy, 2020, issued by the Department for Promotion of Industry and Internal Trade (formerly, Department of Industrial Policy and Promotion), 100% foreign investment is permitted under automatic route in the manufacturing sector.

The Foreign Trade (Development & Regulation) Act, 1992

The Foreign Trade (Development & Regulation) Act, 1992, provides for the development and regulation of foreign trade by facilitating imports into and augmenting exports from India and for matters connected therewith or incidental thereto.

Foreign Exchange Management Act, 1999 and rules and regulations framed thereunder

Foreign investment in India is governed primarily by the provisions of the Foreign Exchange Management Act, 1999 (“**FEMA**”) which relates to regulation primarily by the RBI and the rules, regulations and notifications there under, and the policy prescribed by the Department of Industrial Policy and Promotion, Ministry of Commerce & Industry, Government of India. As laid down by the FEMA Regulations (*as defined hereunder*), no prior consents and approvals are required from the RBI, for foreign direct investment (“**FDI**”) under the ‘automatic route’ within the specified sectoral caps. In respect of all industries not specified as FDI under the automatic route, and in respect of investment in excess of the specified sectoral limits under the automatic route, approval may be required from the FIPB and/or the RBI. The RBI, in exercise of its power under the FEMA, has notified the Foreign Exchange Management (Non-debt Instruments) Rules, 2019 vide notification F.No. 1/14/EM/2015 dated October 17, 2019 (“**FEMA Regulations**”) which governs transfer by or issue security to a person resident outside India. FEMA Regulations repealed the Foreign Exchange Management (Transfer or Issue of Security by a Person Resident outside India) Regulations, 2017 and Foreign Exchange Management (Acquisition and Transfer of Immovable Property in India) Regulations, 2018.

Foreign Direct Investment Policy, 2020

With the intent and objective of the Government of India to attract and promote foreign direct investment in order to supplement domestic capital, technology and skills, for accelerated economic growth. The Government of India has put in place a policy framework on Foreign Direct Investment, which is transparent, predictable and easily comprehensible. This framework is embodied in the Circular on Consolidated FDI Policy, which may be updated every year, to capture and keep pace with the regulatory changes, effected in the interregnum. The Department of Industrial Policy and Promotion (DIPP), Ministry of Commerce & Industry, Government of India makes policy pronouncements on FDI through press notes/press releases which are notified by the RBI as

amendments to the Foreign Exchange Management (Transfer or Issue of Security by Persons Resident Outside India) Regulations, 2000. These notifications take effect from the date of issue of press notes/ press releases, unless specified otherwise therein. In case of any conflict, the relevant FEMA Notification will prevail. The procedural instructions are issued by the RBI *vide* A.P. (DIR Series) Circulars. The regulatory framework, over a period of time, thus, consists of Acts, Regulations, Press Notes, Press Releases, Clarifications, etc.

Export Promotion Capital Goods Scheme

Furniture & Fixtures	10 Years	10 Years
Office Equipment	5 Years	5 Years
Plant and Machinery	15 Years	15 Years
Electric distribution Plant (Solar)	35 Years	35 Years
Factory Shed/Building	30 Years	30 Years
Vehicles	10 Years	10 Years
Motor Car	8 Years	8 years

i) INVENTORIES:

Inventories of traded goods are valued at lower of cost and net realizable value. Cost comprises of all costs of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost formula used is FIFO.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated cost necessary to make the sale.

j) IMPAIRMENT OF ASSETS:

Assessment is done at each Balance Sheet date as to whether there is any indication that a tangible asset might be impaired.

k) EMPLOYEE BENEFITS:

(i) Short-term employee benefits

Short term employee benefits are recognized as an expense at the undiscounted amount in the statement of Profit and loss for the year which includes benefits like salary, wages, bonus and are recognized as expenses in the period in which the employee renders the related service.

(ii) Post-employment benefits:

Defined Contribution Plan

The Company has Defined Contribution Plans for Post-employment benefits in the form of Provident Fund for all employees which are administered by Regional Provident Fund Commissioner. Provident Fund and Employee State Insurance are classified as defined contribution plans as the Company has no further obligation beyond making the contributions. The Company's contributions to Defined Contribution plans are charged to the Statement of Profit and Loss as and when incurred.

Defined benefit Plans

Unfunded Plan: The Company has a defined benefit plan for post-employment benefit in the form of Gratuity.

Liability for the above defined benefit plan is provided on the basis of valuation, as at the Balance Sheet date, carried out by an independent actuary. The actuarial method used for measuring the liability is the Projected Unit Credit method.

l) BORROWING COST

Borrowing costs are interest, commitment charges and other costs incurred by an enterprise in connection with Short Term/ Long-Term borrowing of funds. Borrowing cost directly attributable to acquisition or construction of qualifying assets are capitalized as a part of the cost of the assets, up to the date the asset is ready for its intended use. All other borrowing costs are recognized in the Statement of Profit and Loss in the year in which they are incurred.

m) EARNING PER SHARE:

The earnings in ascertaining the Company's EPS comprises the net profit after tax attributable to equity shareholders and includes the post-tax effect of any extraordinary items. The number of shares used in computing basic EPS is the weighted average number of shares outstanding during the year.

Diluted earnings per share is computed by dividing the profit/(loss) after tax attributable to Equity Shareholders (including the post-tax effect of extra ordinary items, if any) as adjusted for dividend, interest and other charges to expense or income relating to the dilutive potential equity shares, by the weighted average number of equity shares which could have been issued on conversion of all dilutive potential equity shares. Potential equity shares are deemed to be dilutive only if their conversion to equity shares would decrease the net profit per share from continuing ordinary operations. Potential dilutive equity shares are deemed to be converted as at the beginning of the period, unless they have been issued at a later date. Dilutive potential equity shares are determined independently for each period.

n) TAXATION

Tax expense for the year comprising current tax & deferred tax are considered in determining the net profit for the year. Provision is made for current tax and based on tax liability computed in accordance with relevant tax laws applicable to the Company. Provision is made for deferred tax for all timing difference arising between taxable incomes & accounting income at currently enacted or substantively enacted tax rates, as the case may be. Deferred tax assets (other than in situation of unabsorbed depreciation and carry forward losses) are recognized only if there is reasonable certainty that they will be realized and are reviewed for the appropriateness of their respective carrying values at each Balance Sheet date. Deferred tax assets, in situation of unabsorbed depreciation and carry forward losses under tax laws are recognized only to the extent that where is virtual certainty supported by convincing evidence that sufficient future taxable income will be available against which such deferred tax assets can be recognized. Deferred Tax Assets and Deferred Tax Liability are been offset wherever the Company has a legally enforceable right to set off current tax assets against current tax liability and where the Deferred Tax Asset and Deferred Tax Liability relate to Income taxes is levied by the same taxation authority.

o) PROVISIONS, CONTINGENT LIABILITIES AND CONTINGENT ASSETS:

B. Significant Accounting Policies

(i) Basis of preparation

The accompanying financial statements are prepared in compliance with the requirements under Section 133 of the Companies Act, 2013 ("the Act"), read with Rule 7 of the Companies (Accounts) Rules, 2014 and Companies (Accounting Standard Amendment Rules, 2016) and other Generally Accepted Accounting Principles ("GAAP") in India, under the historical cost convention, on the accrual basis of accounting.

All the assets and liabilities have been classified as current or non-current as per Company’s normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of activities, the Company has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities.

(ii) Use of estimates

The preparation of financial statements in conformity with the generally accepted accounting principles requires the Management to make estimates and

assumptions that affects the reported balances of assets and liabilities and disclosures relating to the contingent assets and liabilities at the date of financial statements and the reported amount of income and expenses during the year.

(iii) Revenue Recognition:

- (i)** Revenue from sale of goods is recognized when significant risk and rewards of ownership of the goods have been passed to the buyer and it is reasonable to expect ultimate collection. Sale of goods is recognized net of GST and other taxes as the same is recovered from customers and passed on to the government.
- (ii)** Interest is recognized on a time proportion basis taking into account the amount outstanding and the rate applicable.
- (iii)** Income from export entitlement is recognized as on accrual basis.

(iv) FOREIGN CURRENCY TRANSACTIONS

(i) Initial recognition

Transactions in foreign currency are accounted for at exchange rates prevailing on the date of the transaction.

(ii) Measurement of foreign currency monetary items at Balance Sheet date

Foreign currency monetary items (other than derivative contracts) as at Balance Sheet date are restated at the year end conversion rates of currency

(iii) Exchange difference

Exchange differences arising on settlement of monetary items are recognized as income or expense in the period in which they arise.

Exchange difference arising on restatement of foreign currency monetary items as at the year End being difference between exchange rate prevailing on initial recognition/subsequent restatement on reporting date and as at current reporting date is adjusted in the Statement of Profit & Loss for the respective year.

(v) Investments

Non-Current/ Long-term Investments are stated at cost. Provision is made for diminution in the value of the investments, if, in the opinion of the

management, the same is considered to be other than temporary in nature. On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the Statement of Profit and Loss.

Current investments are carried at lower of cost and fair value determined on an individual basis. On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the Statement of Profit and Loss.

(vi) Property, Plant and Equipment

Tangible Assets

The tangible items of property, plant and equipment are carried at cost less accumulated depreciation and accumulated impairment losses, if any, using the cost model as prescribed under Accounting Standard, AS-10 "Property, Plant & Equipment". Cost of an item of property, plant and equipment comprises of the purchase price, including import duties, if any, non-refundable purchase taxes, after deducting trade discounts and rebates, and costs that are directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

Subsequently, our company was converted into Public Limited Company vide special resolution passed by our shareholders at the Extra Ordinary General Meeting held on January 24, 2022 and the name of the company was changed to "**Insolation Energy Limited**" pursuant to the issuance of Fresh Certificate of Incorporation dated February 07, 2022 by Registrar of Companies, Jaipur, Rajasthan. The Corporate Identification Number of our company is U40104RJ2015PLC048445. The registered office of our company is situated at G-25, City Centre, S.C. Road, Jaipur - 302001 and manufacturing unit is situated at Khasra 766/2, Village Bagwada, Tehsil Amer, Near Daulatpura Toll Tax Jaipur - 303805.

Our Company is engaged in the business of manufacturing solar panels and modules of high efficiency of various sizes as per the demand in the market from its fully automatic a state-of-the-art 200 MW (Rated Installed Capacity) SPV Module manufacturing unit located at Jaipur, spread in more than 60,000 Sq. ft area with latest machinery and stringent quality assurance process which delivers quality solar PV module. In addition to the manufacture of solar PV modules, our Company also trades in Solar Power Conditioning Unit (PCU) which uses solar energy and power from the grid to charge batteries

and tall tabular Lead Acid Batteries which are used to store energy generated from the solar panels. We are also an integrated solar energy solutions provider offering engineering, procurement and construction (“EPC”) services to our customers.

We have built a strong brand reputation for our solar PV modules manufactured on a fully automatic state-of-art manufacturing unit and sold under the brand name of “INA” along with a successful track record of developing, engineering and constructing. We strive to deliver reliable solar solutions through innovative products, and we achieve this majorly through our specialized high efficiency PV module manufacturing line and comprehensive EPC solutions.

Our Company adheres to some of the industry’s best quality product accreditations. Our Company has obtained certifications such as ISO 9001:2015, ISO 45001:2018, ISO 14001:2015, BIS-IS:14286 etc.

Our solar PV modules are currently manufactured using both polycrystalline and Mono-PERC crystalline cell technology. Our portfolio of solar energy products consists of the following solar PV modules which includes bifacial (glass – to - Transparent back sheet modules) and are differentiated on the basis of solar PV module technology and type as well as cell size:

- (i) polycrystalline modules; and
- (ii) monocrystalline passivated emitter and rear cell (Mono PERC) modules.

We are in the business of solar PV module technologies for more than last 5 years, during which time we have developed strong engineering capabilities in producing high efficiency PV modules.

We have successfully established a geographically diversified presence in India through an extensive distributor network of 30+ distributors. Our local presence and distributor network along with our brand recognition, should ensure that we are well-placed to serve this growing market. In India, we have developed a significant client base purchasing our solar PV modules and EPC services. Our key domestic customers include Livguard Energy Technologies Pvt. Ltd., Livfast Batteries Pvt. Ltd., Shakti Pumps India Ltd., Microtek international P. Ltd., Zunroof Tech Pvt. Ltd. etc.

In 2020, our company diversified into the area of Solar Power Pack and successfully launched Solar Tubular / Li-ion Batteries and Solar PCU. These are designed after thorough market inputs and best available techniques. This Solar Combo offering with adequate storage is fast gaining popularity and helping the home office and home education community in cities, towns and villages.

Our company is promoted by first generation entrepreneur Mr. Manish Gupta & Mr. Vikas Jain, having rich experience and exposure of approximately 23 years in various sectors such as Steel, Industrial Pipe Line Accessories, Real Estate, Health & Fitness, and Captive & Independent Solar Power Producer who have proven to be instrumental to the business operations of the Company.

Our products and services cater to multiple business divisions, helping to diversify revenue streams, improve margins and reduce business risk. Our business areas are as under:

- i. Solar PV module manufacturing; and
- ii. Solar Power Conditioning Unit (PCU) and Lead Acid Batteries trading.

SIGNIFICANT MATERIAL DEVELOPMENTS SUBSEQUENT TO THE LAST FINANCIAL PERIOD

In the opinion of the Board of Directors of our Company, since the date of the last financial statements disclosed in this Prospectus, there have not arisen any circumstance that materially affect or are likely to affect the business activities or profitability of our Company or the value of its assets or its ability

to pay its material liabilities within the next twelve months except as mentioned below:

- 1) The Board of Directors have decided to get their equity shares listed pursuant to Section 23 of the Companies Act 2013, by a resolution passed at its meeting held on **April 05, 2022** proposed the Issue, subject to the approval of the shareholders and such other authorities as may be necessary.
- 2) The shareholders of the Company have, pursuant to Section 23 of the Companies Act 2013, by a special resolution passed in the Extra Ordinary General Meeting held on **April 18, 2022** authorized the Initial Public Offer.
- 3) The Ministry of New and Renewable Energy, Government of India (MNRE) is implementing Phase-III of Grid Connected Rooftop Solar (GCRTS) Programme wherein central financial assistance is being provided for installation of rooftop solar projects in residential buildings. To implement the rooftop solar activities in Rajasthan, Ajmer Discom (Distribution companies) have been designated as the implementing agency for Ajmer, Jaipur and Jodhpur. Our Company has been empaneled for installation and maintenance of rooftop solar plants of approx. 1.2 MW, by Ajmer Vidyut Vitran Limited (“AVVNL”) for Ajmer Discom, Jaipur Discom and Jodhpur Discom in September 2022.

KEY FACTORS THAT MAY AFFECT OUR RESULTS OF OPERATION

Our results of operations have been, and will be, affected by many factors, some of which are beyond our control. Our results of operations and financial conditions are affected by numerous factors including the following:

A. Ability to expand the customer base and develop new products capabilities to meet evolving preferences in the Textile industry and generate new sales.

Customer relationships are the core of our business. Our ability to grow our customer base and drive market adoption of our products is affected by the pace at which the renewable energy industry grows. We expect that our revenue growth will be primarily driven by the pace of adoption of our offerings. This will drive our ability to acquire new customers and increase sales to existing customers, which in turn, will affect our future financial performance.

We have grown our operations by introducing quality products to meet potential requirements of our customers and create market for our products. To service and grow our relationships with our existing customers and to win new customers, we are required to provide them with products that address their quality and other requirements, to anticipate and understand trends in their relevant markets and to continually address their needs as those change and evolve.

Our future growth shall depend on our ability to identify emerging market trends, offer new products and new designs to customers, inculcate strong culture of innovation, have trained workforce and latest research and development facilities to enable us to expand the range of our offerings to customers and improve the delivery of our products along with growing our portfolio of various sized products to increasingly represent our revenue from operations, widened the customer base that we cater to, and typically have a higher margin profile.

B. Cost of materials consumed

Our ability to remain competitive and profitable depend on our ability to source and maintain a stable and sufficient supply of raw materials at cost effective prices. Historically, prices of modules along with basic raw material costs have fallen making solar energy affordable and establishing grid parity with conventional energy. However, on account of the continuing impact

of COVID-19, there has been an increase in prices of metals and other materials used in raw materials such as aluminium, silver, cells, wafers, EVA, glass and polysilicon which have a significant effect on the cost of raw materials and consequently our gross margins. We depend on external suppliers for our materials and components required and typically purchase materials and components on a purchase order basis and place such orders with them in advance on the basis of our anticipated requirements. As a result, the success of our business is significantly dependent on maintaining good relationships with our suppliers. For further information on procurement of our raw materials, see “*Our Business – Raw Materials*” on page 156 of this Prospectus.

C. Reliance on Customer Relationships

The identity and correspondingly revenues from any particular customer or our top five customers may vary between financial reporting years depending on the nature and term of ongoing contracts with such customers. For the year ended on 31.03.2022, 31.03.2021 and 31.03.2020 our top five customers across our business accounted for 65.23%, 50.12% and 45.15% of our revenue from operations, respectively, while our largest customer accounted for 22.48%, 18.20% and 13.72%, respectively, of our total revenue from operations in such periods. Thus, our Company is reliant on key customers for our business and therefore any adverse developments in our relationships with our key customers or a significant reduction in business from any such key customer may adversely impact our results of operations, prospects and financial condition.

D. Sales and Marketing

We have deployed a team of efficient and dedicated marketing professionals for the marketing and promotion of our products. Our marketing team constantly monitors and scours the trends in the market. Regular interaction is required to maintain the client base and to gain insight into the design and specification needs of the diverse clientele. We constantly seek to grow our product reach to underpenetrated geographies, increase the penetration of our products in markets in which we are currently present and widen the portfolio of our products available in those markets by growing our network. Our success is dependent on our ability to enter and expand our network in new markets which is further dependent on our familiarity with the economic condition, customer base and commercial operations in new regions. With limited presence, our ability to gain market share is also dependent on our ability to compete with companies that may have an existing strong presence.

However, we may not be successful in expanding our network or increasing our market presence. Further, we may also face disruptions in selling our products for various reasons such as transportation bottlenecks, raw material inaccessibility, competition activities, labor issues, natural disasters, absence of professional & technical expertise, etc. which may result in disruptions to our business.

E. Changes in laws and regulations relating to the industry in which we operate

The solar energy industry in which we operate is subject to constant change. Our business is heavily dependent on GoI and state government policies that encourage establishment and adoption of solar energy projects. In particular, the solar energy industry benefits from various incentives provided by the GoI. For example, government projects are only permitted to procure solar PV modules of certain quality and specification from a limited number of select suppliers identified in the ALMM prepared by MNRE. If any of the benefits or policies are adversely amended, eliminated or not extended beyond their current expiration dates, or if funding for these incentives is reduced, or if governmental support of renewable energy development, particularly solar energy, is discontinued or reduced, it could have an adverse effect on our business and financial condition. We also cannot assure you that laws or regulations will not be

adopted, enforced or interpreted in the future in a manner that will not have a material adverse effect on our business and results of operations. Any such adverse change in law or applicable policy may require us to face increased compliance costs, obtain additional approvals and licenses, and may also require us to alter our business strategy, or implement onerous requirements and conditions on our operations.

F. Increasing competition in the industry;

As a solar module manufacturer in India, we compete with other Indian module manufacturers. A few competitors have undertaken initiatives for higher backward integration which would enable them to compete on costs and have better margin performance. Further, some of our competitors may have greater financial, marketing, personnel and other resources than we do and may be in a position to seek to grow their business more aggressively. Any increase in competition in our industry is likely to adversely impact our market share, margins and profitability.

G. Changes in fiscal, economic or political conditions in India

We are incorporated in India and we conduct our corporate affairs and our business in India. Consequently, our business operations, financial performance and the market price of our Equity Shares are affected by interest rates, government policies, taxation, social and ethnic instability and other political and economic developments affecting India.

Any slowdown or perceived slowdown in the Indian economy, or in specific sectors of the Indian economy or certain regions in India, could adversely affect our business, results of operations and financial condition along with the price of the Equity Shares.

H. COVID-19 Pandemic

The outbreak of COVID-19 pandemic and the preventative or protective actions that governments around the world have taken to counter the effects of the pandemic have resulted in a period of economic downturn and business disruption in India. The World Health Organization declared the outbreak of COVID-19 as a public health emergency of international concern on January 30, 2020 and a pandemic on March 11, 2020. The Government of India announced a nation-wide lockdown on March 24, 2020 and imposed several restrictions. In view of the nationwide lockdown announced by the Government of India to control the spread of COVID-19, our business operations were temporarily disrupted from March 24, 2020. Since then, we have resumed operations in a phased manner as per the Government of India and state government's directives. Our operations were not majorly affected by this pandemic. Further the impact of the pandemic, particularly the second wave and more communicable strain of the virus that had affected India in April, 2021, also impacted our profitability, since our factories were partially operational. We also incurred and may continue to incur additional expenses in complying with evolving government regulations, including with respect to social distancing measures, food safety norms, and sanitization practices.

For more information on these and other factors / development which have or may affect us, please refer to chapters titled "Risk Factors", "Our Industry" and "Our Business" beginning on page 34, 125 and 145 respectively of this Prospectus.

- (ii) Interest is recognized on a time proportion basis taking into account the amount outstanding and the rate applicable.
- (iii) Income from export entitlement is recognized as on accrual basis.

FOREIGN CURRENCY TRANSACTIONS.

(i) Initial recognition

Transactions in foreign currency are accounted for at exchange rates prevailing on the date of the transaction.

(ii) Measurement of foreign currency monetary items at Balance Sheet date

Foreign currency monetary items (other than derivative contracts) as at Balance Sheet date are restated at the year end currency rates.

(iii) Exchange difference

Exchange differences arising on settlement of monetary items are recognized as income or expense in the Period/year in which they arise.

Exchange difference arising on of foreign currency monetary items as at the year end being difference between exchange rate prevailing on initial recognition is adjusted in the Statement of Profit & Loss for the respective year.

INVESTMENTS

Non-Current/ Long-term Investments are stated at cost. Provision is made for diminution in the value of the investments, if, in the opinion of the management, the same is considered to be other than temporary in nature. On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the Statement of Profit and Loss.

Current investments are carried at lower of cost and fair value determined on an individual basis. On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the Statement of Profit and Loss.

PROPERTY, PLANT AND EQUIPMENT

Tangible Assets

The tangible items of property, plant and equipment are carried at cost less accumulated depreciation and accumulated impairment losses, if any, using the cost model as prescribed under Accounting Standard, AS-10 "Property, Plant & Equipment". Cost of an item of property, plant and equipment comprises of the purchase price, including import duties, if any, non-refundable purchase taxes, after deducting trade discounts and rebates, and costs that are directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

DEPRECIATION AND AMORTIZATION:

Depreciation of Tangible Assets:

Depreciation on fixed assets provided on the written down value method at the rates provided in schedule II of Companies act, 2013 on pro-rata basis.

Class of Asset	Useful life as per Schedule II	Useful life as per Group

Provision for Tax and Net Profit

(Amount in Lakhs)

Particulars	2020-21	2019-20	Variance in %
Taxation Expenses	236.98	142.31	66.52%
Profit after Tax	689.72	309.25	123.03%

Our profit after tax increased by Rs. 380.47 lakhs, showing a percentage increase of 123.69%. This splurge in profits was majorly on account of increase in sales of the Company which was further due to increase in rated installed capacity from 80 MW in FY 2019-20 to 200 MW in FY 2020-21. This increased the sales manifold whereas the expenses did not increase in the same proportion. Thus, with increased business operations, our Company was able to achieve economies of scale which further subsided the expenses, thereby causing a rise in the profits of the Company. Further, the fixed expenses remained constant and did not impact the profits in comparison to sales. Additionally, with growth in solar industry market and limited manufacturers, the margins keep increasing leading to surge in revenue from operations. Therefore, profits for the FY 2020-21 augmented in comparison to that in FY 2019-20.

LIQUIDITY AND CAPITAL RESOURCES

We have historically financed the expansion of our business and operations primarily through debt financing and funds generated from our operations. From time to time, we may obtain loan facilities to finance our short-term working capital requirements.

We are exposed to interest rate risk, inflation and credit risk in the normal course of our business.

2. Interest Rate Risk

Our financial results are subject to changes in interest rates, which may affect our debt service obligations and our access to funds.

3. Liquidity Risk

Liquidity risk is the risk that will encounter difficulties in meeting the obligations associated with our financial liabilities that are settled by delivering cash or another financial asset. Our approach to managing liquidity is to ensure to the extent possible, that we will have sufficient liquidity to meet our liabilities when they are due under both normal and stressed conditions, without incurring unacceptable losses or risking damage to our reputation. We manage liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

4. Effect of Inflation

We are affected by inflation as it has an impact on the raw material cost, wages, etc. In line with changing inflation rates, we rework our margins so as to absorb the inflationary impact.

5. Credit Risk

We are exposed to credit risk on monies owed to us by our customers. If our customers do not pay us promptly, or at all, we may have to make provisions for or write-off such amounts.

6. Reservations, qualifications and adverse remarks

Except as disclosed in chapter titled "**Financial Statements as Restated**" beginning on page 220 of this Prospectus, there have been no reservations, qualifications and adverse remarks.

7. Details of default, if any, including therein the amount involved, duration of default and present status, in repayment of statutory dues or repayment of debentures or repayment of deposits or repayment of loans from any bank or financial institution

Except as disclosed in chapter titled "**Financial Statements as Restated**" beginning on page 220 of this Prospectus, there have been no defaults in payment of statutory dues or repayment of debentures and interest thereon or repayment of deposits and interest thereon or repayment of loans from any bank or financial institution and interest thereon by the Company.

8. Material Frauds

There are no material frauds, as reported by our statutory auditor, committed against our Company, in the last three Fiscals.

9. Unusual or infrequent events or transactions

Except as described in this Prospectus, during the periods under review there have been no transactions or events, which in our best judgment, would be considered unusual or infrequent.

10. Significant economic changes that materially affected or are likely to affect income from continuing operations.

Indian rules and regulations as well as the overall growth of Indian economy have a significant bearing on our operations. Major changes in these factors can significantly impact income from continuing operations.

Other than as described in the section titled "**Risk Factors**" beginning on page 34 of this Prospectus to

our knowledge there are no significant economic changes that materially affects or are likely to affect income of our Company from continuing operations.

11. Known trends or uncertainties that have had or are expected to have a material adverse impact on sales, revenue or income from continuing operations.

Other than as disclosed in the section titled “*Risk Factors*” beginning on page 34 of this Prospectus to our knowledge there are no known trends or uncertainties that have or had or are expected to have a material adverse impact on revenues or income of our Company from continuing operations.

12. Future changes in relationship between costs and revenues

Other than as described in chapter titled “*Risk Factors*” beginning on page 34 of this Prospectus and in this section, to our knowledge there are no known factors that might affect the future relationship between cost and revenue. Our Company’s future costs and revenues will be determined by demand/supply situation, government policies, global market situation and prices of our material.

13. The extent to which material increases in net sales or revenue are due to better product quality and increase in number of customers

Increase in revenue is by and large linked to increases in volume of business activity by the Company.

14. Status of any publicly announced new products / projects or business segments

Our Company has not announced any new projects or business segments, other than disclosed in the Prospectus. For details of our new projects or business segments please refer to the chapter titled “*Our Business*” beginning on page 145 of this Prospectus.

15. Increase in income

Increases in our income are due to the factors described above in this chapter under “*Significant Factors Affecting Our Results of Operations*” and chapter titled “*Risk Factors*” beginning on page 34 of this Prospectus.

16. The extent to which the business is seasonal

Our business is not subject to any significant seasonal fluctuations.

17. Any significant dependence on a single or few suppliers or customers

We majorly procure our raw materials and sell our products to various organisations / wholesalers. The following is the breakup of top five and top ten customers and suppliers of our Company as on March 31, 2022 are as below:

(Amount in Lakhs)

Particulars	Customers		Suppliers

SECTION VII: LEGAL AND OTHER INFORMATION

OUTSTANDING LITIGATION AND MATERIAL DEVELOPMENTS

Except as stated below there are no outstanding (i) criminal proceedings involving our Company, Subsidiaries, Directors, or Promoters (“**Relevant Parties**”); (ii) actions by statutory or regulatory authorities involving the Relevant Parties; (iii) outstanding claims relating to direct and indirect taxes involving the Relevant Parties; and (iv) other pending litigation involving the Relevant Parties as determined to be material by our Board pursuant to the Materiality Policy (as disclosed herein below); or (v) litigation involving our Group Company which has a material impact on our Company. Further, except as stated in this section, there are no disciplinary actions including penalties imposed by SEBI or stock exchanges against our Promoter in the last five Financial Years including any outstanding action.

For the purposes of (iv) above in terms of Materiality Policy adopted by a resolution of our Board dated **April 5, 2022**, pending litigation would be considered ‘material’ if the monetary amount of claim by or against the entity or person in any such pending proceeding is in excess of **Rs. 5,00,000/-** and where the amount is not quantifiable, such pending cases are material from the perspective of the company’s business, operations, prospects or reputation.

For the purposes of the above, pre-litigation notices received by the Relevant Parties or the Group Company from third parties (excluding those notices issued by statutory or regulatory or taxation authorities or notices threatening criminal action) have not and shall not, unless otherwise decided by our Board, be considered material until such time that any of the Relevant Parties or the Group Company, as the case may be, is impleaded as a defendant in litigation before any judicial or arbitral forum.

Further, in accordance with the Materiality Policy, our Company has considered such creditors ‘material’ to whom the amount due is equal to or in excess of Rs. 5,00,000/-.

Unless stated to the contrary, the information provided below is as of the date of this Prospectus. All terms defined in a particular litigation disclosure below are for that particular litigation only.

CW/19132/2017, SAW/1227/2019 and SLP No. 10545/2020

Our director, Pallavi Mishra, has filed a writ petition before the Hon'ble Rajasthan High Court. The matter concerns whether the Benami Transactions (Prohibition) Amendment Act, 2016 can be applied retrospectively.

Show Cause Notice dated 31.07.2017 was issued under Prohibition of Benami Property Transactions Act, 1988 ('**Benami Property Act**') on Shri Kishan Lal Bairwa, alleging him to be the Benamidar with respect to alleged benami property (land of area 3.04 hectare) located at Chandwaji, Jaipur and alleging the said Director to be Beneficial Owner of such property based on documents found during search & seizure action conducted on residence of the Director. As per Section 53 of the Benami Property Act whoever is found guilty of the offence of benami transactions shall be punishable with imprisonment for a term which shall not be less than 1 year, but which may extend to 7 years and shall also be liable to fine which may extend to 25% of the fair market value of the property.

The said notice has been challenged before the Rajasthan High Court (Single Bench), vide writ petition CW/19132/2017, on the ground that the initiating officer, Assistant Commissioner of Income Tax, has acted without jurisdiction, as the Benami Transaction (Prohibition) Amendment Act, 2016, came into effect on 01.11.2016 have prospective effect and the alleged benami transaction took place prior to 01.11.2016. Single Bench of Rajasthan High Court vide order dated 12.07.2019 held that the said amendment act cannot have retrospective effect and directed the respective initiating officer to examine each case on its own merits keeping in view the fact that amended provisions introduced and the amendments enacted and made enforceable w.e.f. 01.11.2016 would be prospective and not retrospective. However, the department has appealed against the said order before the Division Bench of the Rajasthan High Court, vide SAW/1227/2019 [DY Commissioner (Benami Prohibition), Rajasthan and Initiating Officer and Another vs. Smt. Pallavi Mishra Wife of Sh. Abhishek Mishra], which is still pending.

Also, the operation of the order dated 12.07.2019 by Single Bench of Rajasthan High Court has been stayed by the Division Bench of the Rajasthan High Court vide order dated 26.08.2020. However, the Supreme Court in SLP No. 10545/2020 has stayed the said stay order dated 26.08.2020 of the Division Bench.

MINIMUM APPLICATION VALUE, MARKET LOT AND TRADING LOT

Pursuant to Section 29 of the Companies Act, 2013 the Equity Shares shall be allotted only in dematerialized form. As per the SEBI (ICDR) Regulations, 2018 the trading of the Equity Shares shall only be done in dematerialized form. In this context, two agreements have been signed amongst our Company, the respective Depositories and the Registrar to the Issue:

- Tripartite Agreement dated 19 April 2022 amongst NSDL, our Company and the Registrar to the Issue; and
- Tripartite Agreement dated 20 April 2022 amongst CDSL, our Company and the Registrar to the Issue.

Since trading of the Equity Shares is in dematerialized form, the tradable lot is 3,000 Equity Shares. Allotment in this Issue will be only in electronic form in multiples of 3,000 Equity Share subject to a minimum Allotment of 3,000 Equity Shares to the successful bidders in terms of the SEBI circular No. CIR/MRD/DSA/06/2012 dated February 21, 2012.

MINIMUM NUMBER OF ALLOTTEES

Further in accordance with the Regulation 268 of SEBI (ICDR) Regulations, the minimum number of allottees in this Issue shall be 50 shareholders. In case the minimum number of prospective allottees is less than 50, no allotment will be made pursuant to this Issue and the monies blocked by the SCSBs shall be unblocked within 4 working days of closure of Issue.

JURISDICTION

Exclusive jurisdiction for the purpose of this Issue is with the competent courts/ authorities in Jaipur, Rajasthan, India.

The Equity Shares have not been and will not be registered under the U.S. Securities Act or any state securities laws in the United States and may not be issued or sold within the United States or to, or for the account or benefit of, “U.S. persons” (as defined in Regulation S), except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and applicable U.S. state securities laws. Accordingly, the Equity Shares are being issued and sold only outside the United States in offshore transactions in reliance on Regulations under the U.S. Securities Act and the applicable laws of the jurisdiction where those issues and sales occur.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be issued or sold, and applications may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction.

JOINT HOLDERS

Where two or more persons are registered as the holders of any Equity Shares, they shall be deemed to hold the same as joint tenants with benefits of survivorship.

NOMINATION FACILITY TO INVESTORS

In accordance with Section 72 of the Companies Act, 2013 the sole applicant, or the first applicant along with other joint applicants, may nominate any one person in whom, in the event of the death of sole applicant or in case of joint applicants, death of all the applicants, as the case may be, the Equity Shares allotted, if any, shall vest. A person, being a nominee, entitled to the Equity Shares by reason of the death of the original holder(s), shall be entitled to the same advantages to which he or she would be entitled if he or she were the registered holder of the Equity Share(s). Where the nominee is a minor, the holder(s) may make a nomination to appoint, in the prescribed manner, any person to become entitled to equity share(s) in the event of his or her death during the minority. A nomination shall stand rescinded upon a sale / transfer / alienation of equity share(s) by the person nominating. A buyer will be entitled to make a fresh nomination in the manner prescribed. Fresh nomination can be made only on the prescribed form available on request at our Registered Office or with the registrar and transfer agents of our Company.

Any person who becomes a nominee by virtue of the provisions of Section 72 of the Companies Act, 2013, shall upon the production of such evidence as may be required by the Board, elect either:

- a) To register himself or herself as the holder of the Equity Shares; or
- b) To make such transfer of the Equity Shares, as the deceased holder could have made.

Further, the Board may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the Equity Shares, and if the notice is not complied with within a period of ninety days, the Board may thereafter withhold payment of all dividends, bonuses or other moneys payable in respect of the Equity Shares, until the requirements of the notice have been complied with.

Since the Allotment of Equity Shares in the Issue will be made only in dematerialized mode there is no need to make a separate nomination with our Company. Nominations registered with respective depository participant of the bidder would prevail. If the investor wants to change the nomination, they are requested to inform their respective depository participant.

WITHDRAWAL OF THE ISSUE

Our Company, in consultation with the Book Running Lead Manager, reserves the right to not proceed with the Issue after the Issue Opening Date but before the allotment. In such an event, our Company would issue a public notice in the newspapers in which the pre-Issue advertisements were published, within two days of the Issue Closing Date or such other time as may be prescribed by SEBI, providing reasons for not proceeding with the Issue. The Book Running Lead Manager through, the Registrar to the Issue, shall notify the SCSBs and the Sponsor Bank to unblock the bank accounts of the ASBA Bidders within one Working Day from the date of receipt of such notification. Our Company shall also inform the same to the Stock Exchanges on which Equity Shares are proposed to be listed.

Notwithstanding the foregoing, this Issue is also subject to obtaining (i) the final listing and trading approvals of the Stock Exchange, which our Company shall apply for after Allotment, and (ii) the final RoC approval of the Prospectus after it is registered with the RoC. If our Company withdraws the Issue after the Issue Closing Date and thereafter determines that it will proceed with an Issue of the Equity Shares, our Company shall file a fresh Draft Red Herring Prospectus with Stock Exchange.

The General Information Document is available on the websites of the Stock Exchange(s) and the BRLM. Please refer to the relevant provisions of the General Information Document, which are applicable to the Issue.

Additionally, all Bidders may refer to the General Information Document for information in relation to (i) category of investors eligible to participate in the Issue; (ii) maximum and minimum Bid size; (iii) price discovery and allocation; (iv) payment instructions for ASBA Bidders/Applicants; (v) issuance of Confirmation of Allocation Note (“**CAN**”) and Allotment in the Issue; (vi) price discovery and allocation (vii) general instructions (limited to instructions for completing the Bid cum Application Form); (viii) designated date; (ix) disposal of applications; (x) submission of Bid cum Application Form; (xi) other instructions (limited to joint bids in cases of individual, multiple bids and instances when an application would be rejected on technical grounds); (xii) applicable of Companies Act 2013 relating to punishment for fictitious applications; (xiii) mode of making refunds; and (xiv) interest in case of delay in Allotment or refund.

SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2018/138 dated November 1, 2018 read with its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/50 dated April 3, 2019, and circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, has introduced an alternate payment mechanism using Unified Payments Interface (“**UPI**”) and consequent reduction in timelines for listing in a phased manner. From January 1, 2019, the UPI Mechanism for RIBs applying through Designated Intermediaries was made effective along with the existing process and existing timeline of T+6 days. (“**UPI Phase I**”). The UPI Phase I was effective till June 30, 2019.

With effect from July 1, 2019, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, read with circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019 with respect to Bids by RIBs through Designated Intermediaries (other than SCSBs), the existing process of physical movement of forms from such Designated Intermediaries to SCSBs for blocking of funds has been discontinued and only the UPI Mechanism for such Bids with existing timeline of T+6 days was mandated for a period of three months or launch of five main board public issues, whichever is later (“**UPI Phase II**”). Subsequently, however, SEBI vide its circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019 extended the timeline for implementation of UPI Phase II till March 31, 2020. Moreover, given the prevailing uncertainty due to the COVID- 19 pandemic, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020, has decided to continue with the UPI Phase II till further notice. The final reduced timeline will be made effective using the UPI Mechanism for applications by RIBs (“**UPI Phase III**”), as may be prescribed by SEBI. The Issue will be undertaken pursuant to the processes and procedures under UPI Phase II, subject to any circulars, clarification or notification issued by the SEBI from time to time. Further, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021 read with the circular no. SEBI/HO/CFD/DIL1/CIR/P/2021/47 dated March 31, 2021, circular no. SEBI/HO/CFD/DIL2/ P/CIR/2021/570 dated June 02, 2021, and circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022 has introduced certain additional measures for streamlining the process of initial public offers and redressing investor grievances. This circular shall come into force for initial public offers opening on or after May 1, 2021 except as set out in circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 and the provision of this circular are deemed

to form part of this Prospectus.

Furthermore, pursuant to circular no. SEBI/HO/CFD/DIL2/P/CIR/P/2022/45 dated April 5, 2022, all individual bidders in initial public offerings (opening on or after May 1, 2022) whose application sizes are up to Rs. 5,00,000 shall use the UPI Mechanism. This circular has come into force for initial public offers opening on or after May 1, 2022 and the provisions of this circular are deemed to form part of this Prospectus. Subsequently, pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/ 2022/75 dated May 30, 2022, applications made using the ASBA facility in initial public offerings (opening on or after September 1, 2022) shall be processed only after application monies are blocked in the bank accounts of investors (all categories).

The BRLM shall be the nodal entity for any issues arising out of public issuance process. In terms of regulation 23(4), 23(5) and regulation 271 of SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018, in SEBI Circular. No. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 08, 2019, the timelines, processes and compensation policy shall continue to form part of the agreements being signed between the intermediaries involved in the public issuance process and book running lead manager shall continue to coordinate with intermediaries involved in the said process.

Our Company and the Book Running Lead Manager do not accept any responsibility for the completeness and accuracy of the information stated in this Section and is not liable for any amendment, modification or change in the applicable law which may occur after the date of this Prospectus. Bidders are advised to make their independent investigations and ensure that their Bids are submitted in accordance with applicable laws and do not exceed the investment limits or maximum number of the Equity Shares that can be held by them under applicable law or as specified in the Red Herring Prospectus and this Prospectus.

Further, Our Company and the Book Running Lead Manager are not liable for any adverse occurrence's consequent to the implementation of the UPI Mechanism for Bid in this Issue.

BOOK BUILDING PROCEDURE

In terms of Rule 19(2)(b)(i) of the Securities Contracts (Regulation) Rules, 1957, as amended (the "SCRR") read with Regulation 252 of SEBI ICDR Regulations, 2018, the Issue has been made for at least 25% of the post-Issue paid-up Equity Share capital of our Company. The Issue is being made under Regulation 229(2) of Chapter IX of SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018 via book building process.

The allocation to the public will be made as per Regulation 253 of SEBI ICDR Regulations, wherein not more than 50% of the Net Issue shall be allocated on a proportionate basis to QIBs. Further, 5% of the QIB Portion shall be available for allocation on a proportionate basis only to Mutual Funds, and the remainder of the QIB Portion shall be available for allocation on a proportionate basis to all QIBs, including Mutual Funds, subject to valid Bids being received at or above the Issue Price. Further, not less than 15% of the Net Issue shall be available for allocation on a proportionate basis to Non-Institutional Investors and not less than 35% of the Net Issue shall be available for allocation to Retail Individual Investors in accordance with the SEBI ICDR Regulations, subject to valid Bids being received at or above the Issue Price.

Accordingly, we have allocated the Net Issue i.e., not more than 50% of the Net Issue shall be available for allocation to Retail Individual Bidders and not more than 50% of the Net Issue shall be available for allocation to Non institutional bidders. There are no equity shares reserved for allocation to QIB category. However, QIBs can apply in the Non – Institutional Category.

Subject to valid Bids being received at or above the Issue Price, under subscription, if any, in any category, except the QIB Portion, would be allowed to be met with spill-over from any other category or a combination of categories at the discretion of our Company and the in consultation with the BRLM and the Stock Exchange. However, under-subscription, if any, in the QIB Portion will not be allowed to be met with spill-over from other categories or a combination of categories.

The Equity Shares, on Allotment, shall be traded only in the dematerialized segment of the Stock Exchanges.

Bidders should note that the Equity Shares will be allotted to all successful Bidders only in dematerialized form. The Bid cum Application Forms which do not have the details of the Bidders' depository account, including DP ID, Client ID and PAN and UPI ID (for RIBs using the UPI Mechanism), shall be treated as incomplete and will be rejected. Bidders will not have the option of being Allotted Equity Shares in physical form.

Investors must ensure that their PAN is linked with Aadhaar and are in compliance with the notification dated February 13, 2020 issued by the Central Board of Direct Taxes and the press release dated June 25, 2021.

PHASED IMPLEMENTATION OF UPI FOR BIDS BY RETAIL INDIVIDUAL BIDDERS AS PER THE UPI CIRCULAR

SEBI has issued the SEBI UPI circulars in relation to streamlining the process of public issue of, among others, equity shares. Pursuant to the SEBI UPI Circulars, the UPI mechanism has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under the ASBA) for Bids by UPI Bidders through designated intermediaries with the objective to reduce the time duration from public issue closure to listing from six Working Days to up to three Working Days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI payment Mechanism, the SEBI UPI Circular have introduced the UPI Mechanism in three phases in the following manner:

- **Phase I:** This phase was applicable from January 1, 2019 until March 31, 2019 or floating of five main board public issues, whichever was later. Subsequently, the timeline for implementation of Phase I was extended till June 30, 2019. Under this phase, a Retail Individual Bidder had the option to submit the ASBA Form with any of the designated intermediaries and use his / her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing continue to be six Working Days.
- **Phase II:** This phase has become applicable from July 1, 2019 and was to initially continue for a period of three months or floating of five main board public issues, whichever is later. SEBI, vide its circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019 has decided to extend the timeline for implementation of UPI Phase II until March 31, 2020. Subsequently, SEBI, vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020 extended the timeline for implementation of UPI Phase II till further notice. Under this phase, submission of the ASBA Form by UPI Bidders through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds has been discontinued and replaced by the UPI Mechanism. However, the time duration from public issue closure to listing continues to be six Working Days during this phase.
- **Phase III:** The commencement period of Phase III is yet to be notified by SEBI. In this phase, the time duration from public issue closure to listing would be reduced to three Working Days.

Accordingly, upon commencement of Phase III, the reduced time duration shall be applicable for the Issue.

Pursuant to the SEBI UPI Circular, SEBI has set out specific requirements for redressal of investor grievances for applications that have been made through the UPI Mechanism. The requirements of the SEBI UPI Circular include, appointment of a nodal officer by the SCSB and submission of their details to SEBI, the requirement for SCSBs to send SMS alerts for the blocking and unblocking of UPI mandates, the requirement for the Registrar to submit details of cancelled, withdrawn or deleted applications, and the requirement for the bank accounts of unsuccessful Bidders to be unblocked not later than one day from the date on which the Basis of Allotment is finalised. Failure to unblock the accounts within the timeline would result in the SCSBs being penalised under the relevant securities law. Additionally, if there is any delay in the redressal of investors' complaints in this regard, the relevant SCSB as well as the post – Issue BRLM will be required to compensate the concerned investor.

The Issue will be made under UPI Phase II of the SEBI UPI Circulars, unless UPI Phase III of the SEBI UPI Circulars becomes effective and applicable on or prior to the Bid/ Issue Opening Date. If the Issue is made under UPI Phase III of the SEBI UPI Circulars, the same will be advertised in all editions of Business Standard, English national daily newspaper and all editions of Business Standard, Hindi national daily newspaper and all editions of Business Remedies, Hindi national daily newspaper in Jaipur (Hindi also being the regional language of Jaipur, where our Registered and Corporate Office is located), each with wide circulation, on or prior to the Bid/ Issue Opening Date and such advertisement shall also be made available to the Stock Exchanges for the purpose of uploading on their websites.

All SCSBs offering the facility of making applications in public issues shall also provide the facility to make application using UPI. Our Company will be required to appoint one of the SCSBs as a Sponsor Bank to act as a conduit between the Stock Exchanges and NPCI in order to facilitate collection of requests and/ or payment instructions of the UPI Bidders using the UPI Mechanism.

The processing fees for applications made by UPI Bidders using the UPI Mechanism may be released to the remitter banks (SCSBs) only after such banks make an application as prescribed in Annexure I of SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/51 dated April 20, 2022 and provide a written confirmation on compliance with SEBI circular no. SEBI/HO/CFD/DIL2/P/CIR/2021/570 dated June 2, 2021 read with SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2021/2480/1/M dated March 16, 2021.

Further, pursuant to SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2022/45 dated April 5, 2022, all UPI Bidders applying in public issues where the application amount is up to Rs. 500,000 shall use the UPI Mechanism and shall also provide their UPI ID in the Bid cum Application Form submitted with any of the entities mentioned herein below:

- i) a syndicate member
- ii) a stock broker registered with a recognized stock exchange (and whose name is mentioned on the website of the stock exchange as eligible for this activity) ("**broker**")
- iii) a depository participant ("**DP**") (whose name is mentioned on the website of the stock exchange as eligible for this activity)
- iv) a registrar to an Issue and shares transfer agent ("**RTA**") (whose name is mentioned on the website of the stock exchange as eligible for this activity)

For further details, refer to the General Information Document to be available on the website of the Stock Exchange and the BRLM.

BID CUM APPLICATION FORM

Copies of the Bid cum Application Form and the abridged prospectus will be available at the offices of the BRLM, the Designated Intermediaries at relevant Bidding Centers, and at the Registered Office & Corporate Office of our Company. *Excluding electronic Bid cum Application Form.

[^] Electronic Bid cum Application Form and the abridge prospectus will be made available for download on the website of the BSE (www.bseindia.com)

In case of ASBA Forms, the relevant Designated Intermediaries shall upload the relevant Bid details (including UPI ID in case of ASBA Forms under the UPI Mechanism) in the electronic bidding system of the Stock Exchanges. Subsequently, for ASBA Forms (other than UPI Bidders using UPI Mechanism), Designated Intermediaries (other than SCSBs) shall submit/ deliver the ASBA Forms to the respective SCSB where the Bidder has an ASBA bank account and shall not submit it to any non-SCSB bank or any Escrow Collection Bank. Stock Exchanges shall validate the electronic bids with the records of the CDP for DP ID/Client ID and PAN, on a real time basis and bring inconsistencies to the notice of the relevant Designated Intermediaries, for rectification and re-submission within the time specified by Stock Exchanges. Stock Exchanges shall allow modification of either DP ID/Client ID or PAN ID, bank code

and location code in the Bid details already uploaded.

For UPI Bidders using the UPI Mechanism, the Stock Exchanges shall share the Bid details (including UPI ID) with the Sponsor Bank on a continuous basis to enable the Sponsor Bank to initiate UPI Mandate Request to UPI Bidders for blocking of funds. The Sponsor Bank shall initiate request for blocking of funds through NPCI to UPI Bidders, who shall accept the UPI Mandate Request for blocking of funds on their respective mobile applications associated with UPI ID linked bank account. The NPCI shall maintain an audit trail for every Bid entered in the Stock Exchanges bidding platform, and the liability to compensate UPI Bidders (Bidding through UPI Mechanism) in case of failed transactions shall be with the concerned entity (i.e. the Sponsor Bank, NPCI or the issuer bank) at whose end the lifecycle of the transaction has come to a halt. The NPCI shall share the audit trail of all disputed transactions/ investor complaints to the Sponsor Bank and the issuer bank. The Sponsor Bank and the Bankers to the Issue shall provide the audit trail to the Book Running Lead Manager for analysing the same and fixing liability

The Sponsor Bank will undertake a reconciliation of Bid responses received from Stock Exchanges and sent to NPCI and will also ensure that all the responses received from NPCI are sent to the Stock Exchanges platform with detailed error code and description, if any. Further, the Sponsor Bank will undertake reconciliation of all Bid requests and responses throughout their lifecycle on daily basis and share reports with the Book Running Lead Manager in the format and within the timelines as specified under the SEBI UPI Circulars. Sponsor Bank and issuer banks shall download UPI settlement files and raw data files from the NPCI portal after every settlement cycle and do a three way reconciliation with Banks UPI switch data, CBS data and UPI raw data. NPCI is to coordinate with issuer banks and Sponsor Bank(s) on a continuous basis.

For all pending UPI Mandate Requests, the Sponsor Bank shall initiate requests for blocking of funds in the ASBA Accounts of relevant Bidders with a confirmation cut-off time of 12:00 pm on the first Working Day after the Bid/Issue Closing Date (“**Cut-Off Time**”). Accordingly, UPI Bidders Bidding using through the UPI Mechanism should accept UPI Mandate Requests for blocking off funds prior to the Cut-Off Time and all pending UPI Mandate Requests at the Cut-Off Time shall lapse.

The Sponsor Bank shall host a web portal for intermediaries (closed user group) from the date of Bid/Issue Opening Date till the date of listing of the Equity Shares with details of statistics of mandate blocks/unblocks, performance of apps and UPI handles, down-time/network latency (if any) across intermediaries and any such processes having an impact/bearing on the Issue Bidding process.

Further, Intermediaries shall retain physical bid cum application forms submitted by retail individual investors with UPI as a payment mechanism, for a period of six months and thereafter forward the same to the issuer/ Registrar to the Issue. However, in case of electronic forms, “**printouts**” of such Bids need not be retained or sent to the issuer. Intermediaries shall, at all times, maintain the electronic records relating to such forms for a minimum period of three years.

ELECTRONIC REGISTRATION OF BIDS

- a) The Designated Intermediary may register the Bids using the on-line facilities of the Stock Exchanges. The Designated Intermediaries can also set up facilities for off-line electronic registration of Bids, subject to the condition that they may subsequently upload the off-line data file into the on-line facilities for Book Building on a regular basis before the closure of the Issue.
- b) On the Bid/Issue Closing Date, the Designated Intermediaries may upload the Bids till such time as may be permitted by the Stock Exchanges and as disclosed in the Prospectus.

- c) Only Bids that are uploaded on the Stock Exchanges Platform are considered for allocation/Allotment. The Designated Intermediaries are given till 1:00 pm on the next Working Day following the Bid/Issue Closing Date to modify select fields uploaded in the Stock Exchange Platform during the Bid/Issue Period after which the Stock Exchange(s) send the bid information to the Registrar to the Issue for further processing.

Only Bids accompanied by payment in Indian Rupees or freely convertible foreign exchange will be considered for Allotment. Eligible NRIs may obtain copies of Bid cum Application Form from the Designated Intermediaries.

Eligible NRI Bidders Bidding on a repatriation basis by using the Non-Resident Forms should authorise their SCSB (if they are Bidding directly through the SCSB) or confirm or accept the UPI Mandate Request (in case of UPI Bidders Bidding through the UPI Mechanism) to block their Non-Resident External ("NRE") accounts, or Foreign Currency Non-Resident ("FCNR") Accounts, and Eligible NRI Bidders Bidding on a non-repatriation basis by using Resident Forms should authorise their respective SCSBs (if they are Bidding directly through SCSB) or confirm or accept the UPI Mandate Request (in case of UPI Bidders Bidding through the UPI Mechanism) to block their Non-Resident Ordinary ("NRO") accounts for the full Bid Amount, at the time of the submission of the Bid cum Application Form.

In accordance with the FEMA Rules, the total holding by any individual NRI, on a repatriation basis, shall not exceed 5% of the total paid-up equity capital on a fully diluted basis or shall not exceed 5% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all NRIs and OCIs put together shall not exceed 10% of the total paid-up equity capital on a fully diluted basis or shall not exceed 10% of the paid-up value of each series of debentures or preference shares or share warrant. Provided that the aggregate ceiling of 10% may be raised to 24% if a special resolution to that effect is passed by the general body of the Indian company.

Eligible NRIs will be permitted to apply in the Issue through Channel I or Channel II (as specified in the SEBI UPI Circulars). Further, subject to applicable law, Eligible NRIs may use Channel IV (as specified in the SEBI UPI Circulars) to apply in the Issue, provided the UPI facility is enabled for their NRE/NRO accounts.

For details of restrictions on investment by NRIs, see “Restrictions on Foreign Ownership of Indian Securities” on page 402.

Participation of Eligible NRIs in the Issue shall be subject to the FEMA Rules.

BIDS BY HUFs

Bids by HUFs, should be made in the individual name of the Karta. The Bidder/Applicant should specify that the Bid is being made in the name of the HUF in the Bid cum Application Form/Application Form as follows: “Name of sole or First Bidder/Applicant: XYZ Hindu Undivided Family applying through XYZ, where XYZ is the name of the Karta”. Bids/Applications by HUFs will be considered at par with Bids/Applications from individuals.

BIDS BY FPIS

In terms of the SEBI FPI Regulations, the investment in Equity Shares by a single FPI or an investor group (which means multiple entities registered as FPIs and directly or indirectly having common ownership of more than 50% or common control) must be below 10% of the post-Issue Equity Share capital. Further, in terms of the FEMA Rules, the total holding by each FPI or an investor group shall be below 10% of the total paid-up Equity Share capital of our Company. With effect from April 1, 2020, the aggregate limit by FPIs shall be the sectoral caps applicable to the Indian company as prescribed in the FEMA Rules with respect to its paid-up equity capital on a fully diluted basis. While the aggregate limit as provided above could have been decreased by the concerned Indian companies to a lower threshold limit of 24% or 49% or 74% as deemed fit, with the approval of its board of directors and its shareholders through a resolution and a special resolution, respectively before March 31, 2020, our Company has not decreased such limit and accordingly the applicable limit with respect to our Company is 100%. In terms of the FEMA Rules, for calculating the aggregate holding of FPIs in a company, holding of all registered FPIs shall be included.

In case of Bids made by FPIs, a certified copy of the certificate of registration issued under the SEBI FPI Regulations is required to be attached to the Bid cum Application Form, failing which our Company, in consultation with the Book Running Lead Manager, reserves the right to reject any Bid without assigning any reason. FPIs who wish to participate in the Issue are advised to use the Bid cum Application Form for Non- Residents (Blue in colour).

A FPI may purchase or sell equity shares of an Indian company which is listed or to be listed on a recognised stock exchange in India, and/or may purchase or sell securities other than equity instruments.

FPIs are permitted to participate in the Issue subject to compliance with conditions and restrictions which may be specified by the Government from time to time.

To ensure compliance with the applicable limits, SEBI, pursuant to its circular dated July 13, 2018, has directed that at the time of finalisation of the Basis of Allotment, the Registrar to the Issue shall:

- (i) use the PAN issued by the Income Tax Department of India for checking compliance for a single FPI, and
- (ii) obtain validation from Depositories for the FPIs who have invested in the Issue to ensure there is no breach of the investment limit, within the timelines for issue procedure, as prescribed by SEBI from time to time.

Subject to compliance with all applicable Indian laws, rules, regulations, guidelines and approvals in terms of Regulation 21 of the SEBI FPI Regulations, an FPI, may issue, subscribe to or otherwise deal in offshore derivative instruments (as defined under the SEBI FPI Regulations as any instrument, by whatever name called, which is issued overseas by an FPI against securities held by it in India, as its underlying) directly or indirectly, only in the event (i) such offshore derivative instruments are issued only by persons registered as Category I FPIs, (ii) such offshore derivative instruments are issued only to persons eligible for registration as Category I FPIs, (iii) such offshore derivative instruments are issued after compliance with “know your client” norms, and (iv) such other conditions as may be specified by SEBI from time to time.

An FPI issuing offshore derivative instruments is also required to ensure that any transfer of offshore derivative instrument is made by, or on behalf of it subject to, among others, the following conditions:

- a) each offshore derivative instruments are transferred to persons subject to fulfilment of SEBI FPI Regulations; and
- b) prior consent of the FPI is obtained for such transfer, except when the persons to whom the offshore derivative instruments are to be transferred to are pre-approved by the FPI.

Further, Bids by following FPIs, submitted with the same PAN but with different beneficiary account numbers, Client IDs and DP IDs may not be regarded as multiple Bids:

- FPIs which utilise the multi-investment manager (“MIM”) structure.
- Offshore derivative instruments (“ODI”) which have obtained separate FPI registration for ODI and proprietary derivative investments.
- Sub funds or separate class of investors with segregated portfolio who obtain separate FPI registration.
- FPI registrations granted at investment strategy level/sub fund level where a collective investment scheme or fund has multiple investment strategies/sub-funds with identifiable differences and managed by a single investment manager.
- Multiple branches in different jurisdictions of foreign bank registered as FPIs.
- Government and Government related investors registered as Category I FPIs.
- Entities registered as collective investment scheme having multiple share classes.

The Bids belonging to the aforesaid seven structures and having same PAN may be collated and identified as a single Bid in the Bidding process. The Equity Shares allotted in the Bid may be proportionately distributed to the applicant FPIs (with same PAN). In order to ensure valid Bids, FPIs making multiple Bids using the same PAN, and with different beneficiary account numbers, Client IDs and DP IDs, are required to provide a confirmation along with each of their Bid cum Application Forms that the relevant FPIs making multiple Bids utilise any of the above-mentioned structures and indicate the name of their respective investment managers in such confirmation.

In the absence of such confirmation from the relevant FPIs, such multiple Bids shall be rejected.

BIDS BY SEBI REGISTERED AIFS, VCFS AND FVCIS

The SEBI AIF Regulations prescribe, among others, the investment restrictions on AIFs. Post the repeal of the SEBI VCF Regulations, the VCFS which have not re-registered as an AIF under the SEBI AIF Regulations shall continue to be regulated by the SEBI VCF Regulations until the existing fund or scheme managed by the fund is wound up and such fund shall not launch any new scheme after the notification of the SEBI AIF Regulations. The SEBI FVCI Regulations prescribe the investment restrictions on FVCIs. Category I AIFs and Category II AIFs cannot invest more than 25% of the investible

funds in one investee company directly or through investment in the units of other AIFs. A category III AIF cannot invest more than 10% of the investible funds in one investee company directly or through investment in the units of other AIFs. A VCF registered as a Category I AIF, as defined in the SEBI AIF Regulations, cannot invest more than one-third of its investible funds by way of subscription to an initial public offering of a venture capital undertaking.

The holding in any company by any individual VCF or FVCI registered with SEBI should not exceed 25% of the corpus of the VCF or FVCI. Further, VCFs and FVCIs can invest only up to 33.33% of the investible funds in various prescribed instruments, including in initial public offerings.

Further, the shareholding of VCFs, Category I AIFs or Category II AIFs and FVCIs in a company prior to an initial public offering being undertaken by such company, shall be exempt from lock-in requirements, provided that such equity shares shall be locked in for a period of at least six months from the date of purchase by the VCF or AIF or FVCI. However, if such VCFs, Category I AIFs or Category II AIFs and FVCIs hold individually or with persons acting in concert, more than 20% of the pre-issue shareholding of such company, this exemption from lock-in requirements will not be applicable.

There is no reservation for Eligible NRIs, AIFs, FPIs and FVCIs. All such Bidders will be treated on the same basis with other categories for the purpose of allocation. Participation of VCFs, AIFs or FVCIs in the Issue shall be subject to the FEMA Rules.

All non-resident investors should note that refunds (in case of Anchor Investors), dividends and other distributions, if any, will be payable in Indian Rupees only and net of bank charges and commission. Our Company, the Selling Shareholders or the Book Running Lead Manager will not be responsible for loss, if any, incurred by the Bidder on account of conversion of foreign currency.

BIDS BY LIMITED LIABILITY PARTNERSHIPS

In case of Bids made by limited liability partnerships registered under the Limited Liability Partnership Act, 2008, a certified copy of certificate of registration issued under the Limited Liability Partnership Act, 2008, must be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the Book Running Lead Manager, reserves the right to reject any Bid without assigning any reason thereof.

BIDS BY BANKING COMPANIES

In case of Bids made by banking companies registered with RBI, certified copies of: (i) the certificate of registration issued by RBI, and (ii) the approval of such banking company's investment committee are required to be attached to the Bid cum Application Form, failing which our Company, in consultation with the Book Running Lead Manager, reserves the right to reject any Bid without assigning any reason.

The investment limit for banking companies in non-financial services companies as per the Banking Regulation Act, 1949, as amended, ("**Banking Regulation Act**"), and the Master Directions - Reserve Bank of India (Financial Services provided by Banks) Directions, 2016, as amended, is 10% of the paid-up share capital of the investee company, not being its subsidiary engaged in non-financial services, or 10% of the banking company's paid-up share capital and reserves, whichever is lower.

However, a banking company would be permitted to invest in excess of 10% but not exceeding 30% of the paid up share capital of such investee company if (i) the investee company is engaged in non-financial activities permitted for banking companies in terms of Section 6(1) of the Banking Regulation

Act, (ii) the additional acquisition is through restructuring of debt, or to protect the banking company's interest on loans/investments made to a company, (iii) hold along with its subsidiaries, associates or joint ventures or entities directly or indirectly controlled by the bank, and mutual funds managed by asset management companies controlled by the bank, more than 20% of the investee company's paid up share capital engaged in non-financial services. However, this cap does not apply to the cases mentioned in (i) and (ii) above.

Further, the aggregate investment by a banking company in all its subsidiaries and other entities engaged in financial services and non-financial services, including overseas investments, cannot exceed 20% of the banking company's paid-up share capital and reserves.

The banking company is required to submit a time-bound action plan for disposal of such shares within a specified period to RBI. A banking company would require a prior approval of RBI to make (i) investment in a subsidiary or a financial services company that is not a subsidiary (with certain exceptions prescribed), and (ii) investment in a non-financial services company in excess of 10% of such investee company's paid-up share capital as stated in para 5(a)(v)(c)(i) of the Reserve Bank of India (Financial Services provided by Banks) Directions, 2016, as amended.

BIDS BY SCSBS

SCSBs participating in the Issue are required to comply with the terms of the circulars dated September 13, 2012 and January 2, 2013 issued by SEBI. Such SCSBs are required to ensure that for making applications on their own account using ASBA, they should have a separate account in their own name with any other SEBI registered SCSBs. Further, such account shall be used solely for the purpose of making application in public issues and clear demarcated funds should be available in such account for such Bids.

BIDS BY INSURANCE COMPANIES

In case of Bids made by insurance companies registered with the IRDA, a certified copy of certificate of registration issued by IRDAI must be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the Book Running Lead Manager, reserves the right to reject any Bid without assigning any reason thereof. The exposure norms for insurers are prescribed under Regulation 9 of the Insurance Regulatory and Development Authority of India (Investment) Regulations, 2016 ("**IRDAI Investment Regulations**"), and are based on investments in the equity shares of a company, the entire group of the investee company and the industry sector in which the investee company operates. Bidders are advised to refer to the IRDAI Investment Regulations 2016, as amended, which are broadly set forth below:

- (a) equity shares of a company: the lower of 10%* of the outstanding equity shares (face value) or 10% of the respective fund in case of life insurer or 10% of investment assets in case of general insurer or reinsurer;
- (b) the entire group of the investee company: not more than 15% of the respective fund in case of a life insurer or 15% of investment assets in case of a general insurer or reinsurer or 15% of the investment assets in all companies belonging to the group, whichever is lower; and
- (c) the industry sector in which the investee company operates: not more than 15% of the fund of a life insurer or a general insurer or a reinsurer or 15% of the investment asset, whichever is lower.

The maximum exposure limit, in the case of an investment in equity shares, cannot exceed the lower of an amount of 10% of the investment assets of a life insurer or general insurer and the amount

calculated under (a), (b) and (c) above, as the case may be.

*The above limit of 10% shall stand substituted as 15% of outstanding equity shares (face value) for insurance companies with investment assets of Rs.2,50,00,000 Lakhs or more and 12% of outstanding equity shares (face value) for insurers with investment assets of Rs.5,00,00,000 Lakhs or more but less than Rs.2,50,00,000 Lakhs.

Insurance companies participating in this Issue shall comply with all applicable regulations, guidelines and circulars issued by IRDAI, from time to time, including the IRDAI Investment Regulations for specific investment limits applicable to them.

BIDS BY NBFC-SI

In case of Bids made by NBFC-SI, a certified copy of the certificate of registration issued by RBI, a certified copy of its last audited financial statements on a standalone basis and a net worth certificate from its statutory auditor(s), must be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the Book Running Lead Manager, reserves the right to reject any Bid, without assigning any reason thereof. NBFC-SI participating in the Issue shall comply with all applicable regulations, guidelines and circulars issued by RBI from time to time.

The investment limit for Systemically Important NBFCs shall be as prescribed by RBI from time to time. In accordance with existing regulations issued by RBI, OCBs cannot participate in this Issue.

BIDS UNDER POWER OF ATTORNEY

In case of Bids made pursuant to a power of attorney by limited companies, corporate bodies, registered societies, eligible FPIs, AIFs, Mutual Funds, insurance companies, NBFC-SI, insurance funds set up by the army, navy or air force of the India, insurance funds set up by the Department of Posts, India or the National Investment Fund and provident funds with a minimum corpus of Rs.250 million (subject to applicable laws) and pension funds with a minimum corpus of Rs.250 million, a certified copy of the power of attorney or the relevant resolution or authority, as the case may be, along with a certified copy of the memorandum of association and articles of association and/or bye laws must be lodged along with the Bid cum Application Form. Failing this, our Company, in consultation with the Book Running Lead Manager, reserves the right to accept or reject any Bid in whole or in part, in either case, without assigning any reason thereof.

Our Company, in consultation with the Book Running Lead Manager, in their absolute discretion, reserve the right to relax the above condition of simultaneous lodging of the power of attorney along with the Bid cum Application Form, subject to such terms and conditions that our Company, in consultation with the Book Running Lead Manager, may deem fit.

BIDS BY PROVIDENT FUNDS/PENSION FUNDS

In case of Bids made by provident funds/pension funds, subject to applicable laws, with minimum corpus of Rs.2,500 Lakhs, a certified copy of certificate from a chartered accountant certifying the corpus of the provident fund/pension fund must be attached to the Bid cum Application Form. Failing this, our Company, in consultation with the Book Running Lead Manager, reserves the right to reject any Bid, without assigning any reason therefor.

The above information is given for the benefit of the Bidders. Our Company and the Book Running Lead Manager are not liable for any amendments or modification or changes in applicable laws or

regulations, which may occur after the date of this Prospectus. Bidders are advised to make their independent investigations and ensure that any single Bid from them does not exceed the applicable investment limits or maximum number of the Equity Shares that can be held by them under applicable laws or regulation and as specified in the Red Herring Prospectus and this Prospectus. Information for Bidders.

The relevant Designated Intermediary will enter a maximum of three Bids at different price levels opted in the Bid cum Application Form and such options are not considered as multiple Bids. It is the Bidder's responsibility to obtain the acknowledgment slip from the relevant Designated Intermediary. The registration of the Bid by the Designated Intermediary does not guarantee that the Equity Shares shall be allocated/Allotted. Such acknowledgement slip will be non-negotiable and by itself will not create any obligation of any kind. When a Bidder revises his or her Bid, he /she shall surrender the earlier acknowledgement slip and may request for a revised acknowledgment slip from the relevant Designated Intermediary as proof of his or her having revised the previous Bid.

In relation to electronic registration of Bids, the permission given by the Stock Exchanges to use their network and software of the electronic bidding system should not in any way be deemed or construed to mean that the compliance with various statutory and other requirements by our Company and/or the Book Running Lead Manager are cleared or approved by the Stock Exchanges, nor does it in any manner warrant, certify or endorse the correctness or completeness of compliance with the statutory and other requirements, nor does it take any responsibility for the financial or other soundness of our Company, the management or any scheme or project of our Company, nor does it in any manner warrant, certify or endorse the correctness or completeness of any of the contents of this Prospectus, nor does it warrant that the Equity Shares will be listed or will continue to be listed on the Stock Exchanges.

GENERAL INSTRUCTIONS

Please note that QIBs and Non-Institutional Investors are not permitted to withdraw their Bid(s) or lower the size of their Bid(s) (in terms of quantity of Equity Shares or the Bid Amount) at any stage. Retail Individual Investors can revise their Bid(s) during the Bid/Issue Period and withdraw their Bid(s) until Bid/Issue Closing Date. Anchor Investors are not allowed to withdraw or lower the size of their Bids after the Anchor Investor Bidding Date.

Do's:

1. Check if you are eligible to apply as per the terms of the Red Herring Prospectus and this Prospectus and under applicable law, rules, regulations, guidelines and approvals;
2. Ensure that you have Bid within the Price Band;
3. Ensure that you (other than the Anchor Investors) have mentioned the correct ASBA Account number (for all Bidders other than UPI Bidders Bidding using the UPI Mechanism) in the Bid cum Application Form and such ASBA account belongs to you and no one else. Further, UPI Bidders using the UPI Mechanism must also mention their UPI ID and shall use only their own bank account which is linked to their UPI ID;
4. UPI Bidders Bidding using the UPI Mechanism shall ensure that the bank, with which they have their bank account, where the funds equivalent to the application amount are available for blocking is UPI 2.0 certified by NPCI before submitting the ASBA Form to any of the Designated Intermediaries;
5. UPI Bidders Bidding using the UPI Mechanism through the SCSBs and mobile applications shall ensure that the name of the bank appears in the list of SCSBs which are live on UPI, as displayed on SEBI website. UPI bidders shall ensure that the name of the app and the UPI handle which is used for making the application appears on the list displayed on SEBI website.

- An application made using incorrect UPI handle or using a bank account of an SCSB or bank which is not mentioned on SEBI website is liable to be rejected;
6. Read all the instructions carefully and complete the Bid cum Application Form in the prescribed form;
 7. Ensure that the details about the PAN, DP ID, Client ID and UPI ID (where applicable) are correct and the Bidders depository account is active, as Allotment of the Equity Shares will be in dematerialised form only;
 8. Ensure that your Bid cum Application Form bearing the stamp of a Designated Intermediary is submitted to the Designated Intermediary at the Bidding Centre within the prescribed time. UPI Bidders using UPI Mechanism, may submit their ASBA Forms with Syndicate Members, Registered Brokers, CRTAs or CDPs and should ensure that the Bid cum Application Form contains the stamp of such Designated Intermediary;
 9. In case of joint Bids, ensure that First Bidder is the ASBA Account holder (or the UPI-linked bank account holder, as the case may be) and the signature of the First Bidder is included in the Bid cum Application Form;
 10. If the First Bidder is not the ASBA Account holder (or the UPI-linked bank account holder, as the case may be), ensure that the Bid cum Application Form is signed by the ASBA Account holder (or the UPI linked bank account holder, as the case may be). Bidders (except UPI Bidders Bidding using the UPI Mechanism) should ensure that they have an account with an SCSB and have mentioned the correct bank account number of that SCSB in the Bid cum Application Form. UPI Bidders Bidding using the UPI Mechanism should ensure that they have mentioned the correct UPI-linked bank account number and their correct UPI ID in the Bid cum Application Form;
 11. All Bidders (other than Anchor Investors) should submit their Bids through the ASBA process only;
 12. Ensure that the name(s) given in the Bid cum Application Form is/are exactly the same as the name(s) in which the beneficiary account is held with the Depository Participant. In case of joint Bids, the Bid cum Application Form should contain only the name of the First Bidder whose name should also appear as the first holder of the beneficiary account held in joint names;
 13. Ensure that you request for and receive a stamped acknowledgment in the form of a counterfoil or by specifying the application number for all your Bid options as proof of registration of the Bid cum Application Form from the concerned Designated Intermediary;
 14. Ensure that you have funds equal to the Bid Amount in the ASBA Account maintained with the SCSB before submitting the Bid cum Application Form under the ASBA process to any of the Designated Intermediaries;
 15. Submit revised Bids to the same Designated Intermediary, through whom the original Bid is placed and obtain a revised acknowledgment;
 16. Except for Bids (i) on behalf of the Central or State Governments and the officials appointed by the courts, who, in terms of a SEBI circular dated June 30, 2008, may be exempt from specifying their PAN for transacting in the securities market, (ii) Bids by persons resident in the state of Sikkim, who, in terms of a SEBI circular dated July 20, 2006, may be exempted from specifying their PAN for transacting in the securities market, and (iii) any other category of Bidders, including without limitation, multilateral/bilateral institutions, which may be exempted from specifying their PAN for transacting in the securities market, all Bidders should mention their PAN allotted under the IT Act. The exemption for the Central or the State Government and officials appointed by the courts and for investors residing in the State of Sikkim is subject to (a) the Demographic Details received from the respective depositories confirming the exemption granted to the beneficiary owner by a suitable description in the PAN field and the beneficiary account remaining in “active status”; and (b) in the case of

- residents of Sikkim, the address as per the Demographic Details evidencing the same. All other applications in which PAN is not mentioned will be rejected;
17. Ensure that the Demographic Details are updated, true and correct in all respects;

 21. Ensure that Bids submitted by any person outside India should be in compliance with applicable foreign and Indian laws;
 22. Bidders (except UPI Bidders Bidding using the UPI Mechanism) should instruct their respective banks to release the funds blocked in the ASBA Account under the ASBA process. UPI Bidders Bidding using the UPI Mechanism, should ensure that they approve the UPI Mandate Request generated by the Sponsor Bank to authorise blocking of funds equivalent to application amount and subsequent debit of funds in case of Allotment, in a timely manner;
 23. Note that in case the DP ID, Client ID and the PAN mentioned in their Bid cum Application Form and entered into the online IPO system of the Stock Exchanges by the relevant Designated Intermediary, as the case may be, do not match with the DP ID, Client ID and PAN available in the Depository database, then such Bids are liable to be rejected;
 24. Ensure that while Bidding through a Designated Intermediary, the Bid cum Application Form (other than for Anchor Investors and Retail Individual Investors) is submitted to a Designated Intermediary in a Bidding Centre and that the SCSB where the ASBA Account, as specified in the ASBA Form, is maintained has named at least one branch at that location for the Designated Intermediary to deposit ASBA Forms (a list of such branches is available on the website of SEBI at www.sebi.gov.in);
 25. Ensure that you have correctly signed the authorisation/undertaking box in the Bid cum Application Form, or have otherwise provided an authorisation to the SCSB via the electronic mode, for blocking funds in the ASBA Account equivalent to the Bid Amount mentioned in the Bid cum Application Form at the time of submission of the Bid;
 26. UPI Bidders Bidding using the UPI Mechanism shall ensure that details of the Bid are reviewed and verified by opening the attachment in the UPI Mandate Request and then proceed to authorise the UPI Mandate Request using their UPI PIN. Upon the authorisation of the mandate using their UPI PIN, the UPI Bidder may be deemed to have verified the attachment containing the application details of the UPI Bidder Bidding using the UPI Mechanism in the UPI Mandate Request and have agreed to block the entire Bid Amount and authorised the Sponsor Bank to issue a request to block the Bid Amount mentioned in the Bid Cum Application Form in their ASBA Account;
 27. UPI Bidders Bidding using the UPI Mechanism should mention valid UPI ID of only the Bidder (in case of single account) and of the First Bidder (in case of joint account) in the Bid cum Application Form;
 28. UPI Bidders Bidding using the UPI Mechanism, who have revised their Bids subsequent to making the initial Bid, should also approve the revised UPI Mandate Request generated by the Sponsor Bank to authorise blocking of funds equivalent to the revised Bid Amount in their account and subsequent debit of funds in case of allotment in a timely manner;
 29. Bids by Eligible NRIs, HUFs and FPIs other than individuals, corporate bodies and family offices, for a Bid Amount of less than Rs.200,000 would be considered under the Retail Category for the purposes of allocation and Bids for a Bid Amount exceeding Rs.200,000 would be considered under the Non- Institutional Category for allocation in the Issue;

30. Ensure that Anchor Investors submit their Bid cum Application Forms only to the Book Running Lead Manager;
31. Ensure that you have accepted the UPI Mandate Request received from the Sponsor Bank prior to 12:00 p.m. of the Working Day immediately after the Bid/ Issue Closing Date; and
32. FPIs making MIM Bids using the same PAN, and different beneficiary account numbers, Client IDs and DP IDs, are required to submit a confirmation that their Bids are under the MIM structure and indicate the name of their investment managers in such confirmation which shall be submitted along with each of their Bid cum Application Forms. In the absence of such confirmation from the relevant FPIs, such MIM Bids shall be rejected.

30. Do not instruct your respective banks to release the funds blocked in the ASBA Account under the ASBA process.

The Bid cum Application Form is liable to be rejected if the above instructions, as applicable, are not complied with.

Further, in case of any pre-Issue or post-Issue related issues regarding share certificates/demat credit/refund orders/unblocking etc., investors shall reach out to the Company Secretary and Compliance Officer. For details of the Company Secretary and Compliance Officer, see “**General Information**” on page 76.

NAMES OF ENTITIES RESPONSIBLE FOR FINALISING THE BASIS OF ALLOTMENT IN A FAIR AND PROPER MANNER

The authorised employees of the Stock Exchanges, along with the Book Running Lead Manager and the Registrar to the Issue, shall ensure that the Basis of Allotment is finalised in a fair and proper manner in accordance with the procedure specified in the SEBI ICDR Regulations.

METHOD OF ALLOTMENT AS MAY BE PRESCRIBED BY SEBI FROM TIME TO TIME

Our Company will not make any Allotment in excess of the Equity Shares Issued through the Issue except in case of oversubscription for the purpose of rounding off to make Allotment, in consultation with the Designated Stock Exchange. Further, upon oversubscription, an Allotment of not more than 10% of the Net Issue may be made for the purpose of making Allotment in minimum Bid Lots.

The Allotment of Equity Shares to applicants other than to the Retail Individual Investors, Non-Institutional Investors and Anchor Investors shall be on a proportionate basis within the respective

investor categories and the number of securities allotted shall be rounded off to the nearest integer, subject to minimum Allotment being equal to the minimum application size as, determined and disclosed.

The Allotment of Equity Shares to each Retail Individual Investor and Non-Institutional Investor shall not be less than the minimum Bid Lot, subject to the availability of Equity Shares in the Retail Individual Investor category and the Non-Institutional Category, respectively, and the remaining available Equity Shares, if any, shall be Allotted on a proportionate basis.

PAYMENT INTO ESCROW ACCOUNT FOR ANCHOR INVESTORS

There are no equity shares reserved for allocation to QIB category. However, QIBs can apply in the Non – Institutional Category. Thus, there are no provisions for allocation of anchor investors in IPO.

ISSUANCE OF CONFIRMATION NOTE (“CAN”) AND ALLOTMENT IN THE ISSUE

- a. Upon approval of the Basis of Allotment by the Designated Stock Exchange. The BRLM or Registrar to the Issue shall send to the SCSBs or Sponsor Bank a list of their Bidders who have been allocated Equity Shares in the Issue.
- b. On the basis of approved Basis of Allotment, the Issuer shall pass necessary corporate action to facilitate the allotment and credit of equity shares. Bidders are advised to instruct their Depository Participants to accept the Equity Shares that may be allotted to them pursuant to the Issue.
- c. The Registrar to the Issue will dispatch an Allotment Advice (CAN) to their Bidders who have been allocated Equity Shares in the Issue. The dispatch of Allotment Advice (CAN) shall be deemed a valid, binding and irrevocable contract for the Allotment to such Bidder.
- d. Issuer will make the allotment of the Equity Shares and initiate corporate action for credit of shares to the successful Bidders Depository Account within 4 working days of the Issue Closing date. The Issuer also ensures the credit of shares to the successful Bidders Depository Account is completed within one working Day from the date of allotment, after the funds are transferred from ASBA Public Issue Account to Public Issue account of the issuer.

TERMS OF PAYMENT

The entire Issue price of Rs. 38/- per share is payable on Bid cum application. In case of allotment of lesser number of Equity Shares than the number applied, the Registrar to the Issue shall instruct the SCSBs or Sponsor Bank to unblock the excess amount blocked.

SCSBs or Sponsor Bank will transfer the amount as per the instruction received by the Registrar to the Public Issue Bank Account, post finalization of basis of Allotment. The balance amount after transfer to the Public Issue Account shall be unblocked by the SCSBs or Sponsor Bank.

The Bidders should note that the arrangement with Bankers to the Issue or the Registrar or Sponsor Bank is not prescribed by SEBI and has been established as an arrangement between our Company, Sponsor Bank, and Bankers to the Issue, the BRLM and the Registrar to the Issue to facilitate collections from the Bidders.

PRICE DISCOVERY AND ALLOCATION

- a) Based on the demand generated at various price levels, our Company in consultation with the BRLM shall finalize the Issue Price.
- b) The SEBI ICDR Regulations, 2018 specify the allocation or Allotment that may be made to various categories of Bidders in an Issue depending on compliance with the eligibility conditions. Certain details pertaining to the percentage of Issue size available for allocation to each category is disclosed overleaf of the Bid cum Application Form and in the DRHP. For details in relation to allocation, the Bidder may refer to the Red Herring Prospectus.
- c) Under-subscription in any category (except QIB Category) is allowed to be met with spill over from any other category or combination of categories at the discretion of the Issuer in consultation with the BRLM and the Designated Stock Exchange and in accordance with the SEBI ICDR Regulations. Unsubscribed portion in QIB Category is not available for subscription to other categories.
- d) In case of under subscription in the Issue, spill-over to the extent of such under-subscription may be permitted from the Reserved Portion to the Issue. For allocation in the event of an under-subscription applicable to the Issuer, Bidders may refer to the Red Herring Prospectus.
- e) Allocation to Anchor Investors, if applicable shall be at the discretion of our Company and in consultation with the BRLM, subject to compliance with the SEBI Regulations.

Illustration of the Book Building and Price Discovery Process

Bidders should note that this example is solely for illustrative purposes and is not specific to the Issue.

Bidders can bid at any price within the Price Band. For instance, assume a Price Band of Rs. 20/- to Rs. 24/- per share, Issue size of 3,000 Equity Shares and receipt of five Bid from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Applied Quantity	Bid Amount (Rs.)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

Price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Issue the desired number of Equity Shares is the price at which the book cuts off, i.e., Rs. 22.00 in the above example. The Issuer in consultation with the BRLM, may finalize the Issue Price at or below such Cut-Off Price, i.e., at or below Rs. 22.00. All Bids at or above this Issue Price and cut-off Bids are valid Bids and are considered for allocation in the respective categories.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991, the FDI Policy, FEMA and rules and regulations made thereunder. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are the RBI and the Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (“**DPIIT**”).

The Government has from time to time made policy pronouncements on FDI through press notes and press releases. The DPIIT consolidated FDI Policy, which with effect from October 15, 2020 consolidates and supersedes all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on October 15, 2020. The Government has also enacted Foreign Exchange Management (Non-debt Instruments) Rules, 2019 and Foreign Exchange Management (Debt Instruments) Rules, 2019 in supersession of Foreign Exchange Management (Transfer or Issue of Security by a Person Resident Outside India) Regulations, 2017 and the Foreign Exchange Management (Acquisition and Transfer of Immovable Property in India) Regulations, 2018.

Investment by Foreign Portfolio Investors (FPIs)

FPIs are permitted to subscribe to Equity Shares of an Indian Company in a public issue without the prior approval of the RBI, so long as the price of the Equity Shares to be issued is not less than the price at which the Equity Shares are issued to residents. SEBI registered FPIs have been permitted to purchase shares of an Indian company through Issue, subject to total FPI investment being within the individual FPI investment limit of below 10% of the total paid-up equity capital of the Indian Company on a fully diluted basis and subject to the aggregate limit of all FPIs put together being 24% of the paid-up equity capital of the Indian company on a fully diluted basis. However, this aggregate limit of 24 % may be increased up to sectoral cap/statutory ceiling, as applicable, by the Indian company concerned by passing a resolution by its Board of Directors followed by passing of a special resolution to that effect by its general body.

With effect from the April 01, 2020, the aggregate limit shall be the sectoral caps applicable to the Indian company as laid out in sub-paragraph (b) of paragraph 3 of Schedule I of the Foreign Exchange Management (Non-debt Instruments) Rules, 2019, with respect to its paid-up equity capital on a fully diluted basis or such same sectoral cap percentage of paid up value of each series of debentures or preference shares or share warrants. The aggregate limit as provided above may be decreased by the Indian company concerned to a lower threshold limit of 24% or 49% or 74% as deemed fit, with the approval of its Board of Directors and its General Body through a resolution and a special resolution, respectively before March 31, 2020. The Indian company which has decreased its aggregate limit to 24% or 49% or 74%, may increase such aggregate limit to 49% or 74% or the sectoral cap or statutory ceiling respectively as deemed fit, with the approval of its Board of Directors and its General Body through a resolution and a special resolution, respectively; however, once the aggregate limit has been increased to a higher threshold, the Indian company cannot reduce the same to a lower threshold.

Subscription by Non-Resident Indians (NRI) or Overseas Citizen of India (OCI) on Repatriation Basis

As per Schedule 3 of the Foreign Exchange Management (Non-debt Instruments) Rules, 2019, a NRI or

OCI may purchase or sell shares of a listed Indian company on repatriation basis, on a recognised stock exchange in India, subject to the conditions that NRIs or OCIs may purchase and sell shares through a branch designated by an authorised dealer for the purpose; and the total holding by any individual NRI or OCI shall not exceed 5% of the total paid-up equity capital on a fully diluted basis or should not exceed 5% of the paid-up value of each series of debentures or preference shares or share warrants issued by an Indian company and the total holdings of all NRIs and OCIs put together shall not exceed 10% of the total paid-up equity capital on a fully diluted basis or shall not exceed 10% of the paid-up value of each series of debentures or preference shares or share warrants. The aggregate ceiling of 10% may be raised to 24% if a special resolution to that effect is passed by the general body of the company.

Investment by NRI or OCI on Non-Repatriation Basis

As per Schedule 4 of the Foreign Exchange Management (Non-debt Instruments) Rules, 2019, purchase by an NRI/ OCI, including a company, a trust and a partnership firm incorporated outside India and owned and controlled by NRIs/OCIs, on non-repatriation basis of shares and convertible debentures or warrants issued by a company without any limit either on the stock exchange or outside, it will be deemed to be domestic investment at par with the investment made by residents. This is further subject to remittance channel restrictions. However, NRI/ OCI, including a company, a trust and a partnership firm incorporated outside India and owned and controlled by NRIs/OCIs, is prohibited from making any investment, under Schedule 4, in capital instruments or units of a Nidhi company or a company engaged in agricultural/ plantation activities or real estate business or construction of farm houses or dealing in transfer of development rights.

Investment by other Non-Residents

As per Schedule 1 of the Foreign Exchange Management (Non-debt Instruments) Rules, 2019, a person resident outside India may purchase of capital instruments of a listed Indian company on a stock exchange in India provided the person resident outside India making the investment has already acquired control of such company in accordance with SEBI (Substantial Acquisition of Shares and Takeover) Regulations, 2011 and continues to hold such control and the amount of consideration may be paid as per the mode of payment prescribed in Schedule 1 or out of the dividend payable by Indian investee company in which the person resident outside India has acquired and continues to hold the control in accordance with SEBI (Substantial Acquisition of Shares and Takeover) Regulations, 2011 provided the right to receive dividend is established and the dividend amount has been credited to a specially designated non-interest bearing rupee account for acquisition of shares on the recognised stock exchange.

Investors are advised to refer to the exact text of the relevant statutory provisions of law before investing and / or subsequent purchase or sale transaction in the Equity Shares of Our Company.

No person shall make an application in the Issue, unless such person is eligible to acquire Equity Shares of our Company in accordance with applicable laws, rules, regulations, guidelines and approvals.

The Equity Shares offered in the Issue have not been and will not be registered under the Securities Act and may not be offered or sold within the United States, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and applicable U.S. state securities laws. Accordingly, the Equity Shares are being offered and sold (i) within the United States to persons reasonably believed to be “qualified institutional investors” (as defined in Rule 144A under the Securities Act) pursuant to Rule 144A under the Securities Act or other applicable exemption under the Securities Act and (ii) outside the United States in offshore

transactions in reliance on Regulation S under the Securities Act and the applicable laws of the jurisdictions where such offers and sales occur.

The above information is given for the benefit of the Applicants. Our Company and the LM are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of the Red Herring Prospectus and this Prospectus. Applicants are advised to make their independent investigations and ensure that the Applications are not in violation of laws or regulations applicable to them.

Investment by Non-Resident Entities in India Under FDI Policy 2020:

The FDI Policy 2020 provides that a non-resident entity can invest in India, subject to the FDI Policy except in those sectors/activities which are prohibited. However, an entity of a country, which shares a land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country, can invest only under the Government route. Further, a citizen of Pakistan or an entity incorporated in Pakistan can invest, only under the Government route, in sectors/activities other than defence, space, atomic energy and sectors/activities prohibited for foreign investment. In the event of the transfer of ownership of any existing or future FDI in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the restriction/purview as mentioned herein, such subsequent change in beneficial ownership will also require Government approval. The same is in line with the Press Note No. 3(2020 Series) dated April 17, 2020 as issued by the Department for Promotion of Industry and Internal Trade, Ministry of Commerce & Industry, Government of India in order to curb opportunistic takeover/acquisition of Indian Companies due to current COVID-19 pandemic conditions.
